Offensive Playbook

8 Man A Cross and a Wheel

8 Man A Cross and a Wheel

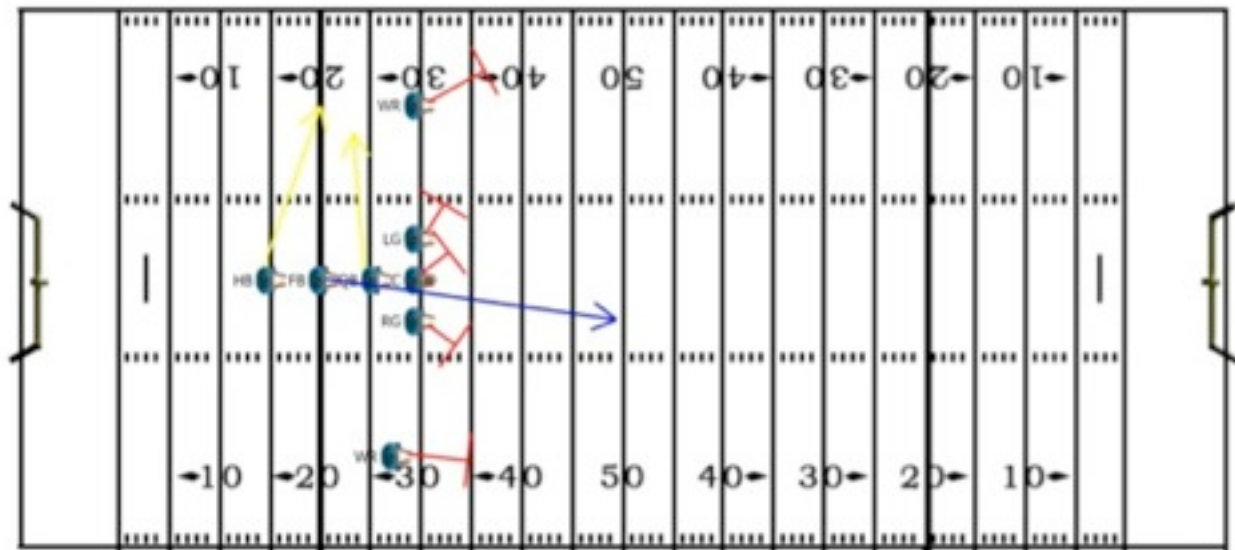

8 Man A Cross and Wheel: This is a passing play involving three routes - two crossing and one wheel route. The WRs will cross, while the TE will run a wheel. The TE is the primary receiver.

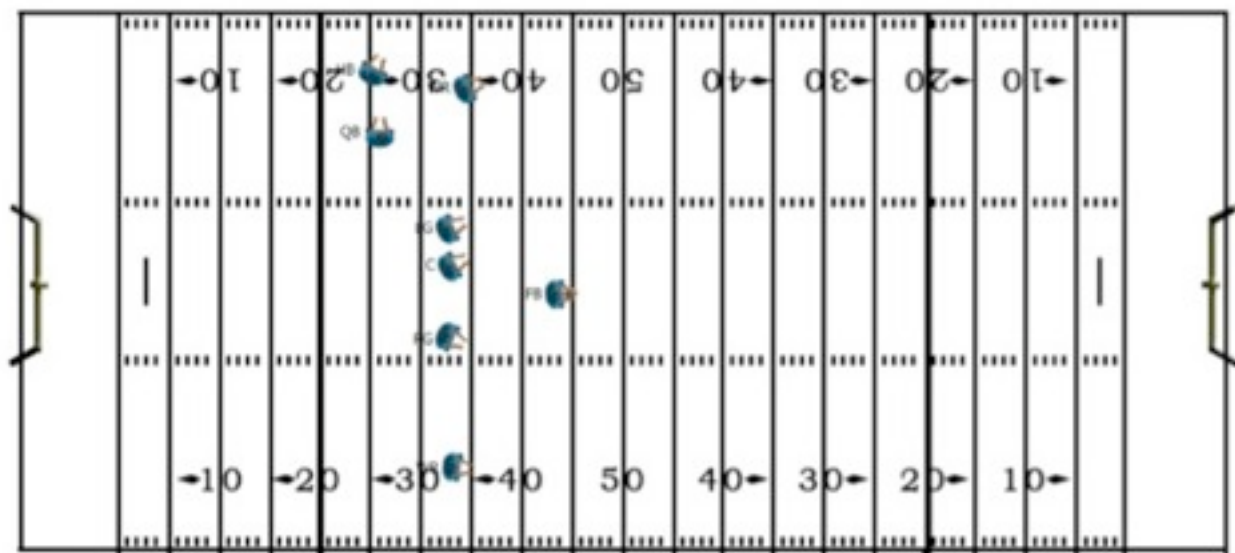

This is a passing play that is designed to free up receivers by getting their defenders caught-up with other players. The OL and the HB will pass protect. The TE will run a wheel route to the right. He is the primary receiver. The WR on the right will run a 7 yard cross and the WR on the left will run a 9 yard cross. The WRs are secondary receivers. The QB should first look for the TE on the wheel and then the WRs.

8 Man FB Smash Right

8 Man FB Smash Right

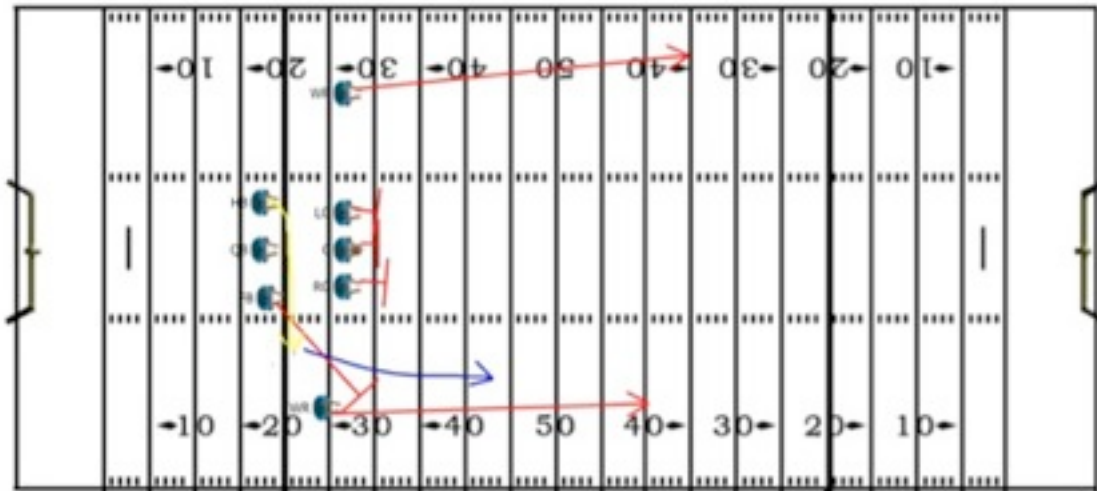

8 Man FB Smash Right: This is a basic running play.
The FB will take the ball and run between the C and the RG.

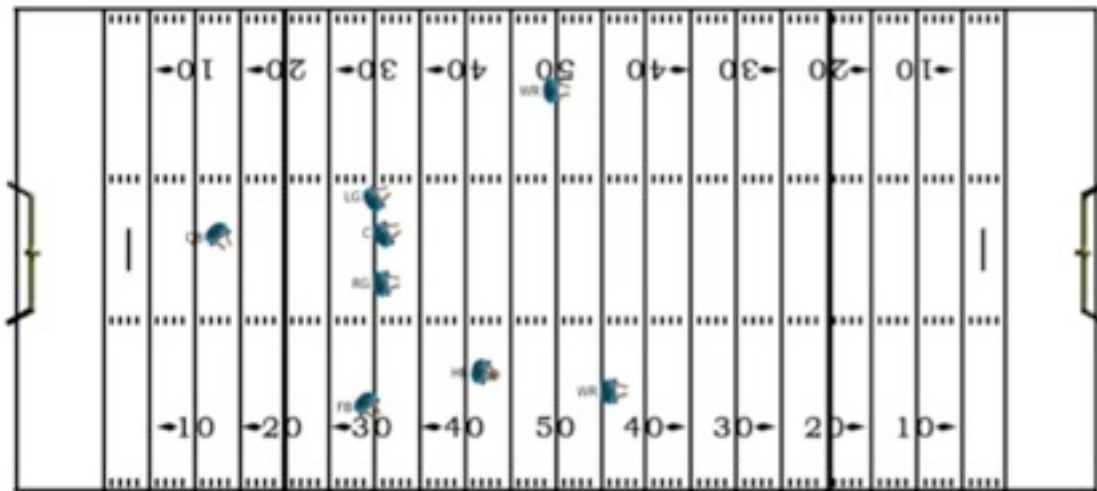

This play will help set-up the option.
The FB will take the ball and run in the hole made by the C and the RG.
The C will block his man to the left.
The RG will block his man to the right.
The QB will give to the FB and sprint to the right. The HB will also sprint to the right.

