FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, and Section 27A of the Securities Act of 1933. Any statements contained in this report that are not statements of historical fact may be forward-looking statements. When we use the words "intends," "estimates," "predicts," "potential," "continues," "anticipates," "plans," "expects," "believes," "should," "could," "may," "will" or the negative of these terms or other comparable terminology, we are identifying forward-looking statements. Forward-looking statements involve risks and uncertainties, which may cause our actual results, performance or achievements to be materially different from those expressed or implied by forward-looking statements. These factors include our; research and development activities, distributor channel; compliance with regulatory impositions; and our capital needs. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

Except as may be required by applicable law, we do not undertake or intend to update or revise our forward-looking statements, and we assume no obligation to update any forward-looking statements contained in this report as a result of new information or future events or developments. Thus, you should not assume that our silence over time means that actual events are bearing out as expressed or implied in such forward-looking statements. You should carefully review and consider the various disclosures we make in this report and our other reports filed with the Securities and Exchange Commission that attempt to advise interested parties of the risks, uncertainties and other factors that may affect our business.

All statements other than statements of historical fact are statements that could be deemed forward-looking statements. The Company assumes no obligation and does not intend to update these forward-looking statements, except as required by law. When used in this report, the terms "BioVie", "Company", "we", "our", and "us" refer to BioVie, Inc.

Notes to Condensed Financial Statements
For the Six Months Ended December 31, 2018 and 2017
(unaudited)

1. Background Information

BioVie Inc. (the “Company”) is a clinical-stage company pursuing the discovery, development, and commercialization of innovative drug therapies. The Company is currently focused on developing and commercializing BIV201, a novel approach to the treatment of ascites due to chronic liver cirrhosis. In April 2017, the Company signed a Cooperative Research and Development Agreement (CRADA) with the McGuire Research Institute Inc. in Richmond, VA, and began dosing patients with BIV201 in September 2017. As of January 2019, all six of the planned patients had been treated with BIV201 therapy or enrolled in this ongoing Phase 2a clinical trial.

BIV201 has the potential to improve the health of thousands of patients suffering from life-threatening complications of liver cirrhosis due to hepatitis, nonalcoholic steatohepatitis (NASH), and alcoholism. It has FDA Fast-Track status and Orphan Drug designation for the most common of these complications, ascites, which represents a significant unmet medical need. The FDA has never approved any drug specifically for treating ascites. The Company has issued a US Patent covering the use of BIV201 for the treatment of ascites patients in the outpatient setting using ambulatory pump infusion, and has filed patent applications for its drug candidate in Japan, and Europe, Hong Kong, and China.

The BIV201 development program began at LAT Pharma LLC. On April 11, 2016, the Company acquired LAT Pharma LLC and the rights to its BIV201 development program. The Company currently owns all development and marketing rights to its drug candidate. The Company and PharmaIN, Corp. (“PharmaIN”), LAT Pharma’s former partner focused on the development of new modified drug candidates in the same therapeutic field but not including BIV201, had agreed to pay royalties equal to less than 1% of future net sales of each company’s ascites drug development programs, or if such program is licensed to a third party, less than 5% of each company’s net license revenues. On December 24, 2018, the Company returned its partial ownership rights to the PharmaIN modified terlipressin development program and simultaneously paid the remaining balance due on a related debt. PharmaIN, Corp. rights to our program remain unchanged.

The Company’s activities are subject to significant risks and uncertainties including failure to secure additional funding to properly execute the Company’s business plan.

2. Liquidity and Going Concern

The Company’s operations are subject to a number of factors that can affect its operating results and financial conditions. Such factors include, but are not limited to: the results of clinical testing and trial activities of the Company’s products, the Company’s ability to obtain regulatory approval to market its products, competition from products manufactured and sold or being developed by other companies, the price of, and demand for, Company products, the Company’s ability to negotiate favorable licensing or other manufacturing and marketing agreements for its products, and the Company’s ability to raise capital. The Company’s financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has experienced losses since inception and has an accumulated deficit of approximately \$5.8 million at December 31, 2018. In addition, the Company has not generated any revenues and no revenues are anticipated in the foreseeable future. The Company’s future operations are dependent on the success of the Company’s ongoing development and commercialization efforts, as well as continuing to secure additional financing.

