2013 NSGC Annual Business Meeting

October 11, 2013

Rebecca Nagy MS, LGC
NSGC President
Overview

- Welcome
- Strategic Plans for the Future
- Nominations Process
- NSGC Financial Update
- NSGC Publications & Communications
- Open Microphone Q & A
- Volunteer Recognition
Strategic Plans for the Future: 2013 Initiatives
Rolling Strategic Plan

- Differs from traditional strategic planning
  - Annual review of landscape by Board and plan adjustment to ensure proactivity and relevance
  - Full review of strategic initiatives every 3 years
  - Align each 3-year strategic plan to support longer-term goals
  - We need member support for this process – you are our best resource
    - Engage with committees, subcommittees and workgroups
    - Participate in SIGs
    - Contact your leaders with emerging information
Looking Ahead: NSGC’s 2014 - 2016 Strategic Objectives

Access
- Payer recognition
  - Cost effective
  - Cost saving
- Reimbursement
- Licensure
- Coalition-building
- Promoting value

Value
- Evidence-based research
  - Outcome Measures
- Evidence-based recommendations
  - Publications
  - Position Statements
- Marketing & Branding

Growth
- Workforce growth
- Collaborations
- Specialization
- Collaborate with ABGC, ACGC & AGCPD
Payer Sub-committee

- Data collected by subcommittee is directly supporting our Federal effort
  - NSGC hired an external firm to conduct cost study and results were highly favorable
  - Cost study currently being used in Hill visits

- Member resource
  - Establishing an evidence base that can be used with various stakeholders
  - Bibliography
Payers recognizing value of GCs

- Cigna and InformedDNA
- Requires genetic counseling by a certified GC or medical geneticist for several conditions
- Allows GC (in-person and telephone) to bill and be reimbursed for services using 96040
- Not a perfect policy
  - Cigna has been made aware of our concerns; dialog ongoing
  - Experiences with Cigna program will be used in future payer discussions
State Licensure Progress

- 11 currently issuing licenses: CA, DE, IL, IN, MA, NE, NM, OH, OK, PA, SD, TN, UT, WA
- 4 in rulemaking: HI, ND, NH, NJ
- 21 with bills introduced or in preparation: CO, CT, DC, FL, GA, ID, IA, KS, KY, MD, MI, MN, MO, MS, NY, OR, RI, SC, TX, VA, WI
Federal efforts - background

- A bill that would recognize genetic counselors as independent healthcare practitioners under Medicare
  - Private payers tend to follow Medicare policy
- Allow GCs to be reimbursed for services
- Bill would not prevent other practitioners from providing genetic services within their scope of practice
Federal efforts - background

- Current financial climate provides opportunity to introduce bill
- Evidence that genetic counselors are cost effective and save healthcare dollars
- Genetic counselors also provide value and high quality healthcare services
Federal efforts - Progress

- Cost study showing significant savings to Medicare if GCs were recognized providers
- Attach bill to the SGR fix
  > Have to wait for this to be opened up for adjustment
- Numerous hill visits over the past 6 months
- Senator Carper (D-DE) current champion
  > Bill language has been drafted
  > Co-sponsors
- Attach bill to the SGR fix
  > Have to wait for this to be opened up for adjustment
Federal efforts – what can you do?

- Licensure is critical
  - Licensure sub-committee within ASD committee
    - Contact John Richardson jrichardson@nsgc.org

- Discussions with local payers

- Data on GC value and cost-savings

- Payer sub-committee can help
  - Contact Joy Larsen Haidle joy.larsen.haidle@northmemorial.com or Monica Marvin monicama@med.umich.edu
What value do genetic counselors provide?

Value

- Evidence-based research
  - Outcome Measures
- Evidence-based recommendations
  - Publications
  - Practice Guidelines
- Position Statements
- Marketing & Branding
Access and Service Delivery Committee

- **Outcome measures**
  - Working to identify patient-centered outcomes measures in genetic counseling
  - Identify and prioritize these measures
  - Educate the profession to promote utilization in genetic counseling research

- **Focus groups at the AEC**

- Thanks to those who participated!
Growth of our profession is critical

- Workforce growth working group
- Collaboration with ACGC, ABGC & AGCPD
- Diversity
- New practice settings
Addressing Demand: Looking to the Future of the Profession

- Continued growth at current rate while expanding the number of training programs/graduates
- Define obstacles to the growth of the profession
- Determine how we can overcome obstacles
- Consider how to address immediate demands and access issues

New workgroup to address these issues beginning in 2014
New initiative-
Assessing needs of NSGC members

