FOR RELEASE: FEBRUARY 2019

New Designs for SS19: Ghanaian Moses Baskets

(left to right) Winneba and Kala

Ethical lifestyle brand The Basket Room is delighted to introduce five new Baby Moses Baskets for SS19, hand woven in rural Ghana.

With carry handles finished in **sustainably-sourced goat's leather**, each baby basket takes **three days to complete**, hand woven from hand dyed veta-vera grass by members of our partner weaving cooperative in Northern Ghana.

Veta vera grass (also known as 'elephant grass') grows wild in Ghana and is incredibly sturdy when woven, producing baskets of exceptional balance and structural integrity. **Supplied with a quilted hypoallergenic foam mattress with a washable cover and organic cotton sheet**, these Ghanaian Moses baskets are the perfect napping space for new arrivals.

MEET THE BASKETS – All from £169

Muna

Gorgeous geometric patterning on a natural sisal base, combining lavender hues, leafy green and turmeric orange. White goat's leather carry handles.

Winneba

A central diamond design in black and orange geometric stripes, with tribal-inspired stripes in deep orange, black and minty green. Brown goat's leather carry handles.

Kala

Hot pink and orange bands pop against a natural grass rim, with an upper band of blue and black tribal patterning. Brown goat's leather carry handles.

Tamale

Simple, natural and finished with brown goat's leather carry handles, Tamale boasts a tribal-inspired diamond motif on each side, in fine black stripes.

Rosu

Broad bands encircle this delightful moses basket in powdery tones of dusky pink, against a base of natural grass. White goat's leather carry handles.

It must be noted that these baskets are not carrying devices and should only be used on the floor or on a flat surface when baby is inside.