BIOVIE INC.
Notes to Condensed Financial Statements
For the Six Months Ended December 31, 2018 and 2017
(unaudited)

2. Liquidity and Going Concern (continued)

In July 2018, the Company completed a capital raise from Acuitas Group Holding, LLC ("Acuitas") and other purchasers and received net proceeds of \$3.2 million and has resumed to further clinical development of BIV201. The Acuitas investment agreement also stipulated that if the clinical development of BIV201 continues, Acuitas may invest an additional \$3 million to fund operations in year two, less any federal or FDA grant funding received by the Company.

The future viability of the Company is largely dependent upon its ability to raise additional capital to finance its operations. Management expects that future sources of funding may include sales of equity, obtaining loans, or other strategic transactions. Although management continues to pursue these plans, there is no assurance that the Company will be successful in obtaining sufficient financing on terms acceptable to the Company to fund continuing operations, if at all. These circumstances raise substantial doubt on the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

3. Significant Accounting Policies

Basis of Presentation – Interim Financial Information

The accompanying unaudited interim financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United State of America ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Commission for Interim Reporting. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The unaudited interim financial statements furnished reflect all adjustments (consisting of normal recurring accruals) that are, in the opinion of management, considered necessary for a fair presentation of the results for the interim periods presented. Interim results are not necessarily indicative of the results for the full year. The Condensed Balance Sheet at June 30, 2018 was derived from audited annual financial statements but does not contain all the footnote disclosures from the annual financial statements. The accompanying financial statements and information included under the heading: "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with our Company's audited financial statements and related notes included in our Company's Form 10-K for the year ended June 30, 2018 filed with the SEC on October 5, 2018.

For a summary of significant accounting policies, see the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2018 filed with the SEC on October 5, 2018.

Net Loss per Common Share

Basic net loss per common share is computed by dividing the net loss before deemed dividend by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding and potentially outstanding shares of common stock during the period to reflect the potential dilution that could occur from common shares issuable through stock options, warrants, convertible preferred stock and convertible debentures. Due to the net loss for the period, such amounts were excluded from the diluted loss since their effect was considered anti-dilutive.

Recent accounting pronouncements

The Company considers the applicability and impact of all Accounting Standard Updates ("ASU's"). ASU's not discussed below were assessed and determined to be either not applicable or expected to have minimal impact on our balance sheets or statement of operations.

In June 2018, the FASB issued ASU 2018-07, "Compensation – Stock Compensation (Topic 718): Improvements to Non-employee Share-Based Accounting". This guidance aligns the accounting for share-based payment transactions with non-employees to accounting for share-based payment transactions with employees. Companies are required to record a cumulative-effect adjustment (net of tax) to retained earnings as of the beginning of the fiscal year of the adoption. Upon transition, non-employee awards are required to be measured at fair value as of the adoption date. This standard will be effective for fiscal years beginning December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the impact of this ASU on the financial statements.

Office Lease

On October 1, 2018, the Company executed a lease agreement with Acuitas Group Holdings, LLC (related party) for the Company's office at 11601 Wilshire Blvd Ste 1100, Los Angeles, CA 90025. The lease is a month-to-month lease that may be cancelled upon 30 days' written notice and requires monthly payments of \$1,000.

Challenge to US Patent

On April 30, 2018, the Company received notice that Mallinckrodt Pharmaceuticals Ireland Limited had petitioned the US Patent and Trademark Office (USPTO) to institute an Inter Partes Review of BioVie's US Patent No. 9,655,945 titled "Treatment of Ascites" (the '945 patent). Inter Partes Review is a trial proceeding conducted with the USPTO Patent Trial and Appeal Board (PTAB) to review the patentability of one or more claims of a patent. Such review is limited to grounds of novelty and obviousness on the basis of prior art consisting of patents and printed publications.

7. Commitments and Contingencies (continued)

On August 15, 2018, BioVie submitted a Preliminary Response to the PTAB providing a rationale as to why, in the Company's opinion, Mallinckrodt's request to institute the IPR should not be granted. On November 14, 2018, the PTAB granted institution of the IPR challenge after determining that there was a reasonable likelihood of success in proving that at least one of the Company's 14 claims was unpatentable. BioVie will seek to defend the '945 patent and/or pursue a favorable settlement. As of December 31, 2018, no adjustments or accruals are reflected as the Company is unable to determine a likely outcome at this time.

Royalty Agreements

Pursuant to the Agreement and Plan of Merger entered into on April 11, 2016 between LAT Pharma LLC and NanoAntibiotics, Inc., BioVie is obligated to pay a low single digit royalty on net sales of BIV201 (continuous infusion terlipressin) to be shared among LAT Pharma Members, PharmaIN Corporation; and The Barrett Edge, Inc.

