

1. Please check the appropriate rating for each of the following aspects of this session.

	Agree	Somewhat Agree	Somewhat Disagree	Disagree	N/A
<b>Instructional Materials</b>					
Were used effectively	20	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were relevant/useful	18	1	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hands-on sessions were useful	17	2	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Session Objectives</b>					
Met my expectations	18	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Session Content</b>					
Was well organized	18	1	1	<input type="checkbox"/>	<input type="checkbox"/>
Length was appropriate for course content	7	5	2	1	<input type="checkbox"/>
<b>The Trainer</b>					
Was knowledgeable/organized	19	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Effective presenter	19	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Responsive to questions	18	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>I Acquired</b>					
Knowledge & skills I can use	17	3	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

2. Identify the major strengths of this session (check one or more)

5 Demos/Hands-on      7 Networking      8 Creative ideas

8 Information gained      6 Support materials

2

Other: the local translator and his knowledge; this is very advanced program

3. What part of this session was most helpful? Why?

EBM, PubMed, HINARI and others

Use of PubMed in HINARI; it was very helpful for the Bangladesh Medical Research Council personnel

HINARI and PubMed sessions are most useful for my library; also e-books

Advanced (PubMed) search; by this method, we can easily find out our desired topic

1<sup>st</sup> part of sessions was most helpful – HINARI, PubMed and practice

Practical sessions because through the sessions, I learned and memorized as well

HINARI portal because it is very much useful for our researchers as well as library patrons

HINARI and PubMed sessions were most helpful

All because I now know HINARI

HINARI & PubMed

HINARI, PubMed, SUMMON search, MY NCBI, Zotero, plagiarism,, R4L

PubMed and HINARI were the most helpful sessions which will help me provide information for researchers

Session exercises were most helpful because they were participatory discussions

Session exercises of HINARI and PubMed. I will be more literate and practice myself and to train my users and professionals

The exercises were the most helpful sessions to me because those exercise sessions made us practice what we learned individually and groupwise.

HINARI, EBM, Zotero, MY NCBI, PubMed; some of this is new and will be used by our researchers

HINARI & PubMed were most helpful because we can use the help the researchers get recently published ebooks and ejournals

HINARI & PubMed sessions are most helpful because free books and journals are available using HINARI and for researchers

**4. What part of this session was least helpful? Why?**

None; all the content is very useful and important  
If the training timing is increased, I hope it is more helpful to the participants  
After lunch 3<sup>rd</sup> day – because of tiredness – 3x  
I didn't find any sessions  
Evidence based medicine as the topic is less useful for my profession  
The things you teach that I didn't understand properly  
Last part of session – scientific writing; not useful for our institution  
Last session was least helpful because it was not participatory discussion  
Last session of the last day because we did not have any practicing opportunities – due to time constraint  
The time session was not enough to learn and practice everything

**5. Overall, I would mark this session in a scale of 1 to 5 (with 5 being the highest, best, or most, and 1 being the least or worst)**

1 (lowest)	2	2 - 3 (middle)	2 - 4	16 - 5 (highest)
------------	---	----------------	-------	------------------

**6. Could you please give us some additional comments? Was this training useful for your needs? Would you share with us your Plan of Action in the near future? Are you going to promote HINARI or will you become a trainer?**

This is very important and timely; I want to make myself a HINARI trainer  
No additional comments; yes, this training was useful for my needs. In the future, I share my training experience to others  
I think it is a very short time though we were busy; yes useful; will be more beneficial if training is more time  
The length of some of the sessions can be increased such as Zotero (hands on training); I think this training was very useful for me and, obviously, I want to be a trainer if I get a chance  
The training is very much useful for my needs; Action plan to conduct training program on HINARI for researchers, library members and fellow staff members; yes I am going to promote HINARI and want to become a trainer  
It is a short time  
This is very useful but I couldn't understand everything; short time; I will try my best to promote  
There are no additional comments from my side. The training will be useful for my needs. Yes, I have a plan to share with you in the near future. I am going to promote HINARI and become a trainer.  
The training program is very useful; yes, it is useful for my needs; yes, I will share with you in the near future. I will promote HINARI  
The training program is very helpful and useful but we need more than one day for exercise sessions. Of course, absolutely useful for our needs. Yes, I will share with others; I will try my best to become a good trainer  
Training was very useful. In the near future, I'll try to use the methods and training materials to train others in my institute as well as the researchers we facilitate  
The workshop should be at least 5 days  
The training is very helpful to us. I think the duration of the time should be increased  
This training is very useful for us. Time should be increased for the participants

**7. What other topics would you suggest including in the HINARI training?**

This workshop – 10 days – 2x  
Web of Science – all features  
n/a  
I think all of these are included which are necessary for us  
Very good HINARI training; next time call me  
Yes, useful  
No suggestion

It could be better if you include production of newsletters and reports

International journal and book buying policy may be included

Maybe include advocacy

It would be helpful if the distance learning courses be discussed in details

Common sense library software facilities

PubMed topics should be increased in the HINARI training

**8.** Are you **16** Male **4** Female

(if you complete this item, it will help us to assess our gender equity in training opportunities)
