

## *More than a mattress*

Sleepenvie is a Toronto-based online mattress-in-a-box and bedroom lifestyle brand that focuses on customization, convenience and charitable contribution.

Our mission is simply to give our clients the gift of sound sleep so they may wake up rested, refreshed and ready for their day.

We make the mattress-buying process easy by delivering it directly to your door in an easy-to-handle compact box. We strongly believe in customizability, rather than a one-size-fits-all approach. An easy one-minute quiz matches you to the ideal mattress for your lifestyle and sleep habits.

Our Hunter mattress is a hybrid, made with both coil springs and memory foam. It's rare for a bed-in-the-box mattress company to offer a hybrid mattress because mattresses with coil springs can be difficult to compress and heavy to deliver.

We are also the **only** bed-in-a-box mattress company to sell sleeper sofas that are also delivered to your door. Great sleep isn't just for the bedroom anymore! We offer six different styles in Canada from a simple loveseat to a large sofa with a chaise. They are easy to assemble yourself or you can upgrade to white-glove service and our team can assemble for you.

Sleepenvie doesn't get under the covers with just anybody. We don't partner with an organization unless we believe in their core values. We love SKETCH's mission to create progressive and creative opportunities for marginalized youth. Sleepenvie is proud to do its part by helping to develop the next generation of cultural leaders by supporting this empowering movement and providing a percentage of sales to SKETCH. Our contributions will help to foster creativity and love for the arts and will have an impact in creating social change and promote diversity and equality.

Our second charitable partner is People Animal Welfare Society, a local non-profit organization devoted to the rescue of unwanted and abused animals. It's important to us that every animal has a safe place to sleep. When you purchase our Jaxon dog bed, a portion of that sale is donated to PAWS

### Mattresses

**Hunter Mattress:** Designed with athletes in mind, Hunter is a 14-inch combo platter of pocket coil spring and gel tech memory foam which promotes restorative sleep and eases sore muscles through the use of cooling technology. Hunter's got your back. His cooling gel layer adds extra contouring and comfort, while his individually pocketed coils provide extra support. When you sit on the edge, you won't sink because it has foam encasements around the perimeter reinforcing the edges for extra sleeping surface and stability.

**Skyler Pillow:** As we all know, an effective beauty routine begins long before we start putting on makeup, so we designed the Skyler pillow with beauty sleep in mind. Skyler is made with two layers of cooling technology - gel memory foam layer on the inside and ice yarn cover on the outside. Imagine if every side of the pillow was the cool side. Cooling is not just for comfort, it's amazing for your skin because the cool feeling causes your pores to contract, which helps to prevent them from becoming clogged with dirt and oil overnight.