The Company and PharmaIN Corporation, LAT Pharma's former partner focused on the development of new modified drug candidates in the same therapeutic field but not including BIV201, had agreed to pay royalties equal to less than 1% of future net sales of each company's ascites drug development programs, or if such program is licensed to a third party, less than 5% of each company's net license revenues. On December 24, 2018, the Company returned its partial ownership rights to the PharmaIN modified terlipressin development program and simultaneously paid the remaining balance due on a related debt. PharmaIN, Corp. rights to our program remain unchanged.

Pursuant to the Technology Transfer Agreement entered into on July 25, 2016 between BioVie and the University of Padova (Italy), BioVie is obligated to pay a low single digit royalty on net sales of all terlipressin products covered by US patent no. 9,655,645 and any future foreign issuances capped at a maximum of \$200,000 per year.

The fair value of each option grant on the date of grant is estimated using the Black-Scholes Option – Pricing model reflecting the following weighted-average assumptions:

	December 31,	
	2018	2017
Expected life of options (In years)	5	2
Expected volatility	67.91%	69.66%
Risk free interest rate	2.98%	1.59%
Dividend Yield	0%	0%

Expected volatility is based on the historical volatilities of three comparable companies of the daily closing price of their respective common stock and the expected life of options is based on historical data with respect to employee exercise periods. The Company accounts for forfeitures as they are incurred.

The Company recorded stock-based compensation expense of \$16,285 and \$19,697 for the three-and six-month periods ended December 31, 2018, respectively, and \$27,021 and \$39,773 for the three-and six-month periods ended December 31, 2017, respectively.

The fair value of options vested during the six-month period ended December 31, 2018 and 2017, was \$6,823 and \$16,854 respectively.

As of December 31, 2018, there was approximately \$4,966 of unrecognized compensation cost related to non-vested options granted which is expected to be recognized over a weighted-average period of 4 months.

The following is a summary of stock options outstanding and exercisable by exercise price as of December 31, 2018:

Exercise Price	Outstanding	Weighted Average Contract Life	Exercisable
\$ 0.05	300,000	4.8	300,000

Offerings of Common Stock and Warrants

Issuance of Shares for Cash

On July 3, 2018, BioVie, Inc., the Company, entered into a Securities Purchase Agreement (the "Purchase Agreement") with Acuitas Group Holdings, LLC ("Acuitas") and certain other purchasers identified in the Purchase Agreement (together with Acuitas, the "Purchasers") pursuant to which (i) the Purchasers agreed to purchase an aggregate of 2,133,332 shares of the Company's newly created Series A Convertible Preferred Stock (the "Preferred Stock") at a price per share of \$1.50 per share of Preferred Stock (the "Initial Sale") and (ii) the Company will issue associated warrants (the "Warrants") to purchase 213,333,200 shares of the Company's Class A Common Stock (the "Common Stock"), each subject to the terms and conditions set forth in the Purchase Agreement, for an aggregate consideration of \$3.2 million. The Company received \$160,000 of the \$3.2 million in April and May 2018 as prepaid equity. Acuitas also received an additional 833,333 Warrants in connection with the payoff of a note issued by the Company in favor of Acuitas. The Initial Sale and issuance of the Warrants occurred on July 3, 2018. In addition, Acuitas has the option to purchase up to an additional 200,000,000 shares of Common Stock at a price per share of \$0.015, and associated warrants on the same terms as the Warrants, within two weeks following the one year anniversary of the closing of the Initial Sale (the "Subsequent Sale") in the event that the Company has not obtained \$3,000,000 of funding through various non-dilutive grants prior to the one year anniversary of the closing of the Initial Sale.

Each share of Preferred Stock automatically converted into 100 shares of Common Stock upon the filing with the Secretary of State of the State of Nevada of a Certificate of Amendment to the Company's Articles of Incorporation (the "Amendment") on August 13, 2018 that increased the number of authorized shares of Common Stock to 800,000,000. The Amendment was approved by the written consent of the holders of more than a majority of the Company's issued and outstanding Common Stock on July 3, 2018 and was filed with the Secretary of State of the State of Nevada 20 calendar days following the distribution of the Company's Definitive Information that was filed with the Securities and Exchange Commission.

