

## **WCYHA Policies and Bylaws**

Over the past few years, the WCYHA Board of Directors has been reviewing current policies and bylaws for our Western organization. After comparing them to other organizations' bylaws, we have decided to modify some of our existing bylaws and policies. These are included in our Operational Handbook, which is posted on our Western website.

The Board of Directors feels it is very important for all members of our organization to become familiar with the new bylaws and policies, as well as the Operational Handbook as a whole. It really is a wealth of relevant knowledge and can assist far more quickly in answering some of the requests and questions normally asked to the Board.

To encourage participation in this, we will be requesting that all parents and/or guardians sign an acknowledgement that they have had read and understand the policies of our Western organization. Team managers will be distributing this document to their team families in the coming week.

If anyone has questions, please feel free to reach out to any of the WCYHA Board Members.

Thank you,

Brendan McCollam, President

Isabel Boulanger, President
