## HEALTH AND SAFETY PROTOCOLS

Iceland is taking all possible measures to protect everyone who enters our facility when we reopen. Our main concern is the health and safety of all employees, skaters, hockey players, coaches and their families. We are asking for everyone's cooperation in this effort.

We are taking the following steps to ensure that our facility remains clean and safe:

1. All public session skating is suspended until further notice to limit the number of people in the building.
2. Staff, instructors and coaches will be wearing masks. All skaters and parents/guardians must wear a mask off the ice.
3. Frequently touched areas will be cleaned after each group.
4. Hand sanitizer stations will be located in the lobby area and check-in area.
5. We have increased the frequency of cleaning all public spaces, with an emphasis on frequent contact surfaces including, but not limited to, lobby seating, bathrooms, bleachers, tables, door handles, front desk and check-in counters.
6. The building will be cleaned and disinfected each night.
7. The number of skaters or players on the ice will be limited as circumstances require.
8. Snackbar will be closed till further notice.
9. We will be following all federal, state and local laws and guidelines regarding our operations. Below is an overview of the health and safety measures we will be taking and the requirements of anyone entering Iceland. Due to the rapidly changing circumstances and new laws, these procedures are subject to change at any time in the sole discretion of Iceland management in order to maximize everyone's safety.
