

Connecting the World to a Higher Standard

## **Siemon Joins the InfiniBand® Trade Association**

**Watertown, CT** – The Siemon Company, a global leader in network infrastructure solutions, is pleased to announce that it has joined the InfiniBand® Trade Association (IBTA). Founded in 1999, IBTA is chartered with maintaining and furthering the InfiniBand™ Architecture specification to help enable users across the globe to gain access to higher-speed connectivity quicker, and more reliably.

Gary Bernstein, Siemon's Sr. Director of Global Data Center Sales, stated, "Siemon is thrilled to announce our membership in the InfiniBand Trade Association (IBTA), reinforcing our commitment to advancing network infrastructure solutions globally. We recognize the pivotal role InfiniBand plays in meeting the escalating demands of cutting-edge technologies like Artificial Intelligence and accelerator cards. As a leading global manufacturer of high-performance IT infrastructure solutions and services, Siemon is committed to providing innovative cabling and connectivity solutions that enable the advancement and adoption of this technology".

###

### **About InfiniBand Trade Association**

The InfiniBand Trade Association was founded in 1999 and is chartered with maintaining and furthering the InfiniBand and the RoCE specifications. The IBTA is led by a distinguished steering committee that includes HPE, IBM, Intel Corporation, and NVIDIA. Other members of the IBTA represent leading enterprise IT vendors who are actively contributing to the advancement of the InfiniBand and RoCE specifications. The IBTA markets and promotes InfiniBand and RoCE from an industry perspective through

online, marketing and public relations engagements, and unites the industry through IBTA-sponsored technical events and resources. For more information on the IBTA, visit [www.infinibandta.org](http://www.infinibandta.org).

## About Siemon

Established in 1903, Siemon is an industry leader specializing in the design and manufacture of high-quality, high-performance IT infrastructure solutions and services for Data Centers, LANs, and Intelligent Buildings. Headquartered in Connecticut, USA, with global sales, technical, and logistics expertise spanning 150 countries, Siemon offers the most comprehensive suites of copper and optical fiber cabling systems, racks, cable management, and Intelligent Infrastructure Management solutions. With more than 400 patents specific to structured cabling, Siemon Labs invests heavily in R&D and the development of Industry Standards, underlining the company's long-standing commitment to its customers and the industry. Through an ongoing commitment to waste and energy reduction, Siemon's environmental sustainability benchmarks are unparalleled in the industry.

Siemon Interconnect Solutions (SIS) is a Siemon business unit comprised of a team of dedicated technical sales professionals supported by Siemon Labs, mechanical, electrical, and signal integrity engineers committed to solving industry and customer-driven interconnect challenges. We provide custom network infrastructure solutions to OEMs, Leading Manufacturers, Value Added Resellers, and System Integrators.
