

Coach Mike Whitney became involved with the sport through the Danbury Youth Lacrosse club, where his three kids played and his next door neighbor was President. Upon moving to Wolcott in 2008, his kids would only move if they could continue playing Lacrosse. Mike asked them to give him one year. In that first year Coach Whitney met Matt Glaser who coached his son as a U11 player. By 2009, Mike had developed the Wolcott Youth Lacrosse program where he personally coached all levels if youth.

In 2010, Mike extended the program to include High School Boys and Girls as a club team. Mike is known in town for being very persuasive and pro-youth. He convinced the town to give him field space for the program. He has worked diligently to have Lacrosse be full-fledged members in the newly established Sports Complex and continues to lobby the town for lacrosse to be fully adopted at the High School. Coach Whitney has been coaching the Boys High School club team the last four years while overseeing the growth and success of Wolcott Youth Lacrosse. Coach Whitney is a life-long student of the game, always finding new and creative drills to improve a player's skill. His philosophy is that even though perfection is impossible, striving for it makes you great.