The purchase price of the Preferred Stock in the Initial Sale, the exercise price of the Warrants, and the Common Stock in the Subsequent Sale is subject to adjustment. In the event that Mallinckrodt Pharmaceuticals Ireland Limited prevails in any proceeding which results in the useful life of the Company's current intellectual property rights being reduced by more than 75 percent, then the price per share of Common Stock, the associated conversion ratio of the Preferred Stock, and the exercise price of the Warrants shall be retroactively adjusted to 50 percent of the then-effective price per share of Common Stock under the Purchase Agreement (for example, if the then-effective price per share of Common Stock is \$0.015, then following such event, the price per share will be \$0.0075). In this case, the Company may be required to issue additional shares of Common Stock, but in no event will the Company be required to pay cash, to reflect such lower price per share.

8. Equity Transactions (continued)

The Purchase Agreement contained customary representations and warranties. In connection with the disclosure schedule associated with the representations and warranties, the Company also disclosed customary information, including the following: (i) the existence of the Mallinckrodt Pharmaceuticals Ireland Limited petition before the US Patent Trial and Appeal Board, (ii) the current capitalization of the Company, (iii) the Company's obligation to pay a low single digit royalty on the net sales of BIV201 (continuous infusion terlipressin) to be shared among LAT Pharma LLC members, PharmaIN Corporation and The Barrett Edge, Inc. pursuant to the Agreement and Plan of Merger, dated April 11, 2016, by and between LAT Pharma LLC and the Company, (iv) the Company's obligation to pay a low single digit royalty on net sales of all terlipressin products covered by specified patents up to a maximum of \$200,000 per year pursuant to the Technology Transfer Agreement, dated July 25, 2016, by and between the Company and the University of Padova (Italy), and (v) certain recent issuances of Common Stock by the Company.

Pursuant to the Purchase Agreement, Terren Peizer, the Chairman of Acuitas, was appointed as a member of the Company's Board of Directors (the "Board") and as the Chief Executive Officer of the Company, effective July 3, 2018. The issuance of the Preferred Stock, the Warrants and the underlying common stock under the Purchase Agreement is exempt from registration under the Securities Act of 1933, as amended (the "Securities Act"), pursuant to the exemption for transactions by an issuer not involving any public offering under Section 4(a)(2) of the Securities Act.

Issuance of Shares in Settlement of Debt

During the six months ended December 31, 2018, the Company settled \$1,475,765 of debt including \$1,313,765 owed to related parties, by issuing 975,361 shares of common stock with a fair value of \$1,150,135. See notes 5 and 6.

Issuance of Stock Options

On October 1, 2018, the Company issued stock options to purchase 100,000 shares of common stock to the Chief Financial Officer as part of her compensation. The stock options were issued and are exercisable at an exercise price of \$0.07 at any time from date of issuance and expire in 5 years from the date of issuance.

On October 13, 2018, the Company issued stock options to purchase 100,000 shares of common stock as part of their annual board of director compensation. The stock options were issued and are exercisable at \$0.05 at any time from date of issuance and expire in 5 years from the date of issuance.

On October 27, 2018, the Company issued stock options to purchase 100,000 shares of common stock as part of their annual board of director compensation. The stock options were issued and are exercisable at \$0.05 at any time from date of issuance and expire in 5 years from the date of issuance.

On November 10, 2018, the Company issued stock options to purchase 100,000 shares of common stock as part of their annual board of director compensation. The stock options are exercisable at an exercise price of \$0.05 at any time from date of issuance and expire in 5 years from the date of issuance.

Cashless exercise of warrant

On August 4, 2018, the Company issued 2,241,913 shares of common stock pursuant to a cash less exercise of warrants to purchase 2,500,000 shares at an exercise price of \$0.015 per share. As a result of the conversion of the Series A Preferred Stock in July 2018, the exercise of warrants to purchase 2,500,000 shares of common stock was reduced from \$0.15 per share to \$0.015 per share.

Warrant Price Adjustment

In December 2017, the Company issued warrants to purchase 2,500,000 shares of common stock in a private placement transaction for aggregate gross proceeds of \$100,000. The warrants were exercisable at an exercise price of \$0.20 at any time from date of issuance until 7 years from the date of issuance. The warrants have a down round feature that reduces the exercise price if the Company sells stock for a lower price. In January 2018, the Company sold shares at \$0.15, which therefore triggered the reduction in the strike price. The Company calculated the difference in fair value of the warrants between the stated exercise price and the reduced exercise price and recorded \$20,995 as a deemed dividend. In July 2018, the Company sold shares at \$0.015, which therefore triggered the reduction in the strike price. The Company calculated the difference in fair value of the warrants between the stated exercise price and the reduced exercise price and recorded \$44,889 as a deemed dividend. The fair value of the warrants granted was estimated using the Black Scholes Method.