8 Man HB Screen Right

8 Man HB Screen Right

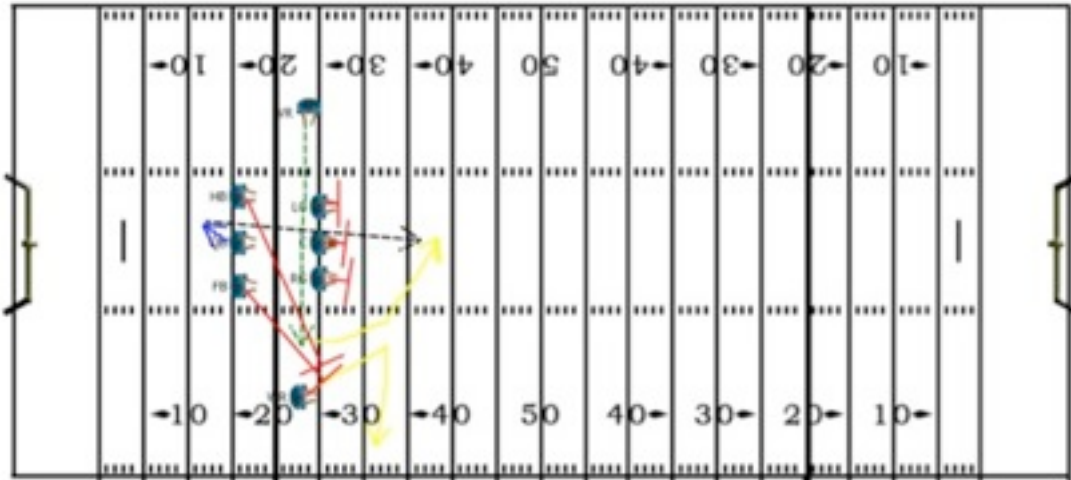

8 Man HB Screen Right: This is an easy passing play. It's a screen pass to the HB.

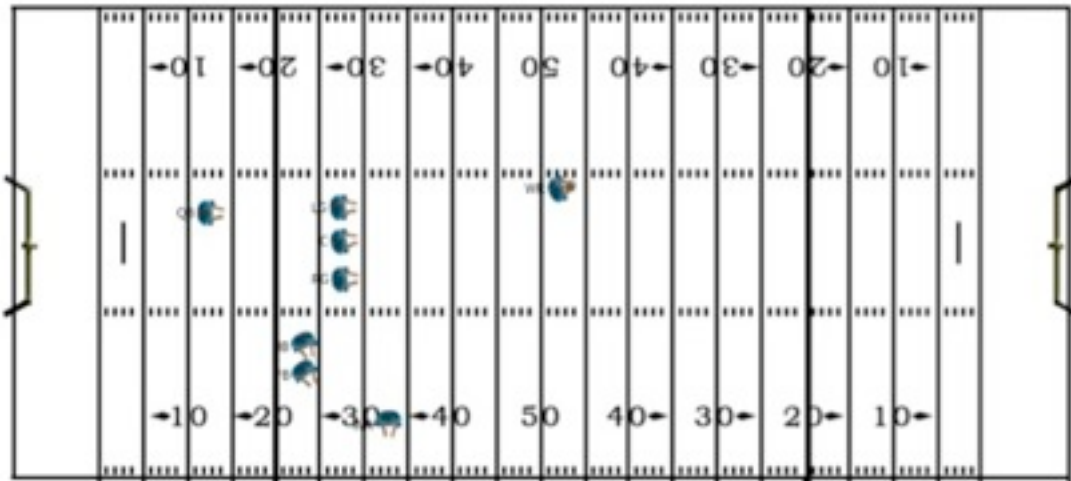

The QB takes the snap and looks downfield first. Then he throws the screen to the HB. The HB lines-up to the left of the QB and then sprints to the right to receive the screen pass. The FB blocks for the HB. The WRs run go routes to pull the DBs away. The OL pass protects.

8 Man Motion Right, Fake Sweep Pass

8 Man Motion Right, Fake Sweep Pass

8 Man Motion Right, Fake Sweep Pass: This play builds off the sweep. The QB will fake the handoff to the HB and throw the ball.

The WR will motion from right to left. Then he will run a modified post (slanting in a little at the beginning of the route) and be the primary receiver.

The other WR will slant in and then run an out about 8 yards down the field.

The FB will sprint to the right and block any defender that presents himself.

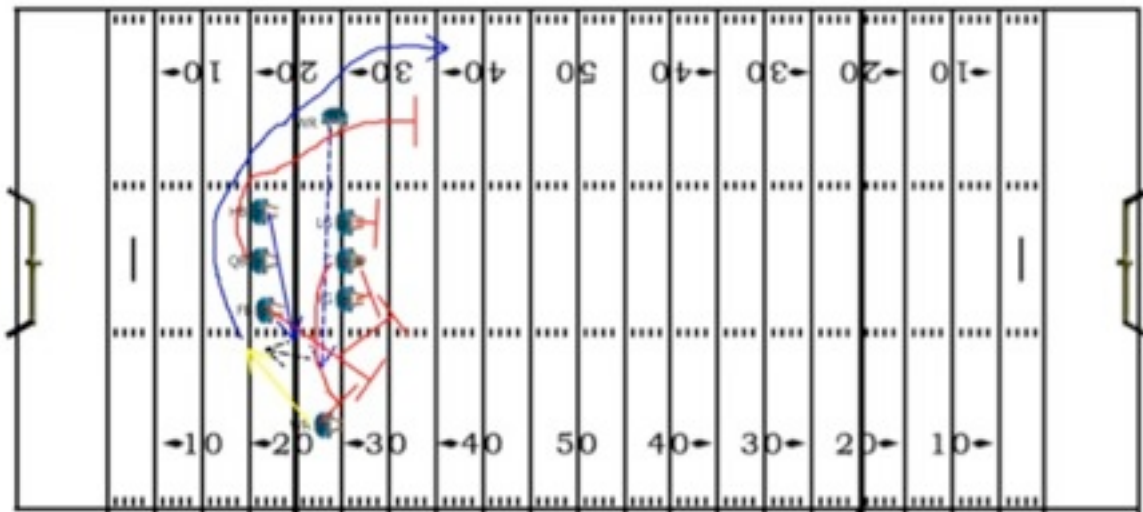

The HB will fake taking the handoff and sprint to the right.

The QB will fake the handoff, take three steps back and to the left, square his shoulders and look for the post and then the out.

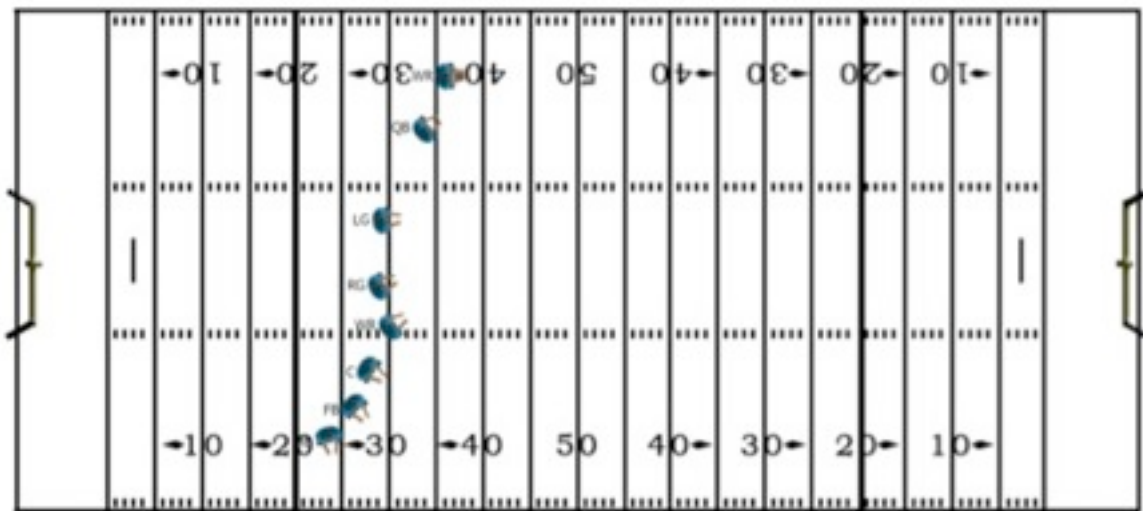

The OL will block straight-up.

8 Man Motion Right, Sweep Right Reverse

8 Man Motion Right, Sweep Right Reverse

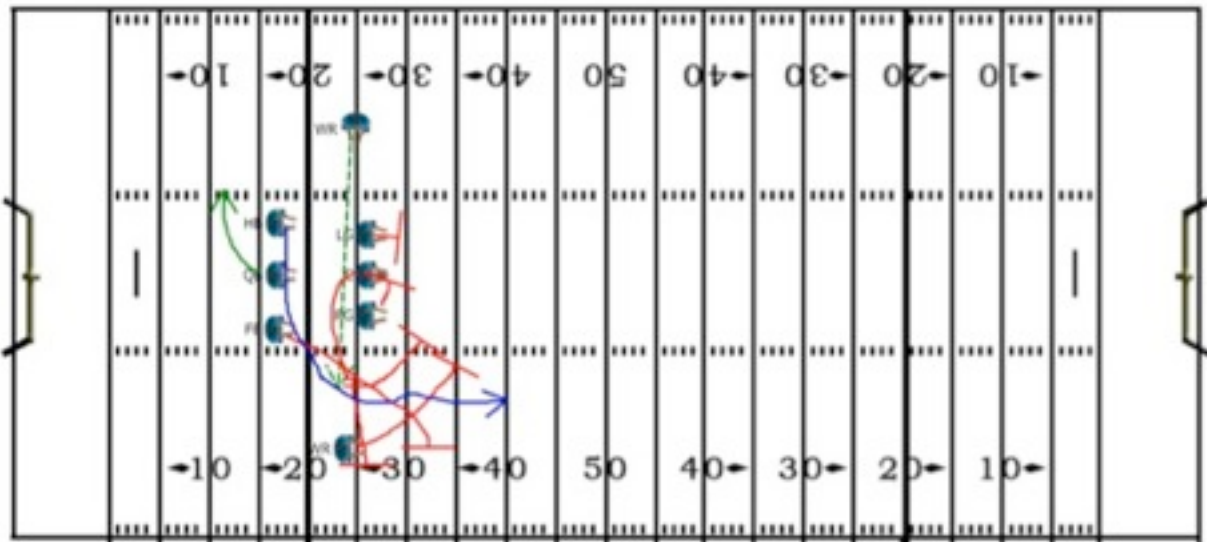

8 Man Motion Right, Sweep Right, Reverse: This play builds off the sweep. The HB will take the ball and pitch it to the WR for a reverse.

