The MAX series modular faceplates combine high capacity with aesthetic enhancements that provide a fresh new look to match today's technologies. The faceplate offers pressure-release designation label covers which eliminate the need for a probe-pic or screwdriver when installing faceplate labels. The faceplates are designed to be used with the angled or flat MAX modules, hybrid Z-MAX® outlets or TERA® outlets. Its durable finish masks minor scuffs that may occur during daily usage. The single gang faceplate can support up to six outlets and the double gang can support up to twelve outlets. Single-gang keystone faceplates are available in select colors and stainless steel. These faceplates are compatible with keystone MAX and Z-MAX outlets.

**Quick Identification**
Color-coded icons allow users to instantly identify different types of devices or applications.

**Variety**
Faceplates available in black, white, gray, ivory, light ivory, and stainless steel.

**Labels**
Sheets of designation labels can be ordered for use with standard printers.

**Installation Flexibility**
MAX, Z-MAX or TERA outlets can be installed from front or rear of faceplate.

**Superior Density**
Fits up to 6 outlets in a single gang or 12 in a double gang faceplate.

**Labeling**
Faceplates include pressure-release designation label covers for quick, tool-less removal.
Product Information

10G MAX® Faceplates
10G MAX Faceplates are required for Z-MAX 6A UTP installations. Isolated port spacing ensures proper Alien Crosstalk performance. Faceplates include designation labels, clear label covers, and mounting screws.

10GMAX-FP(XXX)-(XX)

Add "B" to end of part number for bulk project pack of 100 faceplates.

MAX Faceplates
Faceplates include designation labels, clear label covers, and mounting screws.

MX-FP-S-(XX)-(XX)......... Single Gang

Ports | Faceplate Color
--- | ---

Add “B” to end of part number for bulk project pack of 100 faceplates.

Note: Screws, designation label and clear label cover included.
Product Information

MAX Tamper-Proof Faceplate

Siemon's tamper-proof MAX faceplates provide a secure, low profile solution for mounting our complete line of MAX modules. The design features a one-piece base which accepts up to six angled MAX modules and is secured by a solid cover and a choice of tamper-proof star or standard slotted head screw. The base mounts to any standard North American single gang box.

**Part Number**  **Description**
MX-TFP-S-06-(XX) ... 6-port single gang, tamper-proof faceplate for angled MAX modules

Use (XX) to specify color: 02 = white, 80 = light ivory

Faceplates include tamper-proof and standard #6-32x1 mounting screws and color-matching screw cover.

Note: Tamperproof faceplate is not compatible with Z-MAX® or TERA® outlets.

MAX® Duplex and Designer Faceplates

The MAX Duplex and Designer faceplates are designed for use with Siemon's MAX series mounting frames. They are ideal for today's small office, home office, or residential environment. Faceplates include designation labels and color-matching label covers for circuit identification.

**Part Number**  **Description**
DP-S-(XX) .................. Single gang, Duplex faceplate
DR-S-(XX) .................. Single gang, Designer faceplate
DRE-D-(XX) ............... Double gang Designer/Duplex faceplate
DR-D-(XX) ............... Double gang Designer faceplate

Use (XX) to specify color: 02 = white, 20 = ivory, 25= bright white, 80 = light ivory
MAX Mounting Frames
Siemon’s MAX mounting frames provide a solution for installing MAX, Z-MAX® or TERA outlets in an environment where electrical Duplex or Designer style faceplates are desired. They are compatible with any Duplex or Designer style faceplate. The mounting ears can also be detached and used as spacers between the frames and mounting boxes.

Designer Mounting Frames

MX-D1Z-(XX) ..........
Designer mounting frame, accepts one MAX or Z-MAX outlets

MX-D2Z-(XX) ..........
Designer mounting frame, accepts two MAX or Z-MAX outlets

MX-D4Z-(XX) ..........
Designer mounting frame, accepts four MAX or Z-MAX outlets

MX-D6F-(XX) ..........
Designer mounting frame, accepts six flat MAX or Z-MAX outlets

Duplex Mounting Frames

MX-E2F-(XX) ..........
Duplex mounting frame, accepts two flat MAX or Z-MAX outlets

MX-E2A-(XX) ..........
Duplex mounting frame, accepts two angled MAX or Z-MAX outlets

MX-E4F-(XX) ..........
Duplex mounting frame, accepts four flat MAX or Z-MAX outlets

MX-E4A-(XX) ..........
Duplex mounting frame, accepts four angled MAX outlets

MX-D4F-15-(XX) ....
4-port MAX mounting frame with HD15 female-female adapter installed

MX-D4F-15E-(XX) ....
4-port MAX mounting frame, HD15 cut-out, empty

Use (XX) to specify color: 02 = white, 04 = gray, 20 = ivory, 25 = bright white, 80 = light ivory
