5

REASONS
TO LIST ON THE
CSE

1 STRAIGHTFORWARD REQUIREMENTS

The CSE makes going public more accessible for growing, early-stage companies seeking new investment audiences. See how our policy manual "stacks" up:

2 A CONNECTED EXCHANGE

Connected to 13 discount brokers including six discount arms of major Canadian banks

Real-time data carried on Google Finance

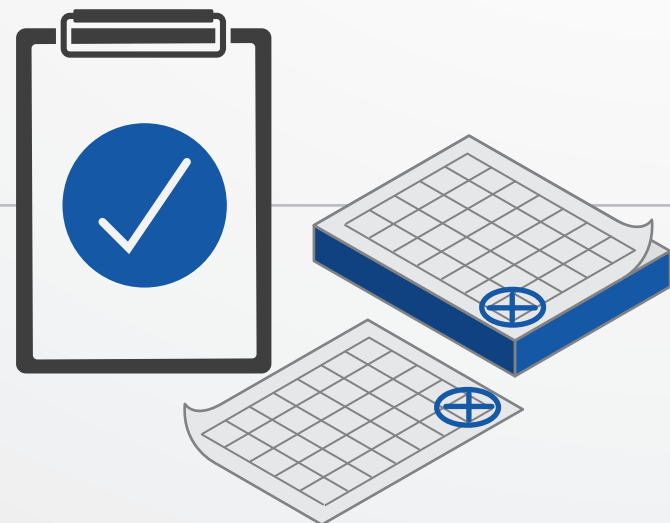

Market depth displayed for free on theCSE.com

3 ENHANCED DISCLOSURE

Companies listed on the CSE complete monthly progress reports ensuring regular business updates for investors and stakeholders.

Investors are never left in the dark with respect to companies listed on the exchange. All issuer disclosure is available at theCSE.com

4 STREAMLINED REGULATION

The CSE ensures that deals get done faster, on-time, and without unnecessary exchange interference.

STREAMLINED PROCESS

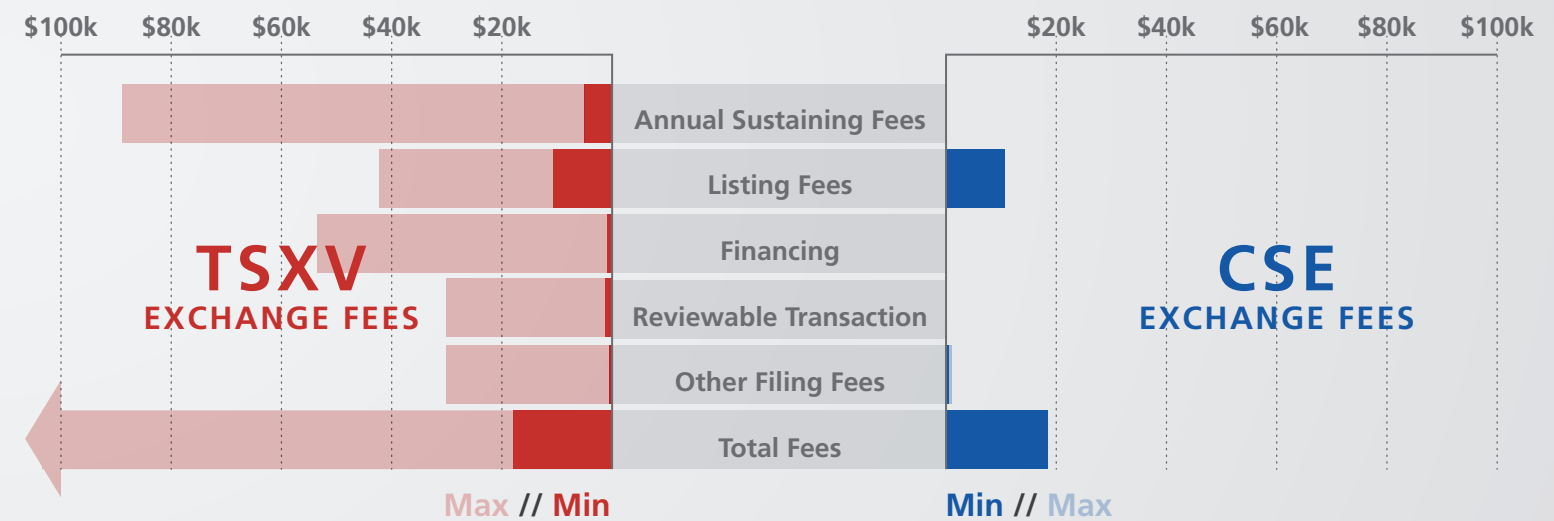

Listed companies are free to transact, raise capital, and make announcements without prior exchange approval.

5 LOW, FIXED FEES

The CSE fee model means companies can budget their costs and funds raised on the marketplace are devoted to growing the business, not paying for the privilege of a listing.

- THE CSE does not levy fees on private placements, ensuring more capital raised goes toward growing the business
- All fees on THE CSE are 'fixed' - no scaling fees means better cost control

3 ENHANCED DISCLOSURE

FOR ENTREPRENEURS

These are five reasons why entrepreneurs are choosing the CSE as their Exchange of choice.
