## Program Overview

Two hours of on-ice hockey instruction and two hours of lacrosse per day allows your 8 to 16 year old boy to obtain the best of both worlds. Whether experienced or just learning lacrosse he is sure to come away with a great experience.

On the ice the players will improve their skating and skills through a variety of fun and competitive drills that will encourage them to take their game to the next level. On the indoor lacrosse surface, players will learn the fundamentals and advanced parts of the game during various individual and team sessions that will ensure the group leaves with an increased aspiration for the game. The camp will conclude on Friday with tournament style play.

***Players must have hockey experience in order to participate in the hockey portion of the Cross Over Camp. No experience necessary for lacrosse. Full equipment is required for both lacrosse and hockey sessions.***