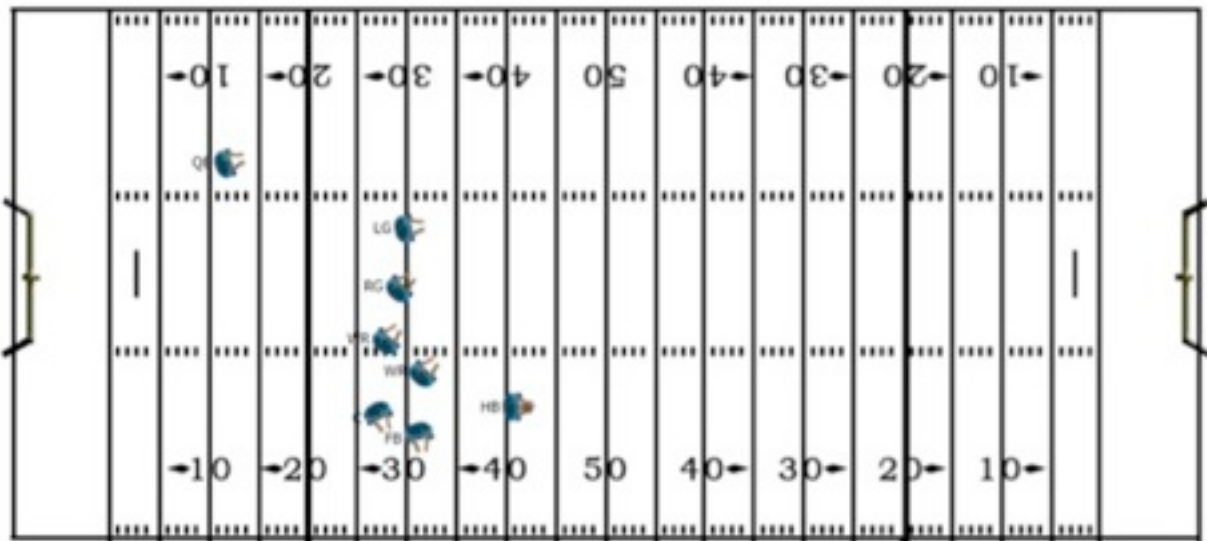

The WR will motion from left to right. Then he will block to the inside.
 The FB will sprint to the right to appear to be the lead blocker for a sweep.
 The C will pull to the right to make it look like a sweep right. The other two OL will block straight-up.
 The outside WR will run into the backfield left, take the pitch, and run around the outside to the left for the reverse.
 The HB will take the handoff and then give the ball to the WR running the reverse.
 The QB will take the snap, hand to the HB, and then sprint around the left to block for the WR.

8 Man Motion Right Sweep Right

8 Man Motion Right Sweep Right

8 Man Motion Right Sweep Right: This is a basic running play.
The FB will be the lead blocker and the HB will take the ball and sweep right.

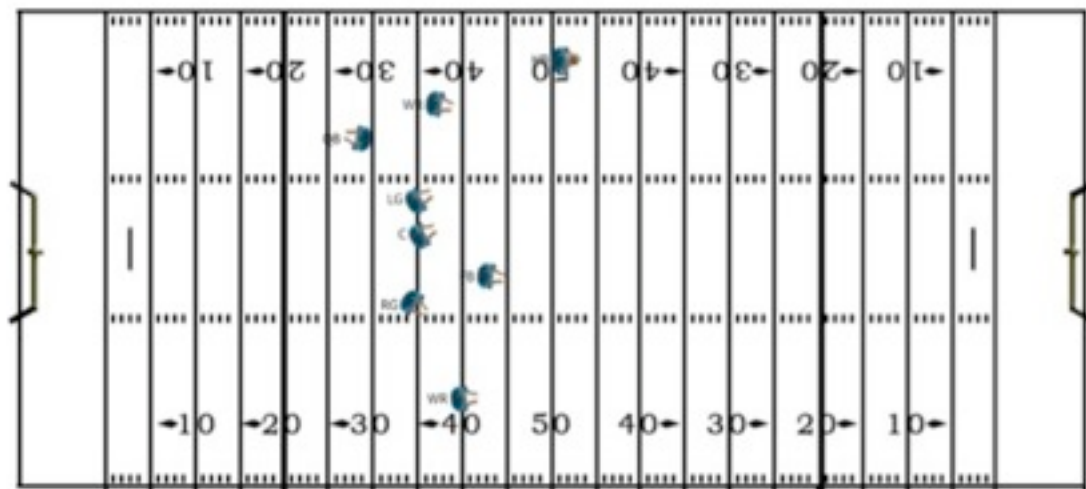

The QB will be in shotgun, take the snap, and hand off to the HB.
The FB will be the lead blocker and the HB will sweep right.
WR will motion from left to right before the snap. Then both WRs will seal off the inside.
The C will pull and seal the outside along with the FB.
This play will set-up other plays as well.

8 Man Option Left

8 Man Option Left: This is an option play where the QB can hand to the FB on the smash, keep it himself as he sweeps left, or option to the HB.

The QB takes the snap and can give the ball to the FB if the play is open. Or the QB can keep and run the option with the HB.

The FB runs between the C and the RG as if it's a smash play.

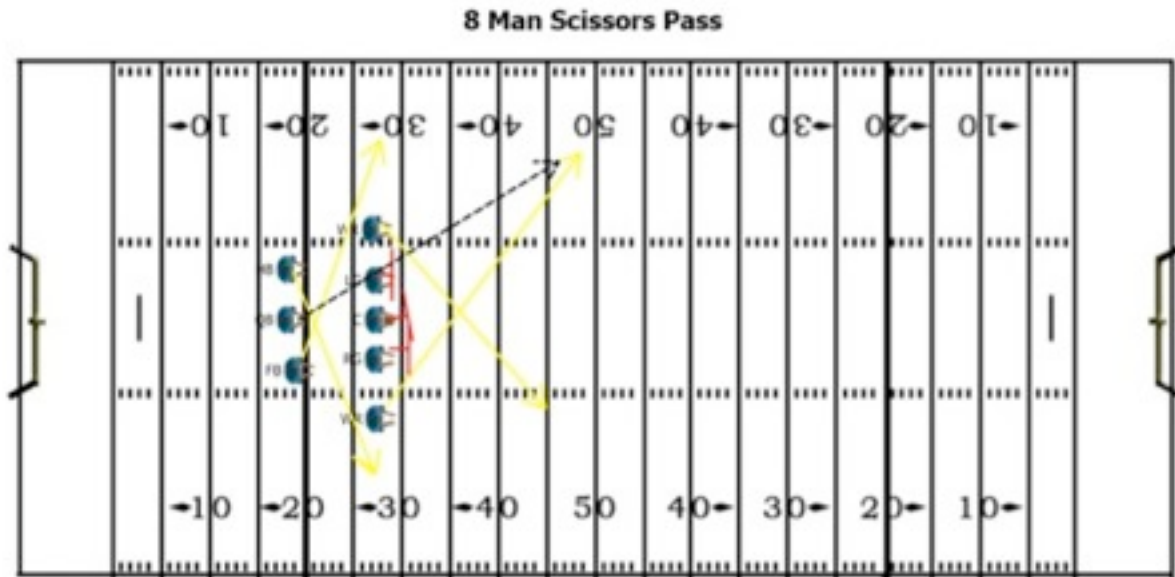

The C blocks left and the RG blocks right.

The WRs and LG block straight-up.

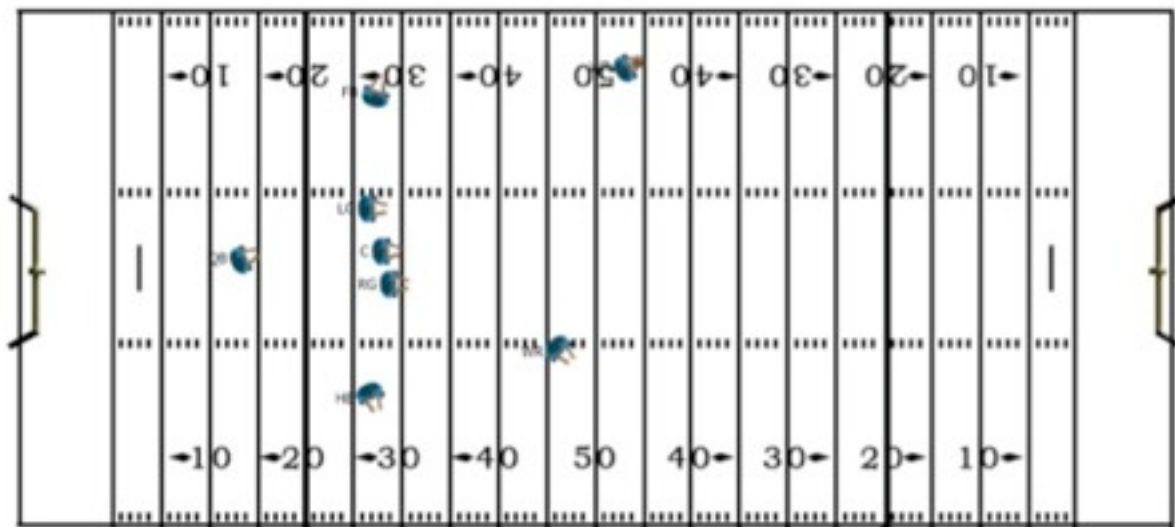

The HB trails the QB and stays ready for the option pitch.

