

Good afternoon everyone! We are excited to share the upcoming tryout schedule with our Framingham Youth Hockey family! We thank you for your patience during this time and cannot wait to see your players back on home ice at Loring Arena. With the shortened tryout window you will notice the schedule looks slightly different. Here are a few things to note:

Age Specific Groupings

With the limitation of 25 participants on ice at one time, age groups with higher numbers will be split into 2 separate tryout groups. The groups will be finalized by early next week. Once assigned to a group your player must attend only those scheduled sessions. There is no switching or makeups.

Pre-Tryout Skate

FYHP is attempting to provide a skate for each player that is registered for a travel team tryout and those times are listed below. You must attend **only** the group session that your player is assigned to. Players must bring and wear their own masks.

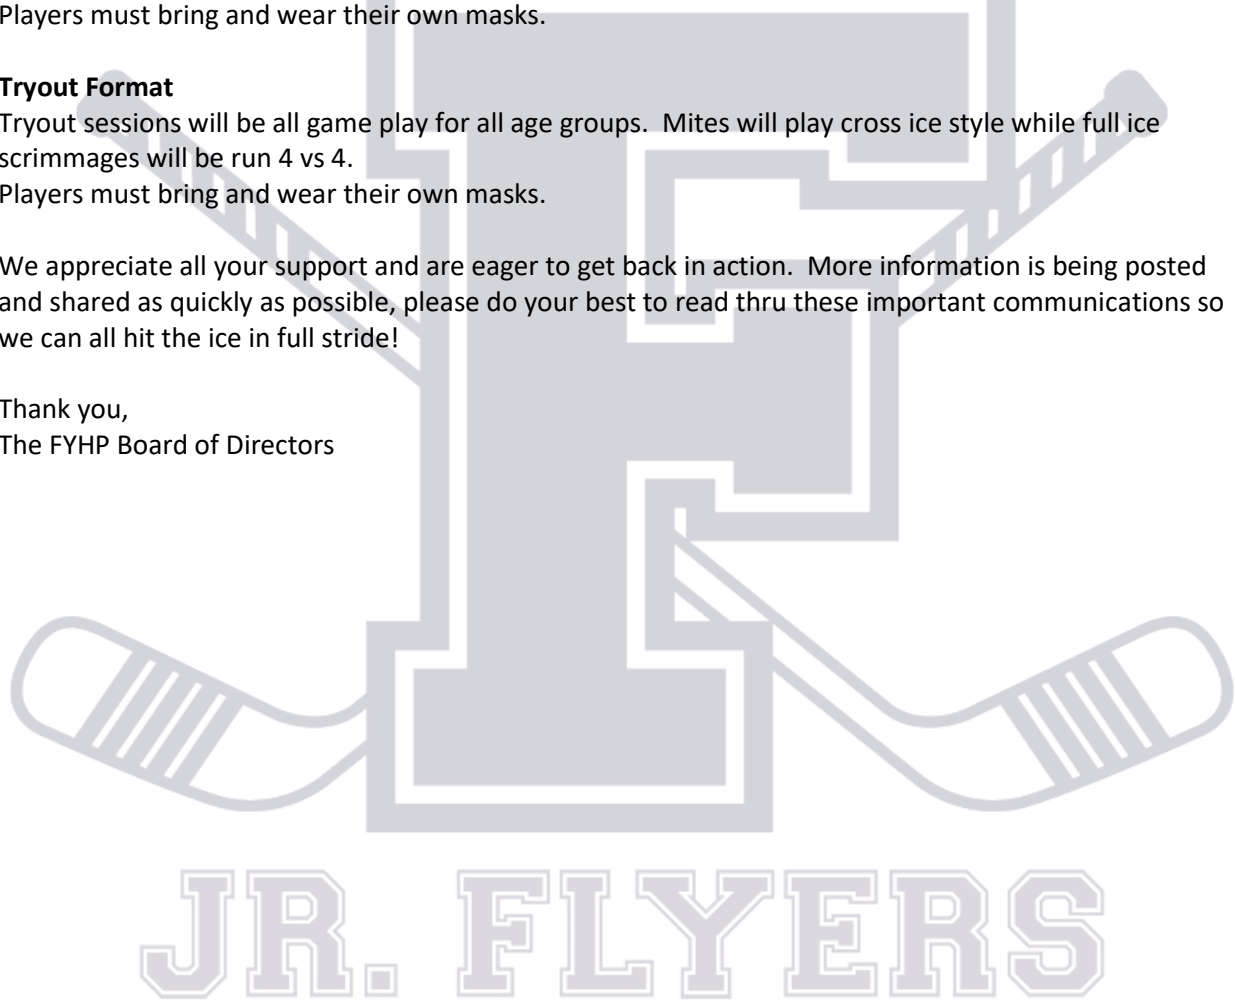

Tryout Format

Tryout sessions will be all game play for all age groups. Mites will play cross ice style while full ice scrimmages will be run 4 vs 4.

Players must bring and wear their own masks.

We appreciate all your support and are eager to get back in action. More information is being posted and shared as quickly as possible, please do your best to read thru these important communications so we can all hit the ice in full stride!

Thank you,
The FYHP Board of Directors
