

Zimbra Cloud™

The Next Generation Email & Collaboration Platform

State-of-the-art Email and Collaboration for SMB, Enterprises, Governments and others who want a reliable, secure, intuitive solution that increases engagement and productivity and is highly extensible to fit into any desired collaboration app suite. Zimbra Cloud is a leap forward in email:

- Next generation, truly stateless architecture
- With reseller options, targeting small to medium businesses — new revenue opportunity for Service Providers!
- Smart integrations with commonly used third party apps like Zoom, Slack, Dropbox, Google Drive and more

Zimbra Cloud — The Platform

- SaaS
- Built from the ground up to lower TCO
- Native on Cloud Infrastructures like AWS and Oracle
- Cloud agnostic architecture for freedom of choice
- Highly available and flexible
- Scales from a few dozen users to millions of users
- Optimizes high performance

Zimbra Cloud Application — The User Experience

Collaboration

Everything you need to conduct business in one place ... email, calendar, chat, videoconferencing and more.

Modern, Responsive UI