In January 2018, the Company issued warrants to purchase 210,000 shares of common stock in exchange for banking services which was recognized at fair value. The warrants were exercisable at an exercise price of \$0.15 at any time from date of issuance until 7 years from the date of issuance. The warrants have a down round feature that reduces the exercise price if the Company sells stock for a lower price. In July 2018, the Company sold shares at \$0.015, which therefore triggered the reduction in the strike price. The Company calculated the difference in fair value of the warrants between the stated exercise price and the reduced exercise price and recorded \$3,770 as a deemed dividend. The fair value of the warrants granted was estimated using the Black Scholes Method.

The following table summarizes the warrants that have been issued:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Life (Years)	Aggregate Intrinsic Value
Outstanding at June 30, 2018	4,774,015	\$ 0.29	5.0	\$ —
Granted	214,166,533	\$ 0.02	5.5	\$ 2,141,665
Expired	—	\$ —	—	\$ —
Exercised	(2,500,000)	\$ 0.02	—	\$ —
Outstanding and exercisable at December 31, 2018	216,440,548	\$ 0.02	5.5	\$ 2,141,665

Of the above warrants, 1,173,864 expire in fiscal year ending June 30, 2022, 556,818 expire in fiscal year ending June 30, 2023, and 214,709,866 expire in fiscal year ending June 30, 2025.

The following discussion of the Company's financial condition and the results of operations should be read in conjunction with the Financial Statements and Notes thereto appearing elsewhere in this document.

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. In order to comply with the terms of the safe harbor, the Company notes that in addition to the description of historical facts contained herein, this report contains certain forward-looking statements that involve risks and uncertainties as detailed herein and from time to time in the Company's other filings with the Securities and Exchange Commission and elsewhere. Such statements are based on management's current expectations and are subject to a number of factors and uncertainties, which could cause actual results to differ materially from those, described in the forward-looking statements. These factors include, among others: (a) the Company's fluctuations in sales, expenses and operating results; (b) risks associated with international operations; (c) regulatory, competitive and contractual risks; (d) product development risks; (e) the ability to achieve strategic initiatives, including but not limited to the ability to achieve sales growth across the business segments through a combination of enhanced sales force, new products, and customer service; and (f) pending litigation.

Management's Discussion

Biovie is a clinical-stage company pursuing the discovery, development, and commercialization of innovative drug therapies targeting life-threatening complications of liver cirrhosis. Our initial disease target is ascites, a serious medical condition affecting about 100,000 Americans and many times more worldwide. Our therapeutic drug candidate BIV201 is based on a drug that is approved in about 40 countries to treat related complications of liver cirrhosis (part of the same disease pathway as ascites), but not yet available in the US. The active agent in BIV201, terlipressin, is a potent vasoconstrictor which is in use for various medical conditions around the world. The goal is for BIV201 to interrupt the ascites disease pathway, thereby halting the cycle of accelerating fluid generation in ascites patients.

Comparison of the three months ended December 31, 2018 to the three months ended December 31, 2017

Total operating expenses for the three months ended December 31, 2018 were \$501,000 compared to \$495,000 for the three months ended December 31, 2017. The net increase of \$6,000 was primarily due to a \$19,000 increase in research and development expenses due to the timing of clinical trials, offset by a \$13,000 reduction in selling, general and administrative expenses due to the issuance of common stock in 2017 as compensation for professionals.

Research and Development Expenses

Research and development expenses were \$206,000 for the three months ended December 31, 2018, an increase of \$19,000, from \$187,000 for the three months ended December 31, 2017. The increase was primarily attributed to the timing of when clinical trials were run.

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$238,000 for the three months ended December 31, 2018, a decline of \$13,000, compared to \$251,000 for the three months ended December 31, 2017. In 2017, the Company paid for professional fees with BioVie common stock.

Comparison of the six months ended December 31, 2018 to the six months ended December 31, 2017

Total operating expenses for the six months ended December 31, 2018 were \$992,000 compared to \$1,157,000 for the six months ended December 31, 2017. The net decrease of \$165,000 was primarily due to a \$337,000 reduction in selling, general and administrative expenses due to the issuance of common stock in 2017 as compensation for professionals, offset by the increase in research and development expenses of \$172,000 as the Company resumed its clinical trial program and hired two full time employees in November 2018.

