

Goal Keeper/Striker Academy

Train with top quality coaches and staff including DC United and US Men's National Goal Keeper Bill Hamid!

Goal Keeper Training: All Keepers will work with fully licensed GK coaches and will receive advanced technical, tactical, and functional training. Keepers will train in age and ability-appropriate groups to ensure they are challenged but not over-matched. Training includes angles/positioning, collecting/deflecting shots, dealing with crosses, distribution after the save, defending behind defenders and their role as a last defender.

Our Residential Camp

Is focused on team training. Our curriculum will emphasize on team aspects of attacking and defending using different systems of play. The role and functions of positional play in these systems will be broken down in the defensive, middle, and attacking thirds of play.

Team Training: Players will be educated on the principles of attacking and defending. They will receive functional training in different thirds of the field in order to improve speed of play through possession and support

Individual Training: All players will receive advanced skills training to improve their technical ability and speed of play. Each player's ability to "read the game" will improve and they will learn to recognize and play away from pressure while understanding their role.

The Coaching Staff:

Premier AC is proud of the international coaching staff we have assembled for our residential camp. These coaches will expose our campers to the "Pro-Experience" during the week of camp. Our coaching staff originates from all over the world and has coached at Youth, High School, Collegiate, Professional, and National team levels. All Premier AC staff coaches are licensed by USSF, NSCAA, UEFA, or other internationally recognized governing bodies of soccer.

We Hope to See You There!
