### He Loves Us, We Love Others

With an adult, look up this week's verse, **1 John 4:11**. Read it aloud and do the motions below to help you remember the verse.

**"Dear friends** (point around the room like you are pointing at friends), **since God** (point up) **loved us** (give yourself a hug) **this much** (stretch your arms out wide) **we should also love** (hug yourself) **one another** (point to those around you)."

**LOOK** for ways that you can love others as God loves them.

### Special Delivery

Deliver up some love today! Think of someone either inside your home or in your neighborhood that you can show love to today. Once you have that person in mind, ask an adult to help you think of a great way to show them you love them. You can draw a picture and deliver it or ask if you can pray for them. Show love in whatever you do.

**Adults:** Your interaction is encouraged during this activity to help guide your child to choose someone safe (if they are outside the home), as well as choosing the appropriate gesture of kindness. This activity could be as simple or complex as you feel is appropriate for your child. Have fun working together on this!

**THANK** Jesus for showing us how to love everyone, no matter who they are.

### Live in Love

Take some time talking to Jesus and asking Him to help us live in love toward others. You can pray something like this:

**"Dear Jesus, thank You so much for showing us what it means to love others. You set the best example of how to love because of how You loved everyone around You. Jesus, help me be able to love everyone around me and treat them with the kindness they deserve. Amen."**

**ASK** Jesus to always help you love others the way He loves us.