Research and Development Expenses

Research and development expenses were \$401,000 for the six months ended December 31, 2018, an increase of \$172,000, from \$229,000 for the six months ended December 31, 2017. The increase was primarily attributed to continued analytical research and associated regulatory and clinical trial program planning and the Phase 2a clinical trial activities which began in July 2018.

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$477,000 for the six months ended December 31, 2018, a decline of \$337,000, from \$814,000 for the six months ended December 31, 2017. In 2017, the Company paid for professional fees related to financial and strategic advisory services with BioVie common stock.

Capital Resources and Liquidity

The Company completed a capital raise of \$3.2 million in July 2018 which enabled the Company to resume and further develop its products. At December 31, 2018 the Company had \$1.6 million of cash to complete its Phase 2 clinical trials of the BIV201 therapy and initiate the next Phase 2b clinical trials. As further discussed below, the Company is pursuing various options to raise further financing to continue the testing and development of its product. If the Company is not successful in raising additional funds it may reduce its monthly spend and potentially delay the implementation of the larger scale Phase 2b Clinical trial until sufficient funding is secured.

As of December 31, 2018, the Company had an accumulated deficit of \$5.8 million and as a development stage enterprise, the Company expects substantial losses in future periods. The accompanying interim financial statements were prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company's future operations are dependent on the success of the Company's ongoing development and commercialization effort, as well as continuing to secure additional financing.

In July 2018 it completed a capital raise from Acuitas Group Holding, LLC ("Acuitas") and other purchasers and received gross proceeds of \$3.2 million and has resumed to further clinical development of BIV201. The Acuitas investment agreement also stipulated that if the clinical development of BIV201 continues, Acuitas may invest an additional \$3 million to fund operations in year two, less any federal or FDA grant funding received by the Company.

We cannot assure you that our drug candidate will be developed, work, or receive regulatory approval; that we will ever earn revenues sufficient to support our operations or that we will ever be profitable. Furthermore, since we have no committed source of financing, we cannot assure you that we will be able to raise money as and when we need it to continue our operations. If we cannot raise funds as and when we need them, we may be required to severely curtail, or even to cease, our operations.

Management intends to attempt to secure additional required funding primarily through additional equity or debt financings. We may also seek to secure required funding through sales or out-licensing of intellectual property assets, seeking partnerships with other pharmaceutical companies or third parties to co-develop and fund research and development efforts, or similar transactions. However, there can be no assurance that we will be able to obtain required funding. If we are unsuccessful in securing funding from any of these sources, we will defer, reduce or eliminate certain planned expenditures in our research protocols. If we do not have sufficient funds to continue operations, we could be required to seek bankruptcy protection or other alternatives that could result in our stockholders losing some or all of their investment in us.

These circumstances raise substantial doubt on our ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might result from this uncertainty.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect or change on the Company's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with the Company is a party, under which the Company has (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

Critical Accounting Policies and Estimates

For the six-month period ended December 31, 2018, there were no significant changes to the Company's critical accounting policies as identified in the Annual Report Form 10-K for the fiscal year ended June 30, 2018.

New Accounting Pronouncements

The Company considered the applicability and impact of recent accounting pronouncements and determined those to be either not applicable or expected to have minimal impact on our balance sheets or statement of operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable

Item 4. Controls and Procedures

We maintain “disclosure controls and procedures,” such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulate and communicated to our management, including our Chief Executive Office and Chief Financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet reasonable assurance standards. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgement in evaluating the cost-benefit relationship of possible disclosure and procedures. The design of and disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based upon their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15f and 15d-15(f) under the Exchange Act), except as noted below, that occurred during the quarter ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The Company had reported material weaknesses in its’ Form 10-K for the fiscal year ended June 30, 2018 filed on October 5, 2018 with the Securities Exchange Commission. Those material weaknesses have been remediated as follows: In October the Company hired a Chief Financial Officer and remediated the lack of segregation of duties and formalized certain controls and procedures related thereto. In addition, the Company’s board of directors have appointed an audit committee chair and audit committee consisting of three independent board of director members.

The Company’s Independent Registered Public Accounting Firm did not, and was not, required to provide an auditor attestation of the Company’s internal controls over financial reporting as described in Section 404(b) of the Sarbanes-Oxley Act.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

**CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES OXLEY ACT OF 2002
AND RULE 13-A14 OF THE EXCHANGE ACT OF 1934**

CERTIFICATION

I, Terren Peizer, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Biovie, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a – 15(f) and 15d – 15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of the annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
