

POMPERAUG YOUTH BASEBALL 2019 PRESIDENT'S MESSAGE

We enjoyed a very successful first season after the merger of Southbury Youth Baseball and Middlebury Baseball, and we have already taken steps to make the 2019 season one to remember.

From the time registration opens in January until the final pitch is thrown in October, we want to see baseball to continue to thrive, as our players develop the teamwork and camaraderie they will remember for a lifetime.

We believe that a positive youth baseball experience provides the necessary foundation for our athletes to play competitive baseball as they mature and grow, whether at the Babe Ruth level, the middle school and high school level, or even beyond.

We hope you have noticed and enjoyed the improvements we have made to all of our playing fields, as we have made a long-term commitment to keep them looking great. We believe it is important for our boys and girls to play with their friends on the fields in their hometowns.

Over the next several weeks, our board members and coaching staffs will be working hard to get the 2019 season rolling, including registration (which closes Feb. 24), sponsorships, field maintenance and improvements, ordering uniforms, and much more.

Each one of our board members and coaches has a passion for baseball and for instructing our children with care, skill, and integrity.

We can't wait for Opening Day!

Phil Pane, President
Mark Lynch, Vice-President
Pomperaug Youth Baseball Board of Directors
