

The Chatfield Senior High School Softball program is a highly competitive Jefferson County Sports organization. We compete at the 5A level, playing against some of the best teams in the state of Colorado. In our Fall 2018 season, we made a state tournament/sweet sixteen appearance, and we anticipate that becoming a regular occurrence. We are a program that strives to compete at the highest level of softball competition. Additionally, we are determined to help our athletes grow into the best version of themselves, both on and off the field. We promote teamwork, hard work, and sportsmanship, and foster the development of characteristics such as leadership, integrity, and perseverance.

We are always looking for ways to increase the funding for our program, as these funds create more opportunities for our athletes. Currently, we are looking to replace both our home and visitor dugouts. In comparison to many other schools in the state, our dugouts are definitely the most in need of upgrades and repairs. Our goal is to raise enough money to begin construction of our home dugout in June of 2019, and would like to follow with the visitor dugouts as funds allow. Please consider sponsoring our team in one of the ways explained below. We would be extremely grateful for any support, and in turn we hope your business benefits as well.
