

# RAPTORS

## Reporting Scores

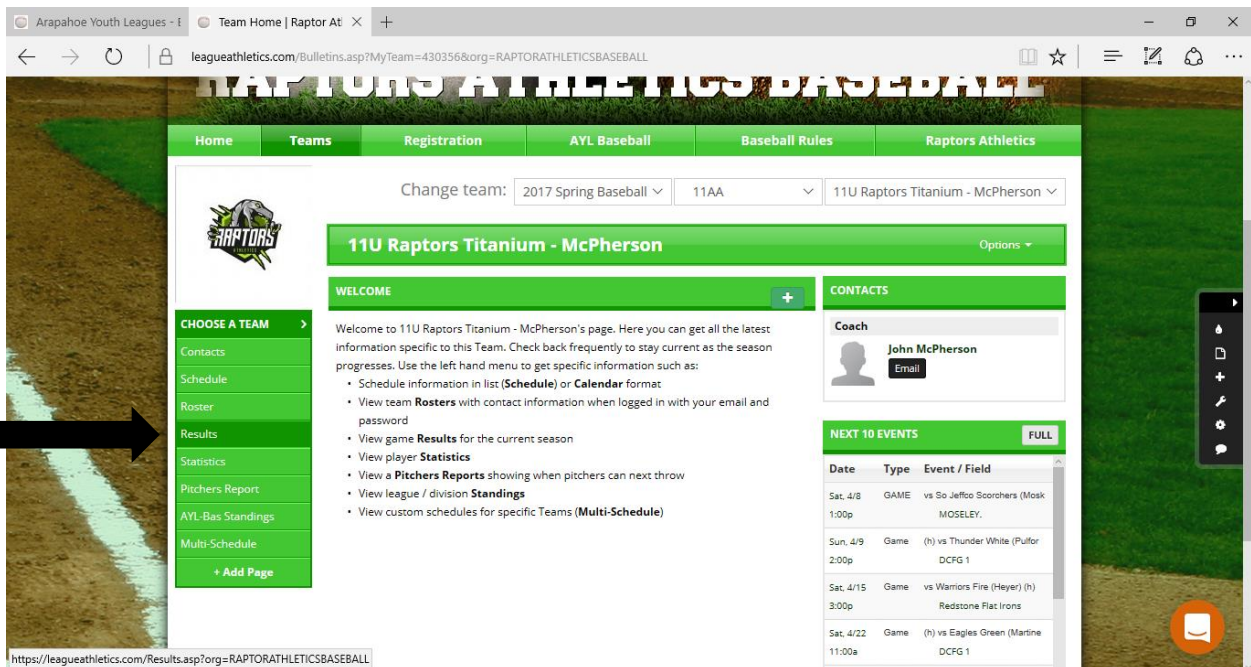

### HOME TEAM MUST COMPLETE WITHIN 24 HOURS

*Must be Head Coach or designated Assistant Coach to report*

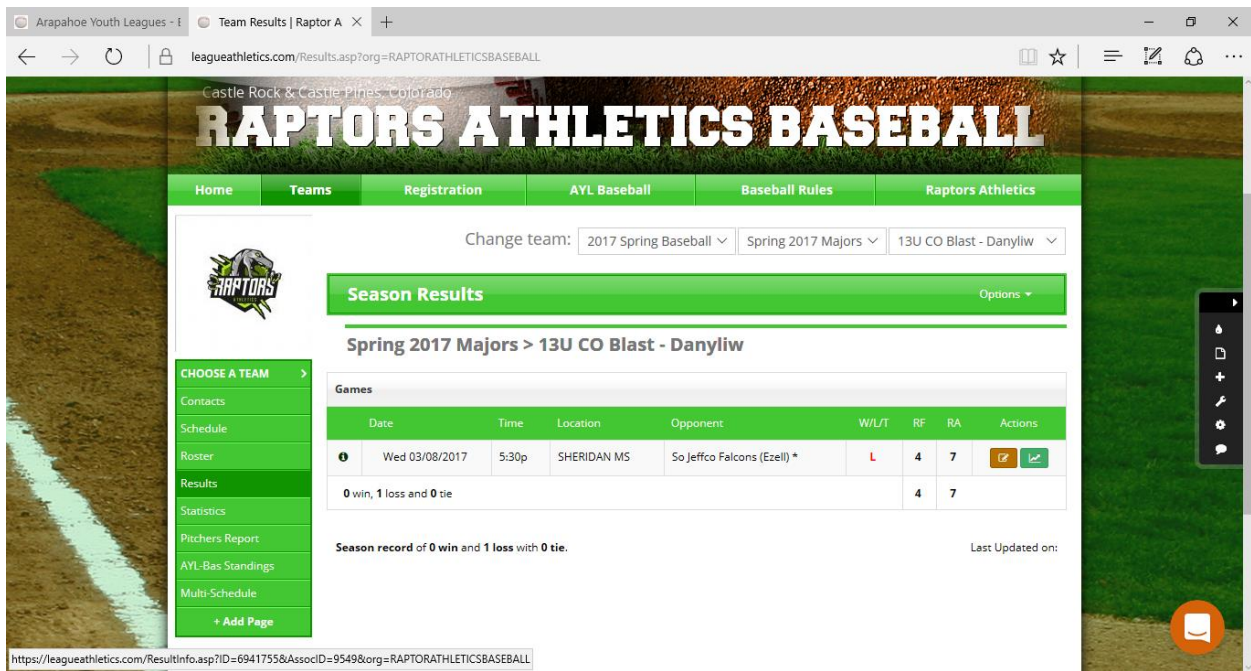

- After each game you will need to log in to the Raptors website and select your team page.

- To enter your results, once you are on the team page you need to click the results link to the left of the screen.

- As soon as you click the results you will see the number of games that were played that week and the scores that need to be reported. You only report the score if you are the home team, or if there is a delay on the home team reporting and either myself, Scott or Jim ask you to report your score.
- In order to record your score you click the orange icon to edit under actions.

- Your screen should look the same except with your credentials to enter in the score
