

Hello Friends.

As you all know that Video marketing is the world's fastest growing Advertising network with over 5.4 Billion active users.

And

It's no wonder that Best of the world's top brands are using Video marketing to get high consumer momentum.

We also learned how Video Marketing is used by best in class businesses:

(Kindly take a 5 second pause before the next line)

We need to mention here that countless business owners are **making big bucks** by using these **amazing Video Strategies**.

And this is just the beginning.

Video Marketing Revolution provides long term benefits for businesses and will enable them -

1. **To drive brand awareness** for their business or product.
2. To **increase foot traffic** to their retail location.
3. To **increase social media engagement** with their followers.
4. To **build brand trust** by being an industry authority.

Check out some facts here:

2016 statistics show that more companies are utilizing video for marketing purposes, and they intend to increase their investment in the coming months.

Cisco now predicts that 80% of all Internet traffic will be streaming video content by 2019, up from 64% in 2014

It is estimated that 3.8 trillion photos were taken in all of human history until mid 2011, but 1 trillion photos were taken in 2015 alone.

Video is one of the most effective ad formats out there today and video ads both have a higher ad and message recall compared to image ads.

Needless to say, video marketing is hot today..
