

# Highly Interactive HTML5/JavaScript Scheduler

“The Syncfusion Scheduler component helped us a lot.”

**Hans Kemperman**

	Sun 11	Mon 12	Tue 13	Wed 14	Thu 15
9:00 AM	Explosion of Betelgeuse Star 9:30 AM - 11:00 AM		Blue Moon Eclipse 9:30 AM - 12:00 PM		Mysteries of Bermuda Triangle 9:30 AM - 11:00 AM
10:00 AM					
11:00 AM		Thule Air Crash Report 11:00 AM - 2:00 PM		Meteor Showers in 2018 11:30 AM - 1:00 PM	
12:00 PM					Milky Way as Melting pot 12:00 PM - 2:00 PM
1:00 PM					
2:00 PM					

## BENEFITS

Reduced development time

Easy integration

Helped meet deadline

## CHALLENGE & SOLUTIONS

NDS is a company that develops smart, data-driven digital signage software. Software developer Hans Kemperman loves the opportunities his company gives him to use new technologies and work with multiple partners to accomplish a common goal.

So when his team began developing a management portal to manage their digital signage platform, Kemperman started looking for a good new technology to help them along. He found Syncfusion's Scheduler component in their Essential JS 2 suite.

“Creating a scheduler component on our own was very costly, complex, and time-consuming,” said Kemperman. “The Syncfusion Scheduler component helped us a lot.”

Kemperman's team saved a lot of time using the Scheduler and was able to meet their deadline. He is looking forward to the next Essential Studio release to see how his favorite controls will continue to improve.
