DESCRIPTION

Trails in Hobstone Woods loop through spruce, fir and hemlock to provide a quiet forested retreat. The trail features rocky outcrops, vernal pools, stone walls, and an overlook. A marked main trail creates a large loop with two small side trails. The trail has moderate grade changes.

Originally planned as the third phase of condominiums at Hobstone this 21 acre property was ultimately purchased by Cape Elizabeth Land Trust, Hobsone residents and the Town of Cape Elizabeth in 1997.
