

U16-U19 HS TRAVEL PROGRAM INFORMATION

Club Information

The Team Elmhurst Soccer Club has made some positive changes to its programming over the past year. These changes include hiring a Technical Director, improvements to its professional coaching staff, incorporated a new club curriculum, and renovated our own indoor facility with a new field and club offices. These changes have all been made to improve the program for our families and players, which will help us achieve the goals set for each age group.

Age Group Philosophy

The focus of our program at this age is to create an environment that allows each player and the team to develop and reach their full potential.