If the QB doesn't hand to FB, he should run around the left and keep if no one stops him, or option (pitch) to the HB if a defender tries to stop the the QB.

8 Man Scissors Pass

8 Man Scissors Pass: This is a passing play that requires 4 players to run routes.

There will be two sets of scissors routes run.

The FB and HB will run scissor routes (slanting to opposite sides of the field) and the WRs will run scissor routes.

The OL will pass protect.

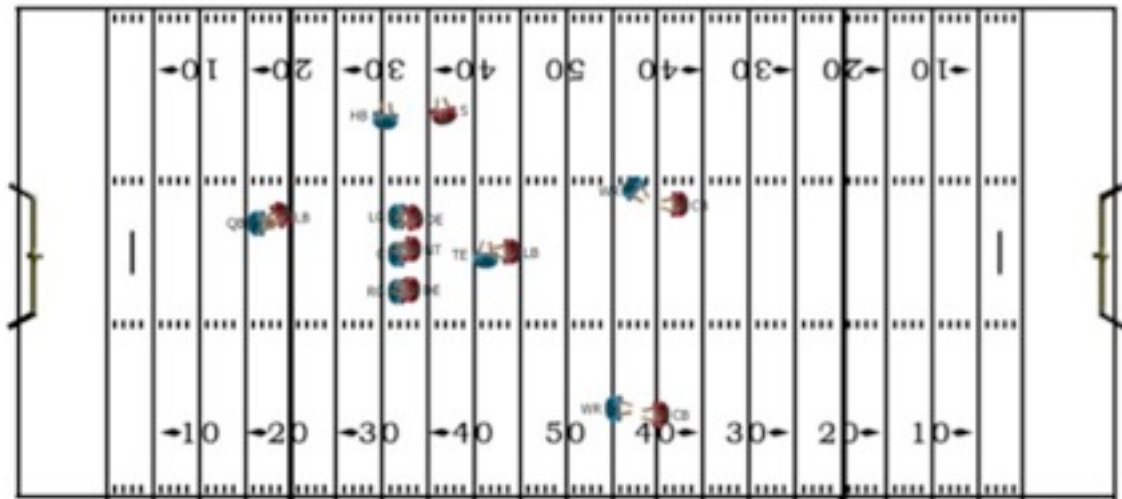

The QB should first look to the WRs and then to the RBs.

Defensive Playbook

8 Man Defense, All Fire

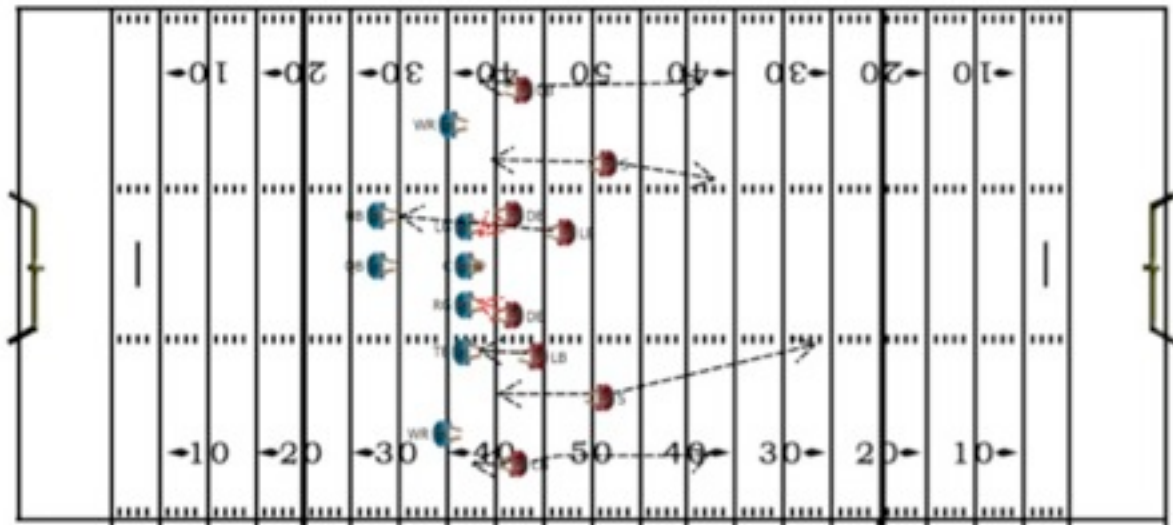

8 Man Defense, All Fire: This is a defense where each defender matches up with an offensive player. If an offensive player doesn't run a route, then the defender covering him needs to blitz.

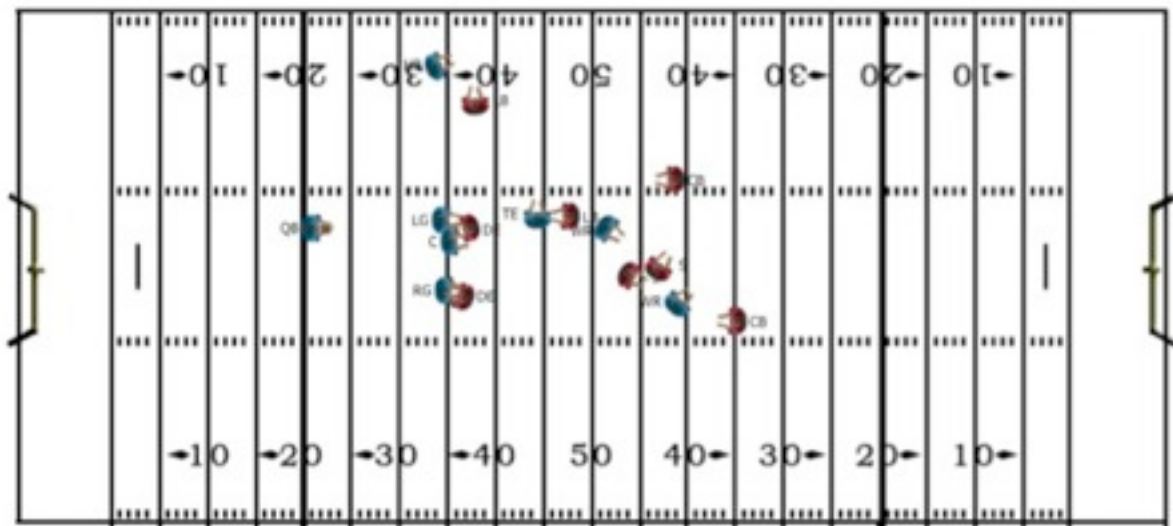

Each defender will match-up with an offensive player.
If the offensive player goes out, the defender needs to cover him. Otherwise, the defender is blitzing (firing into the backfield).
One LB will always blitz because the QB is his man.

8 Man Defense, Double Wides

8 Man Defense, Double Wides

8 Man Defense, Double Wides: This is a great defense to play when an Offense has great WRs. The two WRs will be doubled by the CB and the S.

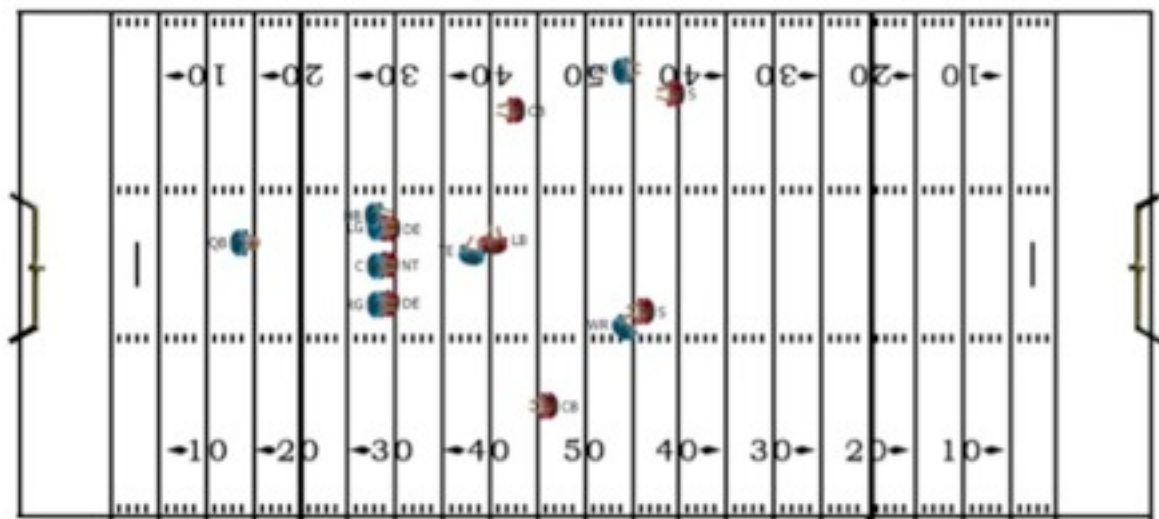

The key to this play is doubling the WRs with the CBs taking the outside and the Ss taking the inside. The WRs are bracketed. The CB can't let the WR get outside of him and the S can't let the WR get inside of him. The LBs match-up on the RB and the TE. Two DLs rush the CB.

