

## CC Tonj!

Our church is growing in size but more exciting is the spiritual growth. Sabet has raised up two pastors to help him with teaching and administration. With several church plants in the villages his team are addressing some of the social and cultural issues these churches are facing. They started with a marriage seminar and went deep into God's Word and what it says about marriage.

**Guaria Village Marriage Seminar**

Polygamy is legal and widely accepted even among church members. Sabet shared from Genesis 2:21-24 and how God values men and women equally and His intention is for them to become one body. Weeks later we started hearing testimonies from the churches of how people are making changes in their lives. One man had cows ready and was about to pay the dowry for his second wife. After the seminar he realized this was not God's will for him and decided to use the cows to help the church instead.

Another lady had carried the burden for years that her last born child was not from her husband. After the teaching she was so convicted, and convinced God was speaking only to her! She couldn't sleep so the next day she confessed to the church pastor and her husband with total brokenness and now they are working on reconciliation. We are praising Jesus for the awakening among the people here.

## World Cup Outreach!

Football (soccer) is massive in Africa. Every male from young to old knows how to play and has their favorite teams and players. In keeping with the excitement surrounding the kick-off of the FIFA World Cup, our church organized a special sports outreach for the young men and women in our church. They invited their friends and it was an opportunity to have fun and fellowship together. We had volleyball and table tennis tournaments.

**IDAT Volleyball Tournament**

We arranged to have the opening game on-screen through satellite as the local people don't have electricity in their homes and have limited access to watching TV.

**CC Tonj World Cup Outreach**

After watching the game Sabet gave a short message and the church prayed together. It was a great day! Please keep our church plants in your prayers.

*"Whatever you have learned or received or heard from me, or seen in me – put it into practice. And the God of peace will be with you." **Philippians 4:9***

## Zac and Rebekah!

Rebekah and Isaac are nurses from New Zealand who have been with us since mid-May. They both feel called to medical missions, have a desire to serve in Africa and were excited to have the opportunity through IDAT to explore this further, spending five months here with us during our crazy busy malaria season.

**Isaac caring for a patient**

Most of their time is spent in the clinic and inpatient ward. Rebekah has been busy with the organization of the ward and setting up equipment and a resus room for emergency situations. As well as serving in the clinic, Isaac has been helping Sabet with the new believers' class. And they have both been helping to train the community health workers, recently focusing on the new recruits that just started.

**Isaac teaching our new health workers**

They are both inspired by what God is doing in Tonj with IDAT and excited to be a part of it. Pray for their protection and future direction in missions.

*In His service,*

*Sabet and Suzy Kuj*
