

Mass/Conn United Continues To Grow

Enfield, Connecticut/Agawam, Massachusetts — Mass/Conn United (M/CU) is a local sports organization committed to delivering the most comprehensive club hockey program available to area youth. M/CU prides itself on providing quality programming in a safe, fun environment conducive to personal growth and development.

Mass/Conn United has recently purchased the former Stick Time Sports, the 30,000 square-foot, state-of-the-art training facility in Agawam, Massachusetts. It will be renamed the Mass/Conn United Training Center and will join their existing location at Enfield Twin Rinks in Enfield, Connecticut.

Mass/Conn United's boys' youth teams — Connecticut Jr. Huskies, Springfield Jr. Thunderbirds and New England Jr. Falcons — play in the prestigious Eastern Hockey Federation (EHF). Their girls' teams — Connecticut Jr. Huskies and Springfield Jr. Thunderbirds — compete in the New England Girls Hockey League (NEGHL), the country's top girls league.

"It's an exciting time to be a part of Mass/Conn United. With the addition of the area's only training-specific facility, we can now offer all aspects of on-ice and off-ice development for our players and families. We couldn't be happier about the direction of Mass/Conn United.", said Keith Hillebrecht, Mass/Conn United, General Manager.

Shad Hanrahan, Director of Mass/Conn United Training Center said, "Our goal with the Training Center is to provide supplemental development opportunities for our players in a safe, family-oriented atmosphere. We will strive to become a place where our young players can feel comfortable with their environment and learn at a pace that is best suited to their development. "

Mass/Conn United provides a qualified, professional staff to instruct players and offer programs that are designed for youth to learn and play the sport of ice hockey. All teams, regardless of level, are structured to provide players with the opportunity for individual growth and preparation for success on the ice and in life.

Tryout information, including schedule and process, is available at the program's website, massconnunited.org.
