Mobile is the most personal channel that exists--it's in someone's pocket, sits next to their bed, and is checked throughout the day. This makes marketing on mobile incredibly important but also nuanced. Download this guide to learn how to fine tune your mobile marketing efforts.

A mobile-friendly website is no longer an option—it's a must. The rise in mobile traffic coupled with Google's mobile-friendliness ranking factor means a brand's site must adapt to mobile devices in order to stay competitive.

Mobile technology is not a fad that's going away any time soon. Optimizing your marketing strategy for mobile will give your brand an edge over the competition. Don't wait—go mobile today!

Mobile is disrupting the way your audience engages with brands. People are opening your email on mobile devices. They are visiting your website and engaging with your content on mobile devices. They are communicating with you via mobile devices. Consider:

- 80% of internet users own a smartphone.
- Google anticipates search queries on mobile devices to surpass desktop searches by the end of 2016.

Effective mobile marketing means understanding your mobile audience, designing content with mobile platforms in mind, and making strategic use of SMS/MMS marketing and mobile apps.

It is the most effective marketing channel at your disposal. Here's Why?

MOBILE MARKETING STATS TO HELP YOU PLAN FOR 2017

1

Over 36% of mobile subscribers use iPhones or iPads to read email and 34% of subscribers only use mobile devices to read emails.

2

80% of internet users own a smartphone, this number is only going to keep increasing -- which is good news for companies with a mobile marketing strategy.

3

Apps account for 89% of mobile media time, with the other 11% spent on websites and Over 50% of smartphone users grab their smartphone immediately after waking up.

4

Mobile will likely account for 50% of all digital ad spend in 2016 (worth \$100B).

5

The two most popular ways companies are optimizing for mobile are 1. using a simple template that works for all devices (52%) and 2. creating a mobile responsive email template (39%).

6

68% of companies have integrated mobile marketing into their overall marketing strategy and 58% of companies surveyed have a dedicated mobile marketing team.

7

By 2019, mobile advertising will represent 72% of all US digital ad spending.

8

Mobile email opens have grown by 180% in the last three years.

9

Average smartphone conversion rates are up 64% compared to the average desktop conversion rates.

10

88% of consumers who search for a type of local business on a mobile device call or go to that business within 24 hours.

The bottom line is, if you're not using mobile marketing, you should be, and if you are, you should be doing it like a pro.

You need this Mobile Marketing Revolution Guide with step-by-step directions to guide you through the more complicated aspects of Mobile marketing.
