2) If you need the documentation to be installed locally in your machine, please click on the 'View locally installed documentation' link in the Dashboard after installation. This will prompt you to download the documentation install (144 MB). This can be installed if needed. The download link of the help setup has been placed here for your reference.

5) An important change from this 5.1 version is that the Syncfusion samples will be installed in the MyDocuments folder.

C:\Documents and Settings\\${user}\My Documents\Syncfusion\

eg:

C:\Documents and Settings\Administrator\My Documents\Syncfusion\

Note:

Installing under any order should work. But, we recommend the below order.

For using both 1.1 and 2.0:

syncfusionessentialstudiosetup.exe

syncfusionessentialstudio11setup.exe

syncfusionessentialstudiohelpsetup.zip (optional)

For using 2.0 alone:

syncfusionessentialstudiosetup.exe

syncfusionessentialstudiohelpsetup.zip (optional)

For using 1.1 alone:

syncfusionessentialstudio11setup.exe

syncfusionessentialstudiohelpsetup.zip (optional)
