In the heart of Haw Creek, this updated 3 BR/2 BA home combines clean, modern finishes with the lived-in comfort the neighborhood is known for, just 5 minutes from downtown Asheville. This home exudes warmth, charm, and quality craftsmanship.

Beautiful hardwood floors run throughout the main living areas, creating a sense of flow and continuity from room to room.

The kitchen is the heart of the home, centered around a generous quartz island with bar seating and ample storage. Soft-close cabinetry, stainless steel appliances, warm wood shelving, custom blinds, and layered lighting make it both practical and inviting—perfect for cooking, gathering, or casual coffee breaks.

The dining area includes built-in cabinetry and opens through French doors onto a concrete patio, an ideal spot for outdoor meals or relaxed weekend mornings. The living room features a vaulted ceiling and wood stove that add character, with large front-facing windows bringing in gorgeous natural light.

A split-bedroom layout provides privacy and flexibility. The primary suite includes a double vanity, soaking tub, tile shower with built-in niches, and a walk-in closet. A front bedroom with four windows and long-range views works perfectly as an office or flexible space.

The second bath offers a large vanity, tile flooring, and tiled shower walls with a tub.

Just off the back patio, a mudroom and laundry area include a washer and dryer. Outside, the fenced front and side yard provides privacy and space for pets or play without heavy upkeep.

Energy-conscious upgrades—including a fully encapsulated crawl space and spray-foam insulation beneath key living areas—support year-round comfort and efficiency.

New sidewalks currently being installed along Haw Creek Road will connect you to the neighborhood park, library, and coffee shop, with seamless access to I-40 and downtown Asheville, offering the best of both city convenience and mountain living.