8 Man Defense, Full Zone

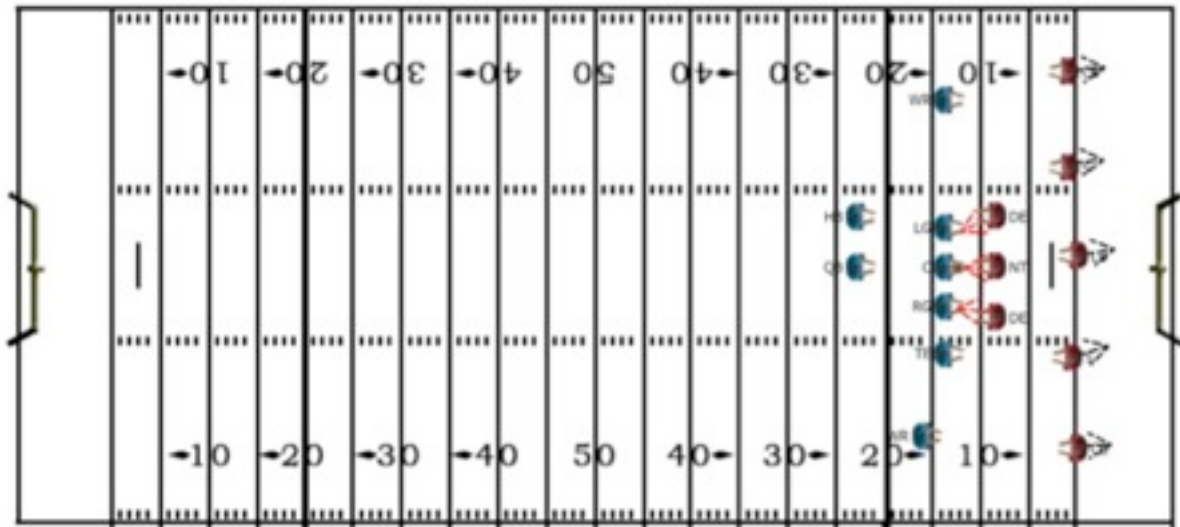

8 Man Defense, Full Zone: This is a zone defense.
It requires five defenders to try to cover the entire field.

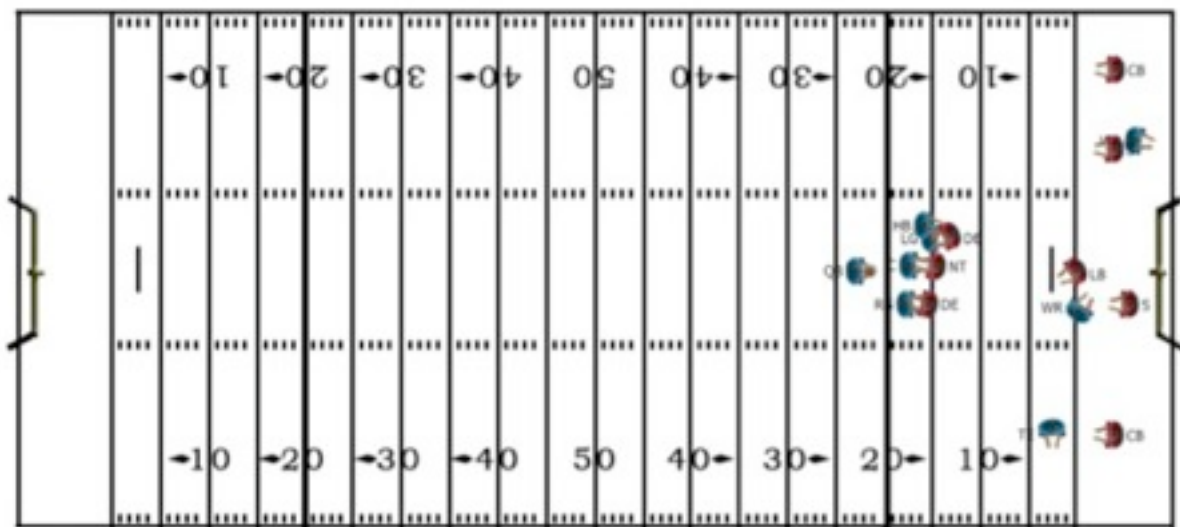

Three DL rush the QB.
The other five defenders will play a zone.
One middle LB will take midrange middle, two CBs will each take a side and cover midrange.
Two safeties will split deep halves of the field.

8 Man Defense, Picket Fence

8 Man Defense, Picket Fence

8 Man Defense, Picket Fence: This is a defense for near the Goal Line when the Offense has to score. Three defenders rush and the rest line-up on the Goal Line.

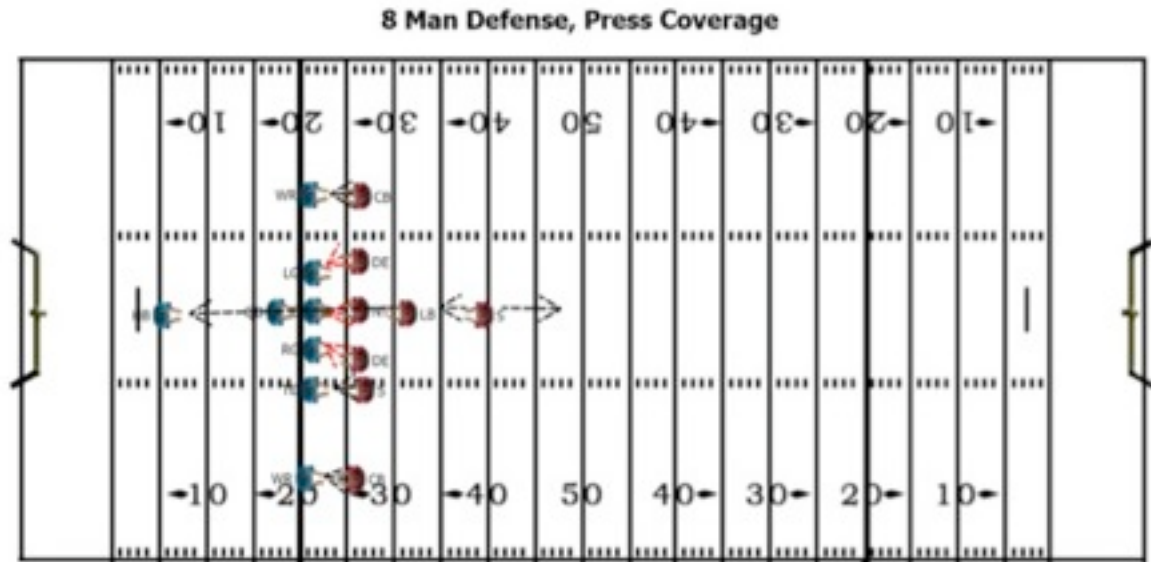

Three DLs rush the passer.

Two Safeties, two Corners, and a Linebacker spreadout across the Goal Line.

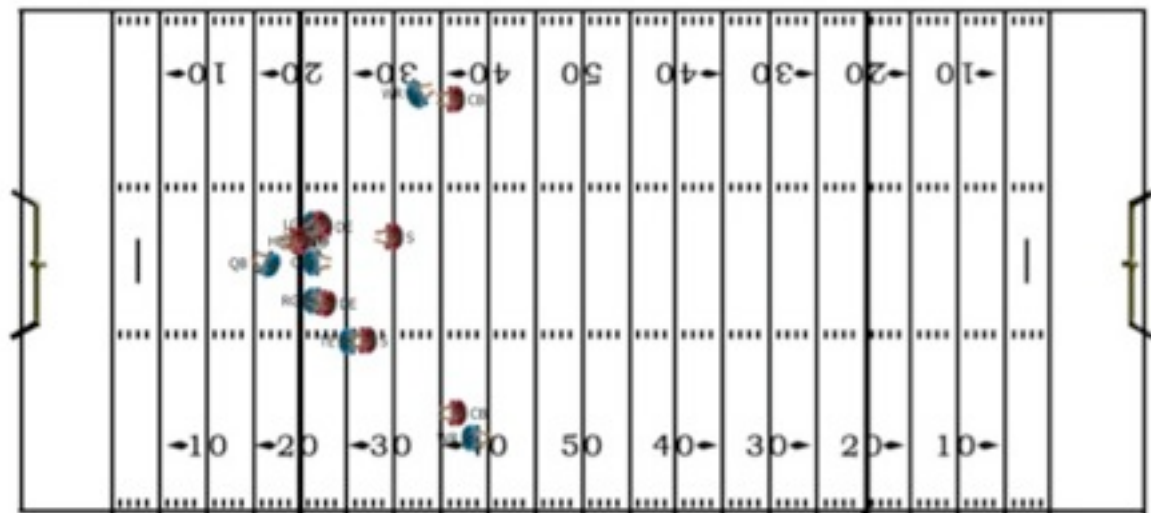

The two CBs can't let anyone get wider than them.

The defenders need to try not to be undercut or get beat in the back on the end zone.