- In 2013, NSGC engaged a team of experts to assess needs of membership
- Rigorous process to understand what NSGC can provide to members that they are currently missing
Needs assessment process

**Step 1:** Identify unmet educational needs of identified segment.

**Step 2:** Create concepts that may meet identified educational needs.

**Step 3:** Test concepts with segment for acceptance, shaping, pricing, delivery format, etc.

**Step 4:** Create development plans and financial models for top concepts.

**Step 5:** Approved concepts are developed & launched.

To offer NSGC members products that will enhance their practice and professional development while expanding GC’s reputation and enhancing patient outcomes.
Who We Spoke With

An email invitation was distributed to more than 1,500 NSGC members inviting them to participate in a 90-minute teleconference focus group

- 8 focus groups were held between February 12 - 18
- 45 members participated representing:
  - Various years of experience
  - Clinical, lab and academic facilities
  - ‘Single person’ departments to ‘larger teams and working environments’
Types of Questions

• How their career aspirations brought them to Genetic Counseling
• Current challenges and most rewarding career benefits
• Understand their current professional development aspirations &/or needs
• Understand how they currently view and value NSGC
• Identify topics and issues of greatest are the most pressing and concern
• Probe into their behaviors and perceptions with regard to learning formats and resources
Problem/Oppportunity Area #1
Not having defined roadmaps for career-pathing & managing advancement

- Members shared frustration and concern they are interested in building their career but unclear on how to manage their career direction and advancement
- This can be compounded when they are the only genetic counselor in their facility &/or region; as well as when they are reporting to someone who is not a genetic counselor

“There are advancement limitations.”
“I struggle for recognition on a daily basis.”
“I struggle with the ambiguity of my role.”
“I am personally at a professional crossroads, I don’t know how NSGC can help me.”
Problem/Opportunity Area #2

Need to arm themselves with knowledge related to the business of healthcare

- While the most fulfilling part of their job is patient interaction, there is need for them to advocate and translate their value to the business

- Members referenced an awareness that they did not go to ‘business school’ but now realize they could benefit professionally by being more savvy

  “I need a better understanding of the process, I need to understand how to navigate.”

  “They don’t teach us about the insurance in graduate school.”

  “I have needs in billing. I have a really hard time understanding and how insurance covers genetic counseling.”

  “…make billing more palatable, like a step-by-step process”
Problem/Opportunity Area #3

Opportunity to differentiate Genetic Counselors from alternative providers in order to protect the field

- Members shared that they view licensure as the *most important* need of genetic counselors over the next 18 months

  “Anyone can order a genetic test, only we can explain it.”
  “…sense of professionalism; having licensure in all states.”
  “Licensure, having other professionals aware of (the services) we are providing.”
Concept Testing

- Focus groups were held with members and conducted over Go-to-Meetings
- Participants were able to see and read the concepts in order to follow along and process questions
- 6 groups hosted the week of April 15
- 25 member participants
Top three concepts

• Insurance 101
• Billing, Coding and Credentialing 101
• Building your brand and your business
Needs assessment process

Step 1: Identify unmet educational needs of identified segment.

Step 2: Create concepts that may meet identified educational needs.

Step 3: Test concepts with segment for acceptance, shaping, pricing, delivery format, etc.

Step 4: Create development plans and financial models for top concepts.

Step 5: Approved concepts are developed & launched.

- Top two concepts currently in development
- Will launch in spring 2014
- Similar process with other member segments in future
NSGC Leadership: Nominations and Elections

- **2013 nominations process:**
  > Timeline shifted to allow members to be considered for both NSGC and ABGC board positions
  > Three at-large members chosen for nominations cmte; selected by membership committee via open call for applicants

- **2013 details:**
  > Membership identified strong pool of nominees
  > Diverse slate presented (specialization, work setting, years of experience, gender)
  > Ballot passed with a 42% voting rate
  > 63 individuals declined to vote; reasons varied widely
Nominations committee and process

- Committee made up of president, past president, 2 board members and 3 at-large members
- Use a combination of quantitative and qualitative measures
- Quantitative measures provide overall score of candidate
- Qualitative measures provide assessment of skills, years of experience, fit with current board, specialty area and work setting

Nominations-future directions

- Improve feedback process to nominees
- Improve placement of non-slated members in other leadership positions

- Call for nominees opens in early 2014
- Nominate a colleague or yourself!
- You can make a difference in the future of NSGC by putting forth nominees
2013 Financial Report

Cheryl Harper, MS, CGC
NSGC Secretary Treasurer
Financial Objectives in 2013

- Fully funding operations and strategic initiatives through our operating revenue
- Continuing to focus on new sources of revenue
- Investing in tools and initiatives to help our members and association succeed
  - Advocacy support
  - Public relations
  - Cost study
  - New communication tools
  - New website platform
NSGC Membership: 2,960 and Growing!

