Special Presentation regarding potential new CAA Website

- Presenters: Pete Linder and Nick Hansgen
- Reviewed a presentation outlining suggestions for new website
- Updates are needed to ensure it's meeting goals of community as well as to enable administrators to use with ease as well
- Cottage Grove and Osseo Maple Grove are good examples of excellent sites
- We would not just be re-doing the website, we would be re-vamping/overhauling it working with Sports Engine
- Believe ballpark cost will be between \$5K - \$10K
- Various board members and sports representatives to be involved - final list to be determined once next steps understood
- Bill made a motion to proceed with initial investigations with Sport Engine, and Beth provided a second
- Motion approved

Next steps: Pete and Nick to continue working with Sports engine - potentially regroup on 12/14/2020 with the board

Soccer:

- Did not have a season for Fall of 2020 due to COVID-19
- Kari would like to resign her position and is looking for others for help
- Decided we did not want to see if the Chan Rec Center would take this over as then the program would not be under the CAA umbrella
- Program involves above 300 kids, K - 8th grade, for about 6 weeks (Labor Day through mid-October)
- Brain stormed around potentially getting some high school kids to run with adult involvement or perhaps Heidi (did not get last name) could assist - Kari to reach out

Raffle Potential:

- Sports group wanted to do a Raffle to fundraise for their own sport
- Board agreed this would not be supported under the CAA Umbrella

For future meetings:

- Discussed potential of establishing a scholarship or memorial in honor of Angie Quinn, an avid supporter of Chanhasen Athletic Association sports who passed away.
- Additionally, do we want to expand our scholarships to other schools like Holy Family instead of just Chanhasen High School
- Board will consider for future meetings

Meeting adjourned - 8:26 PM
