Snapshot of High School Title I Parent and Family Engagement Survey

Parents answered questions to help Skyview to plan and address areas of improvement for the upcoming school year. All surveys were returned to Ms. Penn during the parent input meeting. Most parents stated the best way for them to receive important information is text message primarily and phone call secondly. Majority of parents feel tremendously welcomed at Skyview. The most interested parent activity parents are interested in participating in or attending are classroom assistance, community service projects with students/staff, and open house. Many parents would like to see parent and family engagement funds used to fund a parent resource center or fund technology resources at the school to support parent and family engagement. Overall, parents are willing to participate by volunteering, being contacted via phone for pertinent information, and would like more information regarding ways parents can help their children academically.
