

Medicine Arrived!

Every year, before the heavy rains start, we truck thousands of dollars of medicine from Kenya to South Sudan. This enables our clinic to stay open year-round and provide lifesaving medicine to pregnant mothers and children.

Unloading our medicine

Last year we saw over 40,000 patients and this year we expect the number to rise. During the rainy season from May to October, we see increased numbers of malaria patients sometimes over 300 in one day! It only costs \$5 per patient to cover the running costs of our medical clinic, which includes year-round medicine supplies and staff. EVERY patient hears the gospel, and many receive Christ through our three full-time chaplains who offer counseling and prayer.

God has called us and entrusted to us this amazing work for His Kingdom and His Glory. We know He owns it all and we're the instruments He is using to accomplish wonderful things here in Tonj. When God directs us to share the needs of this ministry we take that responsibility seriously trusting the Spirit to stir hearts in response. As you pray for our ministry this month, please pray if this is an area the Lord is directing you to be involved in. We currently have 52% of our monthly needs met by fully invested financial partners. This is an opportunity for you to join us in furthering His Kingdom!

"The earth is the Lord's, and everything in it, the world, and all who live in it."

– Psalm 24:1

CHE in Bobi!

This past year you have helped us establish CHE in three remote villages. Community Health Evangelism (CHE) is thriving and every week we are hearing testimony after testimony of lives being transformed through CHE. Our villages are currently working on getting their "Healthy Happy Home" certificates. Bobi homes are digging pit latrines which in turn will reduce the spread of diseases.

Bobi Village CHE Team

By supporting our CHE training you are saving lives in three remote villages in one of the poorest countries in the world. We believe CHE is working effectively because we have you, our amazing prayer partners, covering this program and we know that prayer changes lives. Hundreds of people are coming to know Jesus as their personal Savior. Churches have been planted and are growing dramatically. Household incomes have increased, death in young children has decreased. Instead of turning to witchcraft to solve their problems they are turning to Jesus. He is answering prayers for healing, protection, and provision. This is what CHE is about, focusing on preventing problems while growing in Spirit and Truth. Join us in praising God for the fruit of our CHE program!

A New Smile!

It's so awesome to see the body of Christ working hand in hand to bring a new smile and more importantly a new hope to people born with a cleft lip. A volunteer medical team from Samaritan's Purse notified us they would be in Juba repairing cleft lips in April and if we could register any patients that have a need, they would send an airplane to pick them up, do the surgery in Juba and drop them back to Tonj a few days later. This is the third time we have partnered with Samaritan's Purse to transform lives through cleft lip surgery.

Baby Akech before surgery

With her mother after surgery

Almost all people born with any kind of disfigurement in South Sudan are considered cursed, they are often shamed, shunned by their peers and abused. Over 20 patients were sent to Juba and treated. This is a new beginning for them physically, socially and spiritually as they return home with a new smile.

Praising Jesus,

Sabet and Suzy
