### Rules specific to 34

Positions at Face Off	At face off, middies shall be on opposite wings from each other with a foot touching the sideline and can release at the whistle. Defense and attack will start behind GLE and release on possession.
Face Off Player	The faceoff player that wins possession of the ball must transition the ball to another player before being allowed to shoot on goal. The transition can be a pass or a sweep to a teammate.
Serving a Penalty	The penalized player immediately leaves the game. The substituted player enters upon the referee's whistle to restart play. This gives the coach an opportunity to coach-up the player.