8 Man Defense, Press Coverage

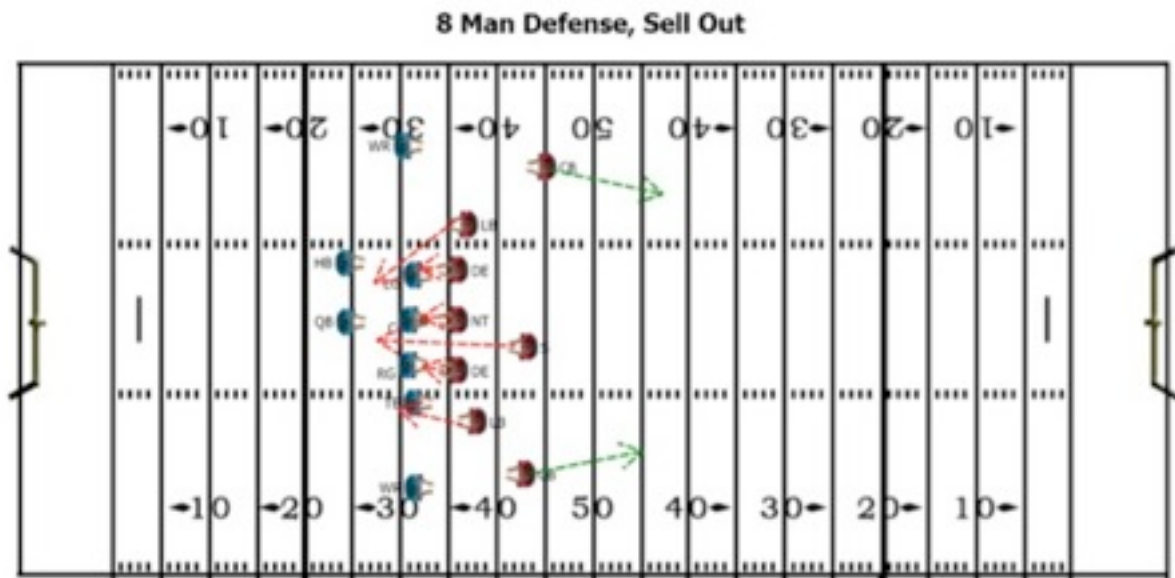

8 Man Defense, Press Coverage: This is a defense that requires any defender in coverage to play right on the line of scrimmage. One S will play deep.

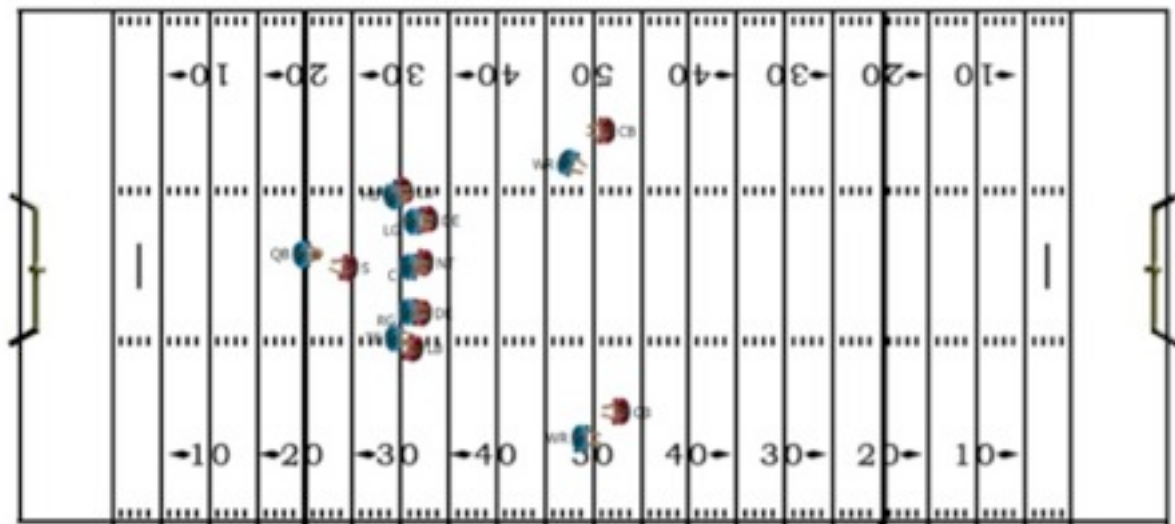

The CBs will play on the line of scrimmage and jam the WRs and then run with them.
 One S will play about 12 yards from the line of scrimmage.
 The DLs will rush the QB.
 Two LBs will take the TE, RB, or WR.

8 Man Defense, Sell Out

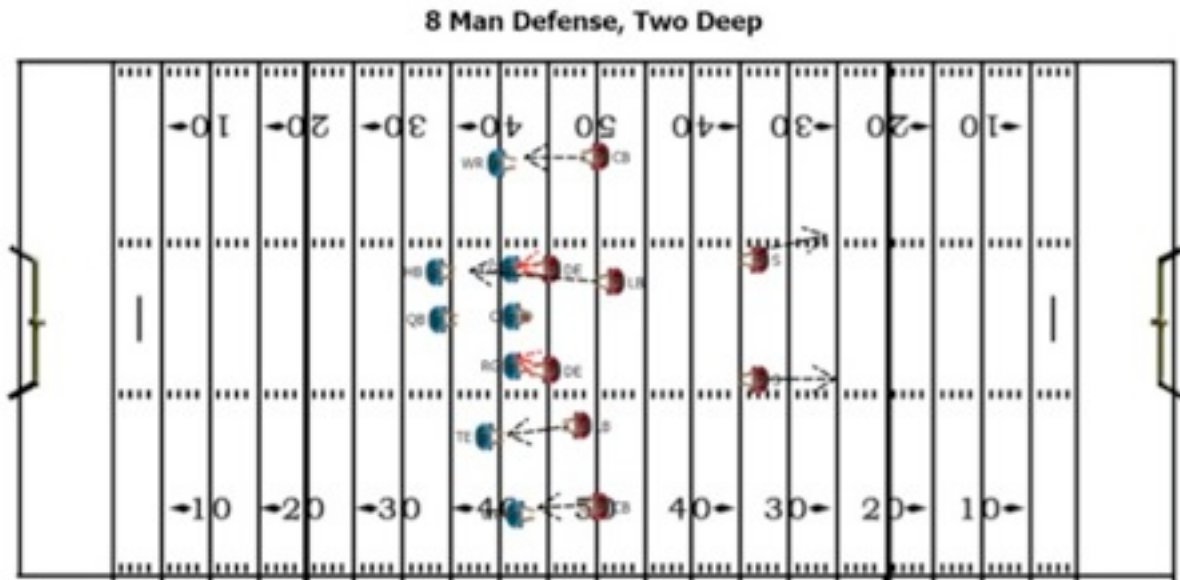

8 Man Defense, Sell Out: This is an all-out blitz.
Two men will stay back to cover each half of the field and all the other defenders will blitz.

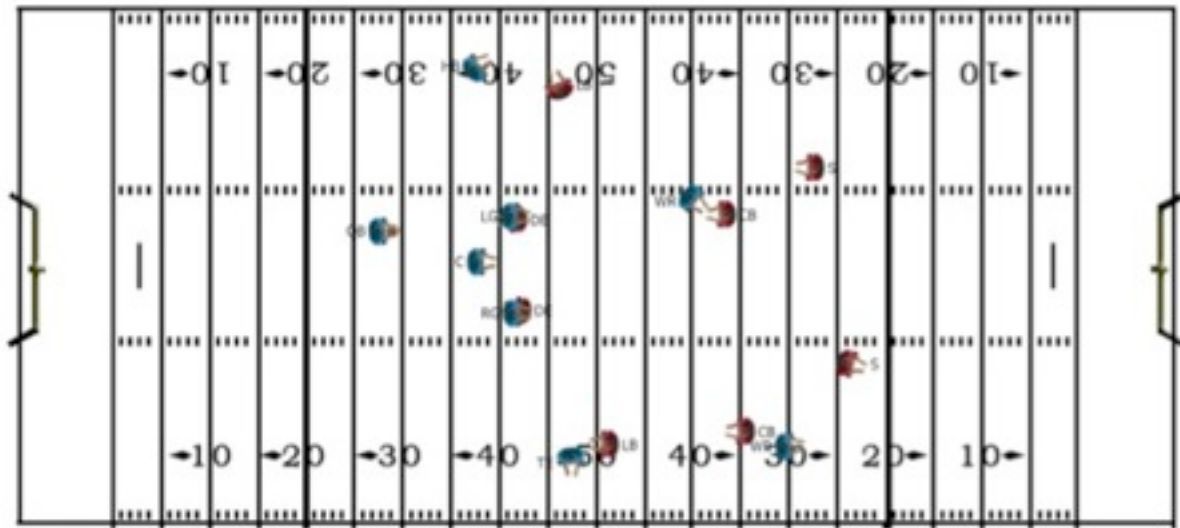

The key to the play is for the defense to get to the QB before he can throw the ball.
There will be three DLs, two LBs, and one safety all blitzing.
Two CBs will divide the field in half and cover each half.

