Before we kick off the upcoming fall season please review the CYO CROSS COUNTRY COVID SAFETY guidelines. These guidelines were produced after reviewing CDC and New York State recommendations providing information specific to the sport of cross country to help our community successfully operate in a safe way for everyone involved.

The NYSDOH has determined that cross country is a low risk sport (greatest ability to maintain physical distance and/or be performed individually; greatest ability to (1) avoid touching of shared equipment, (2) clean and disinfect any equipment between uses by different individuals, or (3) not use shared equipment at all).

The following guidelines are to ensure parish and/or school programs participating in CYO cross country (practices and/or competitions) are meeting the standards of safety for everyone involved as well as meet our new public health obligation.

Guidelines & Protocols

1) Follow all CDC, NYSDOH, and local health COVID related guidelines.

2) Facilities and bathrooms will be closed. There will be no portable bathrooms.

3) No team tents

4) Coaches, runners, parents, officials and spectators must self-monitor for symptoms and take their own temperatures on the day of practice and competition. A parent or guardian is responsible for completing the daily screening and temperature check on behalf of their child(ren).

5) All coaches and participants are required to undergo a temperature screening prior to entering the course area for practices and meets.

6) A pre-screening questionnaire will be administered to all participants, families, volunteers and staff electronically and must be submitted prior to arriving for practice or meets.

7) Coaches, runners, parents, officials and spectators will be required to arrive wearing a face covering. Coaches, parents, officials must wear their mask at all times.
8) It is the recommendation that participants run with masks*, but runners are permitted to pull down their mask below chin when they are participating in the meet or practice in accordance with CDC and NYSDOH guidelines. At the conclusion of the practice or meet, face coverings should be worn exiting the course area. It is also recommended that a backup mask be carried by the athlete.

*The CYO Club program has been running since June and has found that a quality cloth face covering was comfortable, does not impede breathing and increases focus while running. Coaches wishing to discuss the experience of mask wearing and recommendations for face coverings, please email volunteer CYO Club Coach, Stefan Anikewich at anikewich@gmail.com. If runners elect to wear a mask while participating, they should test out their mask before attending any CYO meet or team practice.

9) Acceptable face coverings for COVID-19 include but are not limited to cloth-based face coverings and disposable masks that cover both the mouth and nose.

10) Spectators must maintain social distancing while viewing the race. Spectators should not congregate around the start / finish area.

11) Children will be asked to bring their own hand sanitizer and water bottles (filled) with their names on them to practices or events. Water fountains are to be turned off.

12) No sharing of clothing, practice uniforms or equipment.

13) No hugging, high fives, shaking hands, or fist bumps.

14) No medals or ribbons will be awarded at the meet.

15) Timing results will be posted online and not released at the meet. Do not approach the timing personnel at any time. Any questions or concerns, alert your coach to bring to the attention of the meet officials.

16) Meet organizers will take into account using non-contact timing methods (bibs and manual timing or other electronic means).

17) At the starting line athletes will be sent in waves, 5 runners at a time, distanced 6 – 10 feet apart. Each heat will start one (1) minute apart.

18) Divisions will be run as in prior seasons and by gender.

19) Designated start times will be established based on number of entries per division. This information will be posted on the website and/or circulated with the coaches leading up to each event. You are to arrive at your reported time. Extra time will be scheduled between races to allow for safe exit from the course and avoid gatherings.
20) Children and their families will be asked to leave immediately following the conclusion of the race.

21) Please adhere to “Trash in / Trash Out” for facilities where trash bins are not available.
