

Zimbra Connect

Zimbra Connect is chat and more, right in your Zimbra Web Client — available for Zimbra Network Edition

At A Glance

Zimbra Connect licenses can now be purchased on a per user basis for Zimbra Network Edition: bringing enterprise-level chat and video calls right into the Zimbra Web Client, with no third-party products and simple installation. Now your team can communicate and collaborate all in one place, with a great user experience, all inside the communication tool they use the most - email.

Native Chat and Video Calls in the Zimbra Web Client

Does your staff use separate apps for chat and video calls? Apps that you can't manage? Provide everything they need to collaborate right inside Zimbra. The Zimbra Connect tab gives users access to all of the text and video options, and the chat pane can be moved anywhere that is convenient. Zimbra Connect is an elegant, powerful and simple solution to your communication needs.
