Athletic Field Addendum
Phase 4 Field Compliance Guidelines

The Frankfort Park District has issued the following guidelines for athletic field usage during "Phase 4" of the Restore Illinois Plan. In Phase IV, youth and recreational sports activities include drills, practices, lessons, and competitive gameplay.

- Be vigilant in preventing the spread of the virus by practicing good hygiene, as recommended by the IDPH and CDC. Wash hands before arrival and bring and use own hand sanitizer.
- Ensure no one participates if they are experiencing any COVID symptoms or exposure risks
- Organization must inform Frankfort Park District if anyone in group on park district property tests positive for COVID-19.
- **Participants should wear face coverings over their nose and mouth whenever not exercising (exceptions can be made for people w/ medical conditions or disabilities that prevent them from safely wearing a face covering). Spectators must wear face covering when within 6ft of others.**
- Keep attendance records for teams in attendance.
- Team/group sizes should be limited to 50 participants which includes the numbers of players, coaches, and umpires. 30-ft of distancing must be maintained between groups/opposing teams.
- Teams/groups should be static, with no mixing of coaches or participants between groups.
- Make hand sanitizer available for the players, coaches and those in the group.
- If social distancing cannot be maintained during game play, all group participants should still maintain 6' of distancing while on the sidelines/not directly involved in game.
- Minimize sharing of high-touch equipment between non-household individuals.
- Sanitize shared equipment prior to usage and during use (e.g., between drills/innings/etc.) and encourage frequent hand sanitizing.
- Encourage players to utilize areas that are out of play to store personal items. Continue to store items 6' from other teammates to limit overcrowding in dugouts.
- When possible, have teams utilize own equipment during competition (ie-baseball team in field on defense uses own baseballs, opposition uses their own baseballs when in field)
- **Staggered activity start and end times to minimize contact between teams or groups.**
- Limit spectators to immediate household members or guardians of participants for both. Spectators from the same household should sit together and should bring their own chairs.
- No team/group meetings and no "high fives", fist bumps, or handshakes.
- Suspend any form of group snacks (no seeds, no gum chewing, no spitting).
- Participants should bring their own source of water and refrain from communal hydration
- No drinking fountains available.
- Encourage participants to take trash out of the park with them.
- Utilize the bleachers for overflow team seating.
- Availability of bleacher seating may be reduced and still requires 6' social distancing. Encourage spectators to bring and utilize their own seating/chair.
- Vacate the field, dugouts and seating area immediately postgame to allow for disinfecting

On behalf of my organization, I have read, understand, and agree to have my organization and its participants and spectators comply with the regulations in this addendum. Failure to comply with these regulations may result in having field permit revoked for the duration of the season without refund. We are working through this together and appreciate your assistance so that everyone can stay safe and have fun.