Notes:
- PR moved to Branding in 2013.
- Grants/Awards reflect State Licensure Grant Awards and AHSPA donation.
- Leadership reflects IOM Roundtable, NGHPEG dues and new product research.
Progress toward Financial Goals

- Ended 2012 with a surplus of $540,924
- Funded both operations and strategic initiatives through operating revenue, allowing us to preserve and grow our reserves
- Allowed us to make some significant strategic investments in 2013 in PR, Advocacy and our website
- We have not accessed our investment funds for any expenses since 2006
NSGC Publications & Communications

> Journal of Genetic Counseling
> Perspectives in Genetic Counseling
> NSGC Communications
Journal of Genetic Counseling

Bonnie LeRoy, MS, CGC
Editor-in-Chief

Pat McCarthy Veach, PhD
Assistant Editor
Special Editors for the Journal of Genetic Counseling

Christina Palmer, PhD, CGC
Action Editor, COI Manuscripts

Kristin Niendorf, MS, CGC
Action Editor, Special Issues

Ian MacFarlane, PhD
Action Editor, Statistics Consultant
Manuscript submission and processing has increased

- Over the past 12 months, JOGC editorial office received:
  - 231 new submissions; ~19 per month average (original research and professional issue papers)
  - 326 manuscripts were sent out for revision
  - 284 revised manuscripts were received
- Average # of days from submission to first decision is 48.7 (time to publication varies dependent upon time taken to revise)
- Total number of reviewers invited was 751
- The rejection rate for original submissions is 25.4%
- We have had about an 11% increase in NEW manuscripts received over the same time period last year and last year was a 20% increase over the year before!!
Additional Journal of Genetic Counseling Highlights

- The abstracts from this meeting will be in the Dec 2013 issue.
- A Special Issue on Developmental Disabilities was guest edited by Brenda Finucane. This was published in Volume 21, No 6, December 2012.
- JoGC has submitted the table of contents for a Special Issue: “Genetic Counseling: A Global Perspective.” This issue was guest edited by Madelyn Peterson and Beverly Yashar and will be published in Volume 22, No 6, December 2013.
- Christina Palmer and Myra Roche are in the process of guest editing a special issue on “Next Generation Genetic Counseling.”
- Ian MacFarlane joined the editorial board as a statistics consultant in January of 2013.
Journal of Genetic Counseling Future Plans

- A call for papers just went out last week for a 2014 Special Issue on:
  **Public Health Genetics and Genomics.**
- *This issue will be guest edited by Amy Gaviglio and Kirsty McWalter.*
- If you have an appropriate manuscript, please participate in this issue.

In 2014, the editorial board will select one manuscript describing work competed as a student for the new **Journal of Genetic Counseling Student Research Award.**
Perspectives in Genetic Counseling

Deepti Babu, MS, CGC, Editor

Kirsty McWalter, MS, CGC, Associate Editor
• Perspectives has a new look!!

• Wonderful content, links to outside resources

• Consider submitting a piece to Perspectives!
Perspectives in Genetic Counseling: 2014 New Editors

Kirsty McWalter, MS, CGC, Editor

Kristen Hanson, MS, CGC, Associate Editor

Thank you to Deepti for five years as Editor! Perspectives has thrived under your leadership!
NSGC has a new Web site!

Experience the value of a genetic counselor. Increase patient satisfaction and enhance the services you provide to your patients.

The role of genetic testing in healthcare grows more prevalent and complex everyday. Do you have the best resources to provide the most comprehensive, personalized care for your patients?
With a new Member Center!

Should You Get Tested for the Breast Cancer Gene?
Blog: NSGC in the News | By: NSGC Executive Office | Released: Oct 03, 2013 04:10 PM

"I think, oftentimes, those stories oversimplify the matter," Rebecca Nagy, president of the National Society of Genetic Counselors, told Yahoo Shine. For example, she said, women who learn of Jolie’s story might rush in for genetic testing even though they are not at risk—while others, fearing that..."
Updated Find A Counselor Search

- Easier to use search interfaces on one screen
  - Location search
  - Name or area of specialization

- Location search returns contact information and maps location
Updated Discussion Forums

- Improved functionality based on your feedback:
  - Reply right from your inbox like a listserv!
  - Access past posts as with our current discussion forum
  - Archives will be moved over for all forums
Launching soon!

- Watch your email for announcements on the launch date (mid-October)
- Visit the NSGC Booth in the Exhibitor Suite for a preview!
