

Since the last communication regarding COVID-19 (Coronavirus), there have been fast-moving developments related to the virus and growing public health concerns. NCYSA has notified our club of changes that must be adhered to.

After careful and thorough consideration, **we are suspending all soccer-related activities until Wednesday April 1st.** Effective immediately, all training, games, tournament participation, supplemental training and any other organized club activities are suspended until April 1st.

We have spent the past few days outlining a plan in the event this decision was necessary. Our intent is to restart training and all activity beginning April 1st and extend the season through May to reschedule games, host tournaments, extend time for supplemental training, and ensure that teams can play their full season. As of now, all tryout dates and other club events scheduled after April 1st are still in place. There will be modifications made on the calendar to accommodate the suspension period and to extend the season. More information will be shared as we continue to monitor developments in our community.

We hope that through a collective effort across our sport, community, state, country, and world, we can help limit the spread of this virus. We understand this is a tough time for all, but the health, safety, and well-being of our families and our entire community is our greatest concern.

Please be patient with us and allow us time to plan accordingly during a time of uncertainty that we can't control. We ask that you please hold your questions for the time being as we continue to sort out answers and receive instructions from NCYSA.

Please monitor our website and social media outlets to stay up to date on the latest information. We will communicate frequently with you all as we navigate through this time and make decisions on when it is safe to return to the fields.
