

# THE BASKET ROOM

FOR RELEASE: FEBRUARY 2019

## GHANAIAN BICYCLE BASKETS FOR CHILDREN

*Ethical homewares brand The Basket Room is thrilled to announce the arrival of two delightful mini bike basket designs for SS19, to add to their collection of bike baskets for grown-ups.*

This charming duo of colourful patterned bicycle baskets is scaled down in size to fit **children's bikes and scooters**, supplied with two leather buckle brackets for attaching to handles. **Veta vera grass** (also known as 'elephant grass') grows wild in Ghana and is incredibly sturdy when woven, producing **baskets of exceptional balance and structural integrity**.

Our Ghanaian bike baskets are a celebration of Northern Ghana's abundant natural raw material, and the age-old weaving skills of its people: **sustainable style and ethical production**, through and through. In our ongoing commitment to fair trade, our baskets are produced from **natural materials** indigenous to the region they are woven in.

Our bicycle baskets each tell an important story about **collaboration and sustainable living**. To become an owner of one of our woven baskets is to become a part of our journey, directly supporting the weavers in becoming less dependent on the unpredictable nature of self-sufficiency farming.

**ELMINA - £42**

Turquoise, pink, turmeric yellow

**YENDI - £42**

Coral, turquoise, blue.

*Hand woven storage baskets, planters, basket bags & bicycle baskets available online at [thebasketroom.com](http://thebasketroom.com) and [Amara.com](http://Amara.com), and in store at The Conran Shop and independent shops in London, Oslo, Santa Barbara, New York, Paris, Cape Town, Melbourne and Tokyo.*

*In 2016 The Basket Room collaborated with Jigsaw to produce a line of woven basket bags and clutches. A selection of their basket bags are sold online at Urban Outfitters.*

*The Basket Room's products have been featured in Vogue, The Telegraph, World of Interiors, Elle Decoration and Martha Stewart.*
