Mrs. Thompson is a Pre-K teacher at Clarence Farrington Elementary. In her experience with preschoolers, she has found that learning often comes from the ability to interact with and explore your surroundings. Because of this, she has requested items from Project: Classroom that will allow her students the opportunity to learn the alphabet and numbers through engaging with each other and the classroom.

Mrs. Thompson feels learning in non-traditional ways reinforces what the students learn through more traditional methods and provides them with an opportunity to learn how to share, take turns, and work together. These skills will help them in their future education and will set them up to be more successful in other areas of their lives.

She stated, "Your continued support of all of our students allows us to continue to provide them the best opportunities we can for them to continue to learn and grow as individuals."
