

# Lightspeed Classroom Management™

## Keep students engaged and focused on digital learning

“ I am impressed with this monitoring tool, which has decreased my frustration with students wondering off to other sites and wasting time not focused on the lesson. I like that I can monitor my students' computer activities, record, and use as evidence. Students know they are being monitored, so they are more engaged and on task. ”

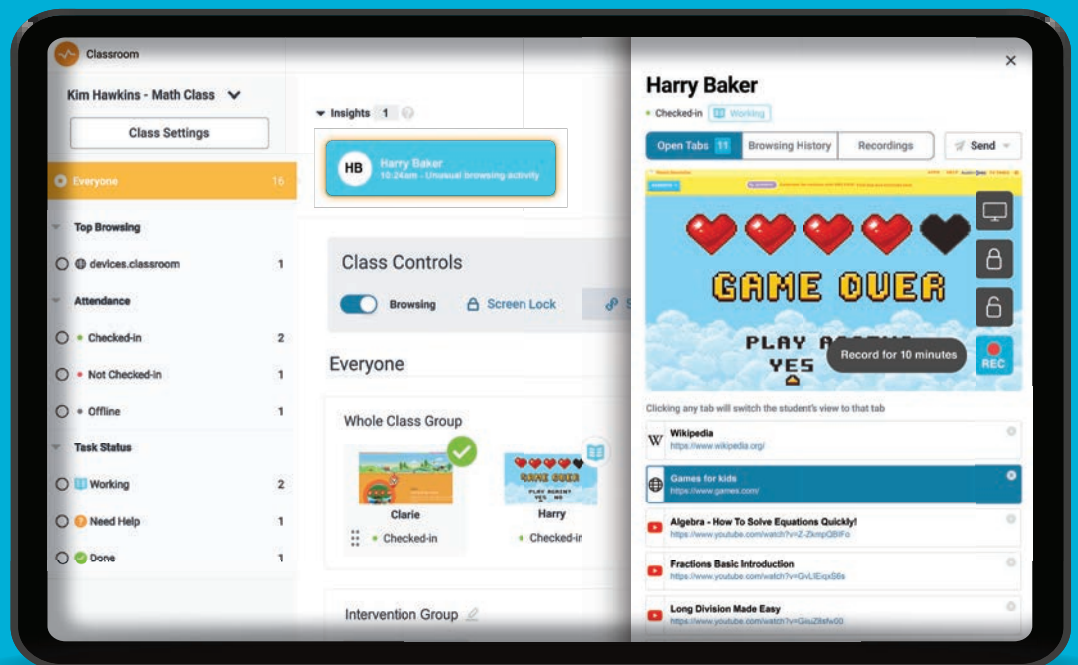

- George Vega, Teacher,  
Tulare Joint Union High School

With Lightspeed Classroom Management™, teachers can keep their students logged in, participating, and focused whether in-person or at a distance. Advanced AI technology gives teachers real-time visibility and control of their students' digital workspaces and online activity.

- Ensure all students interact with only the right online curriculum — precisely when they're supposed to use it.
- Push out vetted curriculum links to all students at the same time.
- Block inappropriate or distracting web sites and apps.
- Help teachers maintain the necessary level of instructional control.

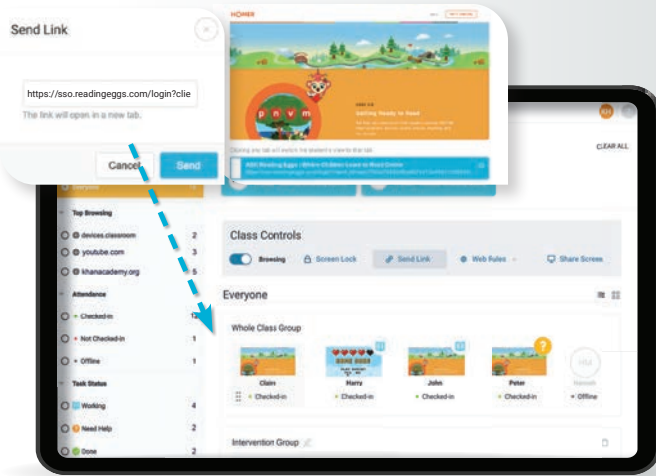

**KEEP STUDENTS FOCUSED**  
Follow up on real-time alerts of unusual activity by viewing a student's screen, open tabs, and browsing history. Need more documentation? It's as easy as clicking "record" to capture a student's activity.

