

## **UVRF Quad and Double Race Reservation Policy**

Lineups with more UVRF members have priority over those with fewer.

UVRF members who wish to race a quad or double at a regatta must:

1. have a qualified Level A racing toe for the quad or qualified steerer for the double
2. submit their request to the UVRF president
3. reserve a boat using the racing boat reservation calendar
4. assume liability for the insurance deductible if the boat is not traveling on a UVRF trailer.

If reservations of equal priority have conflicting race times or venues then rowers should try to work out a solution amongst themselves. If they cannot resolve the conflict they may appeal to the UVRF president to arbitrate a solution in consultation with the Executive Committee.

(This policy should work for the short-term because there are very few race qualified toes at UVRF. It is anticipated to change in years to come as more scullers advance to Level A.)