8 Man Defense, Two Deep

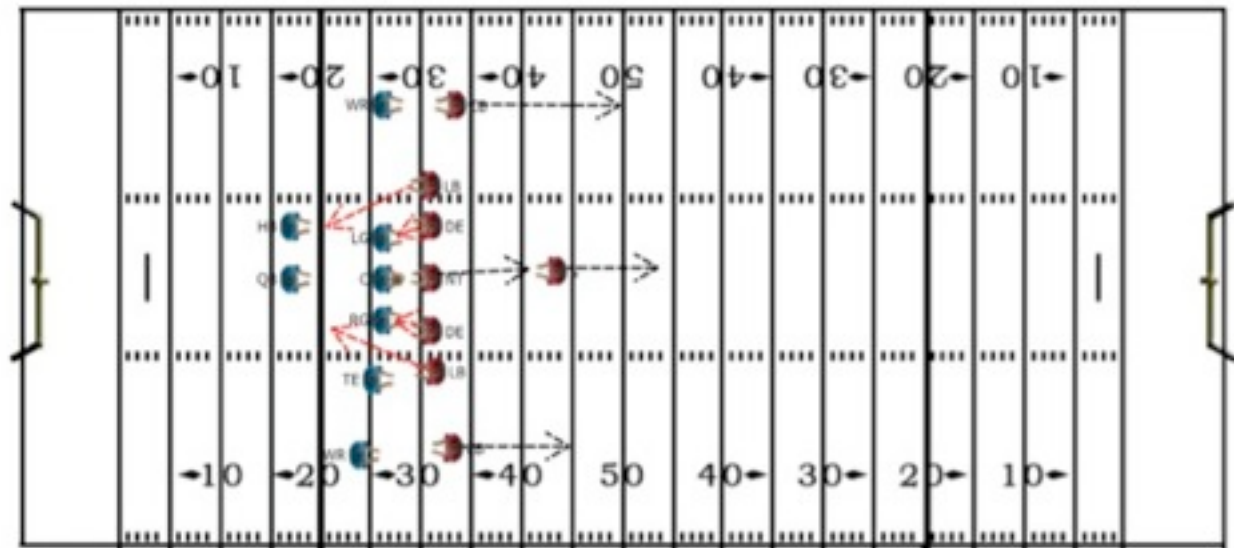

8 Man Defense, Two Deep: This is a defense designed to stop the big play. The Offense will have to work to move the ball down the field because there will be two safeties deep, splitting the field.

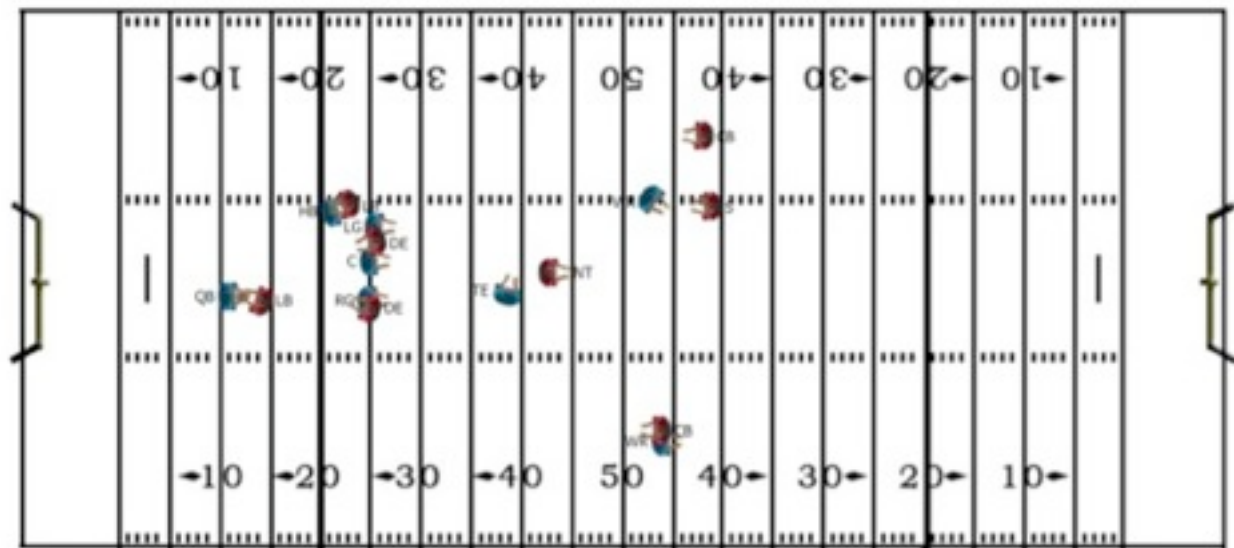

There will be two deep safeties, one on each half of the field, making sure nothing gets behind them.
 Two DLs will rush the QB.
 The CBs will match-up with the receivers.
 The two LBs will match-up with any remaining players (TE, RB, or WR).

8 Man Defense, Zone Blitz

8 Man Defense, Zone Blitz

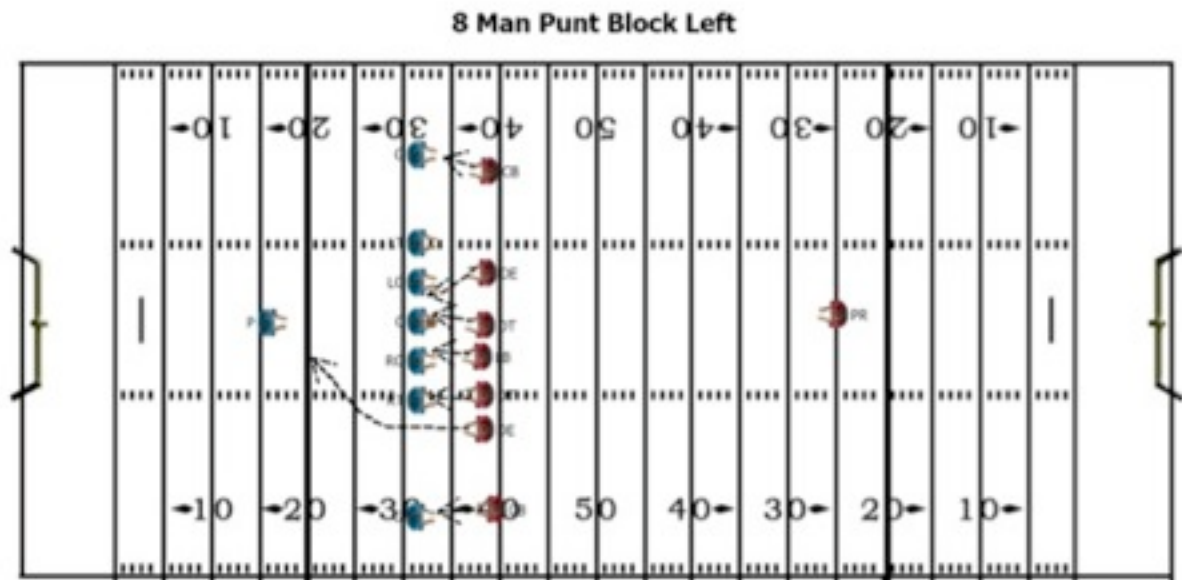

8 Man Defense, Zone Blitz: This is a zone blitz.
The LBs will rush the QB while the NT will drop out in coverage.

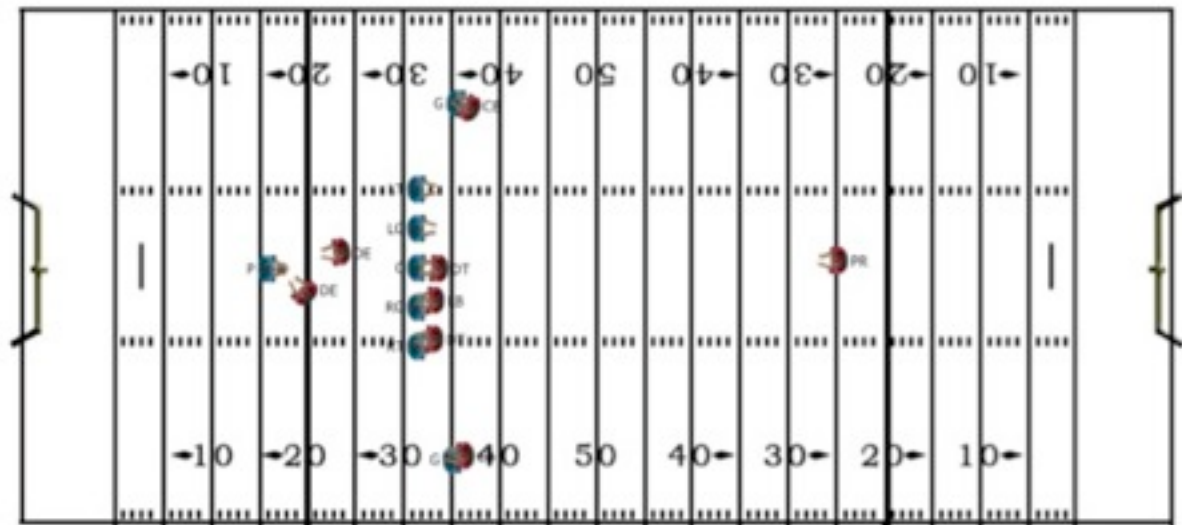

Three DLs and two LBs will line-up on the line of scrimmage.
The DEs and the LBs will rush the QB.
The NT will drop out and cover the middle of the field.
The Safety will cover the deep middle of the field.
The CBs will cover the outsides of the field.

