

Westerville Warcats Hockey Association Academic GPA Policy

POLICY:

The Westerville Warcats Hockey Association (WWHA) follows the Westerville City School academic performance guidelines for athletic participation. (See Westerville City Schools High School Code of Conduct for Students Participating in Extracurricular Activities)

PROCEDURE:

All players who wish to participate must have a grade point average (GPA) of 1.75 for the grading period immediately preceding participation in try-outs, and maintain this standard throughout the season.

Those players who are below the required grade point average (GPA) of 1.75 at the time of try-outs may participate in try-outs and pre-season practices on probationary status. However, they will not be permitted to participate in any official games, scrimmages, tournaments or exhibitions until proof of compliance with the minimum GPA from the current academic quarter is presented to the Warcats Registrar.

Players who fail to comply with the minimum GPA during the official season will be permitted to attend practices, but will be suspended from playing in official season games, tournaments, scrimmages or exhibitions until the current academic quarter report indicates compliance with this policy.

The WWHA Registrar will validate each player's compliance before try-outs. Each player will present his or her most current grade card to the Registrar, and the Registrar will mark the registration material as either compliant or not compliant.

The WWHA Registrar will verify player's compliance throughout the season by checking the grade card of each player within one week after the school releases the grades, or by an official list from each high school indicating compliance by WWHA players.
