

CRC Little Coders 2.0 @MCE

The **CRC Little Coders Club** is designed to expose young students to the power of coding. Mays Chapel Students in 1st, 2nd, and 3rd grade will meet weekly before school for 6 weeks to learn the design process and introductory coding skills. Students will utilize tools and resources like Code.org, BeeBots, and Ozobots to extend learning and apply new skills.

This year we are offering **3 differentiated sessions** of Little Coders in order to best meet student needs. **Please read carefully to ensure that you sign your child up for the correct session, as some programs have prerequisites and grade limitations.** If you sign up incorrectly, you will be removed and waitlisted for the appropriate session.
