PCAFPD Launches New Grant Program

Dear Philippines RPCVs and Friends,

The PCAFPD board is excited to announce the launching of the **PCAFPD Human Development Grant**.

After careful consideration, the PCAFPD board decided last year to set aside \$10,000 for a five year pilot program to explore the feasibility of providing grants. During the pilot, the PCAFPD board will award up to \$2000 of grants each year to selected recipients.

The Human Development Grant is intended to provide funds for individuals and groups to access further educational and training opportunities, and to support projects undertaken by Philippines PCVs and RPCVs.

The PCAFPD website now contains a page dedicated to The Human Development Grant, which can be found [here](#). Applications for the grant are live and will close on **May 31, 2021**.

The website contains a link to download the application materials. We encourage you to share this news with your network and encourage qualified individuals and groups to apply. We will host digital application workshops in March and April to help interested parties finalize their materials. Final applications and questions can be submitted directly to the board through the pcafpd.grants@gmail.com email address.

As always, Maraming Salamat to our donors who make all of this possible.

Wishing you good health and spirits!

Your PCAFPD Board
