MEETING ANNOUNCEMENT

October 27–28, 2023
Boston Marriott Copley Place
Boston, MA & Online

HOTEL RESERVATION & EARLY REGISTRATION DEADLINE
September 20, 2023, at 11:59 PM (ET)

Stay at the forefront of this ever-expanding field by examining the most important science and topics in quality care today.
Message from the Chair

“Value based care and the delivery of high value quality care is the way in which the healthcare system and healthcare delivery is moving. What stands out about the ASCO Quality Care Symposium is coming together to bring the science behind delivering care with how we deliver that care. So, it’s really bringing the two worlds together.”

Cardinale B. Smith, MD, PhD
Professor of Medicine, Icahn School of Medicine at Mount Sinai
Vice President and Chief Quality Officer, Tisch Cancer Institute
Chair, 2023 ASCO Quality Care Symposium

Joseph Simone Quality Care Award

Deborah K. Mayer, PhD, RN, AOCN, FAAN
Dr. Mayer is the Frances Hill Fox Distinguished Professor Emeritus at the University of North Carolina School of Nursing and a faculty fellow at the M. Louise Fitzpatrick College of Nursing at Villanova University. She is an advanced practice oncology nurse who has over 45 years of cancer nursing practice, education, research, and management experience. Her program of research focuses on the issues facing cancer survivors and improving cancer care. As a nurse who worked on the “frontline” with cancer survivors, and as a cancer survivor herself, she brings a unique perspective to her clinical, research and health policy collaborations with the cancer community.

She is the past president of the Oncology Nursing Society (ONS), was a member of the National Cancer Institute’s National Cancer Advisory Board (a Presidential appointment) and Board of Scientific Advisors, and was elected as a fellow of the American Academy of Nursing. She is active in ONS and ASCO and is a Past Chair of the ASCO Survivorship Committee. She served as the Editor for the ONS’ Clinical Journal of Oncology Nursing (CJON) from 2007–2015 and has published over 200 articles, book chapters and editorials on cancer related issues.

The Perfect Storm of High-Cost Novel Therapeutics: Are We Leaving Patients Out to Sea?

With high novelty comes high costs and patients are the ones to pay. Experts will provide insight into how accelerated approval has impacted pricing and how existing institutional and legislative practices can be reengineered as patient-centered to decrease the financial hardship of modern cancer care.

Building Resiliency Through Team-Based Care Delivery

As the world grapples with the aftermath of COVID-19, meaningful investments in the care delivery team are more essential than ever. A multidisciplinary panel will outline what these investments look like: from addressing workforce shortages, to cultivating supportive organizational climates, to developing the next generation of diverse healthcare professionals, and more.

The Promise and the Perils of Artificial Intelligence in Oncology

A new era of artificial intelligence has arrived and with it, questions about the possibilities and limits that await the cancer care community. How does AI currently impact care for the better and what risks does it pose? How is AI impacting quality outcomes and what research is still needed to successfully leverage AI into high-quality care for all? These questions and more will be addressed.
Innovations in Palliative Care Delivery for Structurally Marginalized Populations: A Roundtable Discussion

How can we ensure all patients have equitable access to high-quality palliative care? Experts in the field will discuss the innovative ways they are providing and tailoring care to patients in vulnerable populations. Factors impacting access such as race, ethnicity, gender identity, sexual identity, geographic location, and socio-economic status will be examined.

Promises and Pitfalls of Multi-Cancer Detection Tests in the Asymptomatic Population

The emergence of multi-cancer detection tests raises questions about their efficacy, clinical relevance, and potential pitfalls. A multidisciplinary panel from across the cancer care community will provide insight into these questions and more as they present a deep dive into the current landscape of MCEDs and what they mean for patient care.
Registration and Hotel Reservations

asco.org/qualityregister

We look forward to bringing the quality care community together! Registration and hotel reservations are open—reserve your spot today. Can’t make it to Boston? Join us online!

**Hotel Reservation and Early Registration Deadline:** September 20, 2023, at 11:59 PM (ET)

**Discounted Room Rates for Attendees**

Discounted hotel rooms with complimentary in-room internet access are available for attendees. To view available hotels and room rates and to make a reservation, visit quality.asco.org/hotel-reservations. To avoid third party companies illegally representing themselves as travel agencies, please book through our website.

**Questions?**

Registration: qualityregistration@spargoinc.com

Hotel Reservations: qualityhousing@spargoinc.com

Phone: 888-788-1522 (within the U.S.) or +1-703-449-6418 (outside the U.S.)

Hours of Operation: 8:30 AM–5:00 PM (ET)
CONTINUING EDUCATION

Sessions at the ASCO Quality Care Symposium have been approved for *AMA PRA Category 1 Credit™*.
