

Looking for Ways to Save on Weight Loss Medications?

Some health plans may no longer cover certain GLP-1 weight loss medications. If you currently take or are considering these medications, there may still be **lower-cost options available directly through manufacturer programs.**

To access preferred self-pay pricing, you must **enroll directly through the manufacturer's program.** These programs allow eligible individuals to purchase medications outside of insurance.

Available Programs:

- ✓ **Eli Lilly – Zepbound**
Learn about LillyDirect, which allows eligible individuals to purchase Zepbound directly from the manufacturer at self-pay pricing.

**The single-dose Zepbound autoinjector is only available through insurance and is not sold directly through the manufacturer.*

- ✓ **Novo Nordisk – Wegovy**
NovoCare provides information on savings options and direct purchasing opportunities for Wegovy.

- ✓ **Gifthealth – Zepbound KwikPen**
Gifthealth offers the Zepbound KwikPen (4-dose pen) at the same self-pay cost as the vial, providing another option for individuals purchasing outside of insurance.
