Siemon Pre-Terminated Trunking Cable Assemblies - US

Siemon’s pre-terminated trunking cable assemblies provide an easily installed and cost effective alternative to individual field-terminated channels. Combining factory terminated and tested modules with Siemon cable in a high-performance modular cable assembly, trunking cable assemblies are designed to simplify the installation of high-performance cabling systems in data centers and other high-density, environments.

Unique breakout kit creates optimal cable orientation and limits cable crossing

Utilizes Siemon’s high performance cable

Each leg is designated for proper module orientation

Each cable assembly is coded with a unique identification number for administrative purposes

Six-leg, double-ended design presents a smaller profile when pulling

High-strength closed mesh sheath ensures snag-free handling

Ideal for Data Center raised floor and ladder rack environments resulting in up to 75% faster deployment.

Simple installation — pre-terminated outlets snap easily into Siemon modular panels.

Each assembly is packaged to protect factory terminations.

**MAJOR PRODUCT FEATURES**

- 6-leg, double ended construction
  - Presents a smaller profile when pulling
- Straight cut
  - Allows left, right or center exit
- Unique closed mesh sheath
  - Ensures snag-free handling
- Robust breakout kit
  - Maintains cable orientation and prevents crossing
- Pre-attached pulling eye to aid installation

Other lengths and configurations available upon request.

Lengths below 30m (100ft.) are coiled and packed in box. Longer lengths ship on reels.

Note: These products are made to order. Call for lead time and part number availability in your region.

Additional custom configurations are available using the various outlet and plug options shown below. Some combinations may not be compatible. Please contact Siemon customer service for details on available configurations.

Z-MAX Panel Outlet (Category 6A Shielded, Category 6A UTP, Category 6 UTP)
Z-MAX Keystone Outlet (Category 6A Shielded, Category 6A UTP, Category 6 UTP)
Z-MAX Hybrid Outlet (Category 6A Shielded, Category 6A UTP, Category 6 UTP)
TERA Modular Outlet (Category 7A/8.2)
Keystone MAX Modular Outlet (Category 6 UTP)
Angled MAX Modular Outlet (Category 6 UTP)
Flat MAX Modular Outlet (Category 6 UTP)
Z-MAX 6A Shielded Plug (Category 6A Shielded)
Z-MAX 6A UTP Plug (Category 6A UTP)
TERA 4-Pair Plug (Category 7A/8.2)
BladePatch Plug (Category 6 UTP & Category 6A Shielded UTP)
MC6 Plug (Category 6 UTP)
Unterminated
