# Preparing for Your Exam

Why Should I Prepare for My Certification Exam?

→ Preparing for certification gets you recognition from your peers

- Learn what you need to know at a greater depth
- Go outside of your comfort zone
- Discover new approaches, common mistakes, solutions

→ The average person uses only a small subset of a given technology.

- Gain advanced knowledge through preparation

→ Job requirements drive what you learn

- Learn for the job you WANT not the job you HAVE

Planning Your Study and Preparation for Oracle Certification Exams

Review Exam Topics **20%**
Complete a Personal Gap Analysis **10%**
Review Recommended Training **10%**
Practice Where You Need Help **60%**

How to Get Started

We recommend you begin your certification preparation by going to the exam details page.

1. Review and become familiar with all the topics shown on the exam page.

2. Perform a gap analysis on what you are confident in and what you may need additional help with.

3. Review recommended training.

  - ☐ Describe steps to create custom application
  - ☐ Design application framework (metadata and user-defined elements)

It is recommended that you purchase the learning subscription below to prepare for this exam:

Oracle Enterprise Performance Management Cloud Learning Subscription

Oracle Learning Subscriptions provide learning and certification exams packaged together.

This is not a traditional course where you have to listen and attend for the duration.

This complete learning environment with modular content is perfect way to fill in the gaps.

Pick your learning path by role and skill level:

- ✔ Beginner or Advanced, Modular content allows you to skip sequences.
- ✔ Help available, including access to instructors.

Industry recognized Oracle certification exams included:

- ✔ Courses and exam objectives mapped.
- ✔ Practice environments, Hands on labs and Skill checks

24/7/365 Genuine and latest content - continuously updated

Oracle Enterprise Performance Management Cloud Learning Subscription contains:

- ✔ Account Reconciliation
- ✔ Enterprise Data Management
- ✔ Enterprise Performance Reporting
- ✔ Enterprise Planning
- ✔ Financial Consolidation and Close
- ✔ Planning and Budgeting
- ✔ Profitability and Cost Management
