

Klahaya Swim & Tennis Membership

FREQUENTLY ASKED QUESTIONS

How long is the waitlist?

Membership slots open as existing members elect to sell their memberships. A lot of factors go in to why families sell; economy, moves, graduations, etc. It's tough to predict exactly how many / how fast these spots open up. We usually estimate between 10-15 memberships sold per year. Not everyone on the waitlist elects to join as their name comes up.

I have a nanny in the summer, how does that work?

Nannies or babysitters who bring your family's kids to the club during the day on a regular basis, are considered members of the household. It is imperative that the nannies are monitoring the children in their charge. Caregivers are not permitted to bring additional guests of their own.

I can't use my membership this summer, can I give another family my number?

Membership numbers are not transferrable and cannot be loaned. Your family number is for your family only. We do not allow the transfer or use of your family number to/by another family. If you have guests, at least one member of your family must be with them at all times.

If I am not sure if I can use my membership this summer, can I put it on hold?

We do not have provisions in the bylaws to put memberships on hold. To remain a member in good standing, all assessments, dues, and outstanding balances must be paid by opening day. (Please refer to the by-laws for fees and provisions regarding late payment. This is also listed on the Membership Information page on the website.)

I want to sell my membership (or remove myself from the waitlist), can I designate who replaces me?

If you choose to sell your membership, it is sold back to the club. The next family on the waitlist is offered that number. Similarly, if you remove yourself from the waitlist, the next person on the waitlist is offered your position.

Who is included in my family's membership? What about Adult Children, Divorced Spouses or Domestic Partners?

Members include those living in your house. Relatives including adult children (over 21 years old) that do not reside the majority of the time in the primary Member's household are considered guests. This would also include spouses or domestic partners that no longer live with the primary Member.

When do guests have to sign in?

Guests must sign in immediately upon entering the facility.

A guest is any non-member who sets foot on Klahaya property for activities, including but not limited to swimming, tennis, sunbathing, picnicking and basketball. Members shall be held responsible for the actions of their guests and must be with their guests while they are using the Klahaya facility.

What if my guests and I do not arrive at the same time? Do I have to meet my guest as they enter Klahaya?

Members must be with their guests at all times. It is appropriate that members meet their guests as they arrive at the facility.

Who has to take the Shallow Water Test?

Guards will have the discretion to require a shallow water test if they have concern about swimmer safety. The test will consist of swimming across the shallow end of the pool without stopping and without assistance (including floatation devices). If the swimmer cannot complete the test, parental or guardian **in-water supervision is required.**