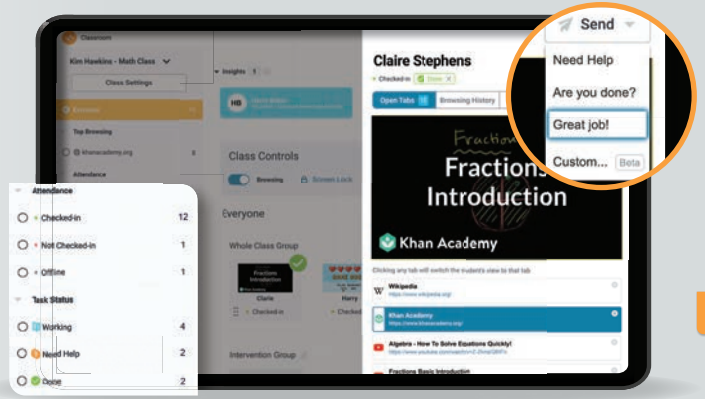

### SAVE VALUABLE INSTRUCTION TIME

Instead of sharing your screen and having kids copy URLs into their browsers, simply send links directly to all student devices and literally get everyone on the same page simultaneously.

### PROVIDE ASSISTANCE REMOTELY

Students can update their statuses to ensure they get help when they need it.

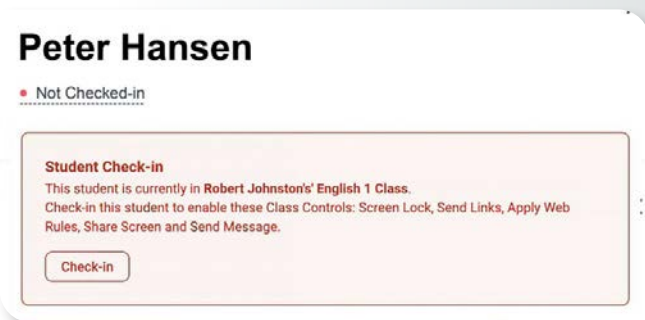

### CHECK-IN ON STUDENT PROGRESS

Educators can keep students connected and engaged by sending custom messages straight to student screens.

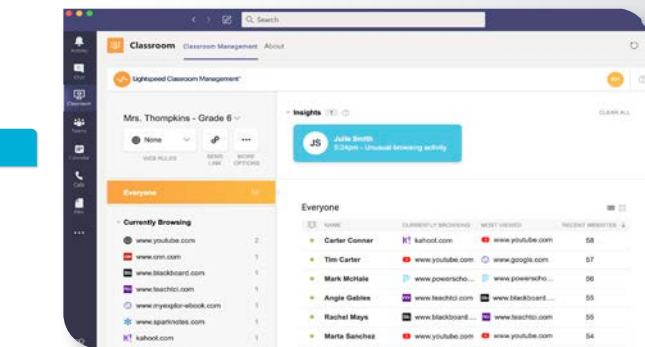

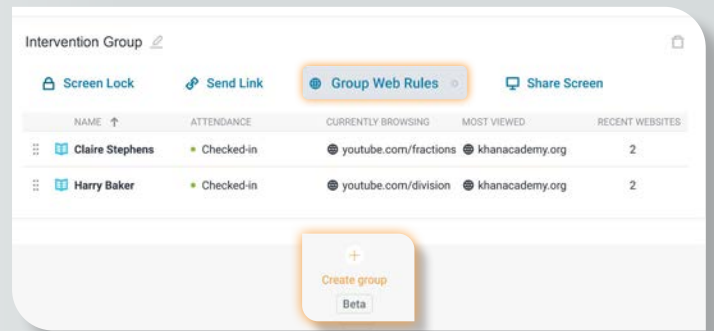

### CHECK-IN STUDENTS WITH STUDENT OVERRIDE

Teachers can override a student's attendance location and bring them into their own digital classroom with just 2 clicks.

### CUSTOMIZE ONLINE CONTENT TO KEEP STUDENTS ENGAGED AND LEARNING

Whether teachers are grouping students by learning style or academic achievement, the Group Web Rules feature allows teachers to customize every lesson to grant individuals or groups of students access to more personalized learning materials while blocking everything else.

### MICROSOFT TEAMS INTEGRATION

Educators can launch Lightspeed Classroom Management directly within Microsoft Teams, giving them the ability to deliver synchronous or asynchronous instruction and materials without leaving the Teams platform.

### Lightspeed Solution Suite

With Lightspeed Systems®, everything your school or district needs to ensure the safest, most effective online learning experience possible is available in an integrated platform.

Management™**

## What sets Lightspeed Classroom Management™ apart?

**Screen Views:** Keep an eye on class activity and student screens with real-time, easy-to-understand activity tables and screen views.

**Class controls:** Lock devices to get eyes up front, close tabs, or limit student web access for secure testing or focused learning.

**Monitor individual students:** Zero in on individual students to see what they're doing, check-in, control access, and keep them on track.

**Integration with Microsoft:** Partnered with Microsoft® Education, Lightspeed Classroom Management is able to integrate seamlessly with the Microsoft suite, including Microsoft Teams.

**AI insights:** Save time with AI-based insights that surface unusual activity that warrant teachers' attention.

**Sharing:** Easily share links, broadcast teacher or student screens, and check in with students with simple (safe!) messaging.

**Automation:** Save precious class minutes by employing automation to move students out of restricted Internet access.