Special Teams Playbook

8 Man Punt Block Left

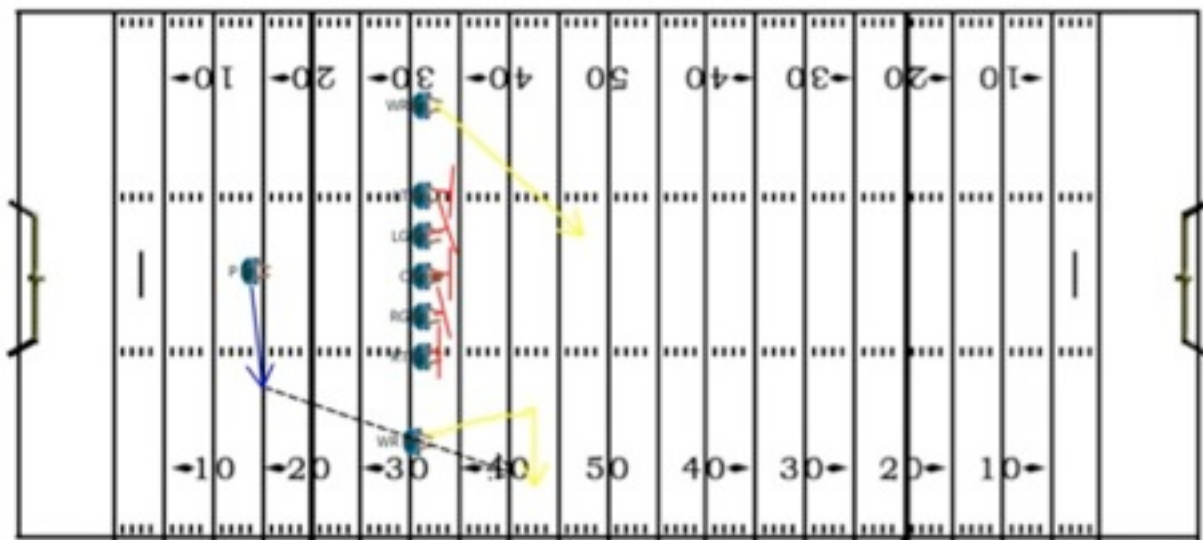

8 Man Special Teams Punt Block Left: This is a formation designed to block the punt. The line will overload to the left so that the rushers will outnumber the blockers.

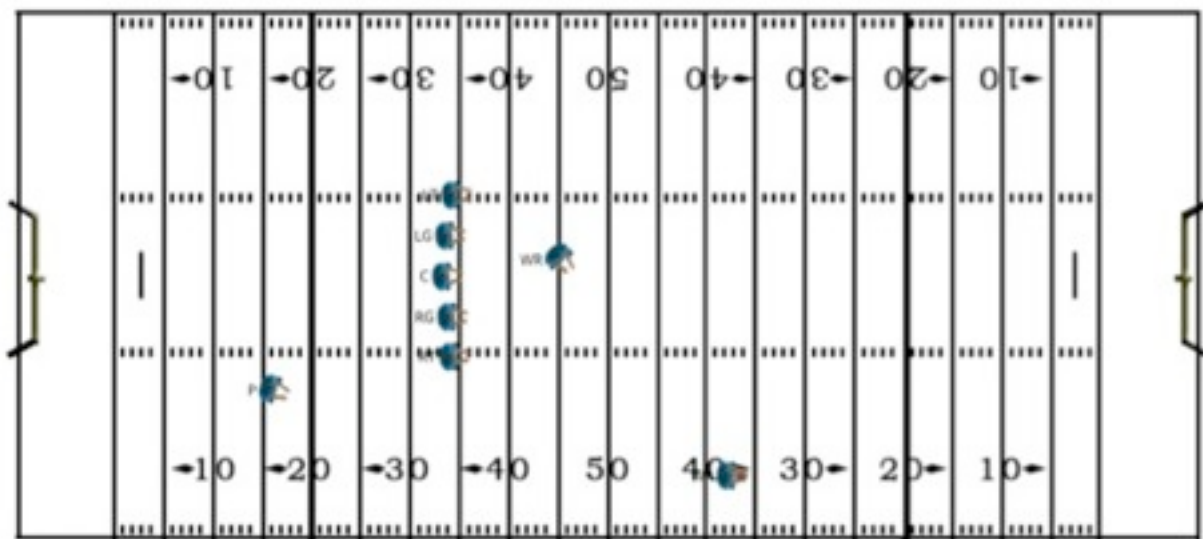

Each Gunner should be covered by one man and there should also be one Returner. One DL will line-up on the right side of the C and the rest will line-up to the left of the C. The one DL on the right should slant to the left. The rest of the DL will rush straight ahead and try to get to the P to block the punt.

8 Man Special Teams Punt Fake, Pass

8 Man Special Teams Punt Fake, Pass

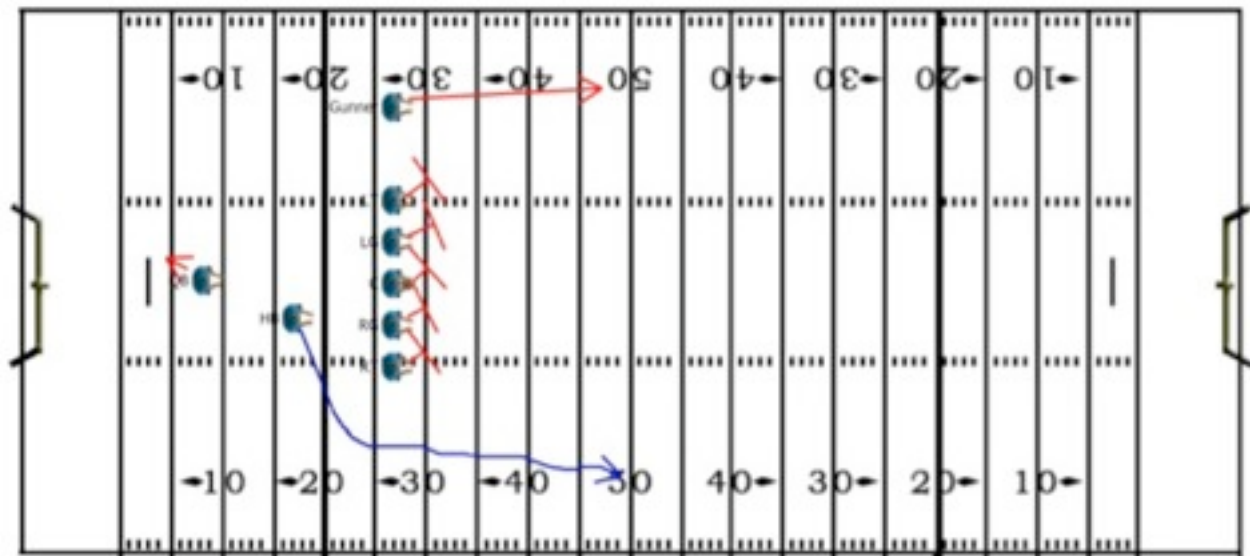

8 Man Special Teams, Punt Fake Pass: This is a punt fake the will be a pass.
The Punter will fake that he's going to run and then he'll either throw an out or a slant.

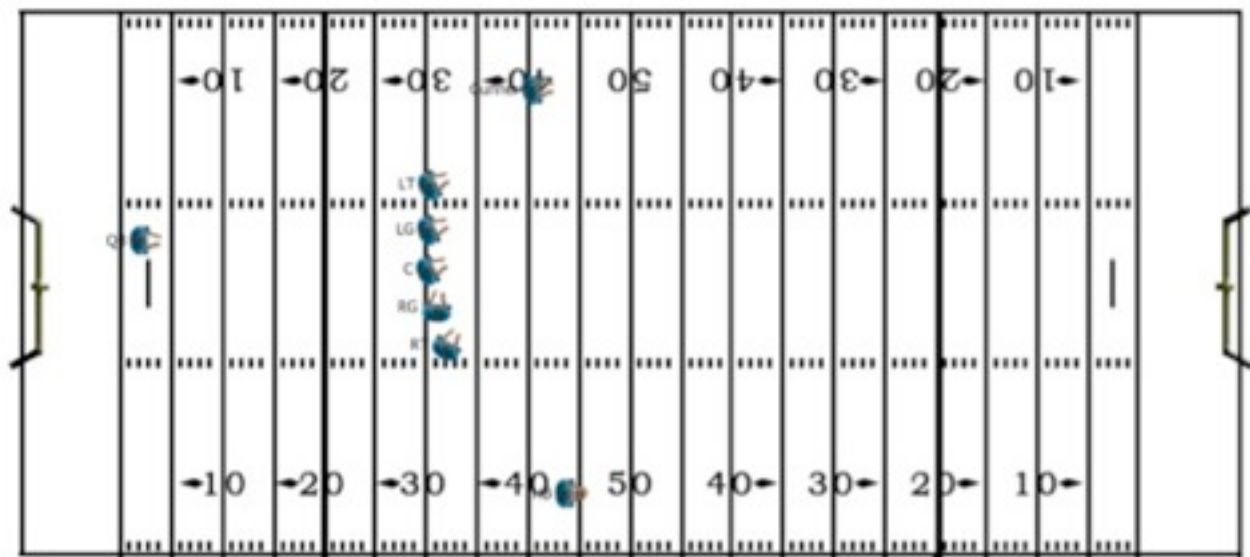

The team will line-up in punt formation with a 5 man line and two Gunners (WRs).
The WR on the right will run a 10 yard out and the WR on the left will run a deep slant.
The P will take the snap roll right (like he's going to run) and then throw the ball.
The out is his first read.
The OL will protect.

8 Man Special Teams, Punt Fake

8 Man Special Teams, Punt Fake

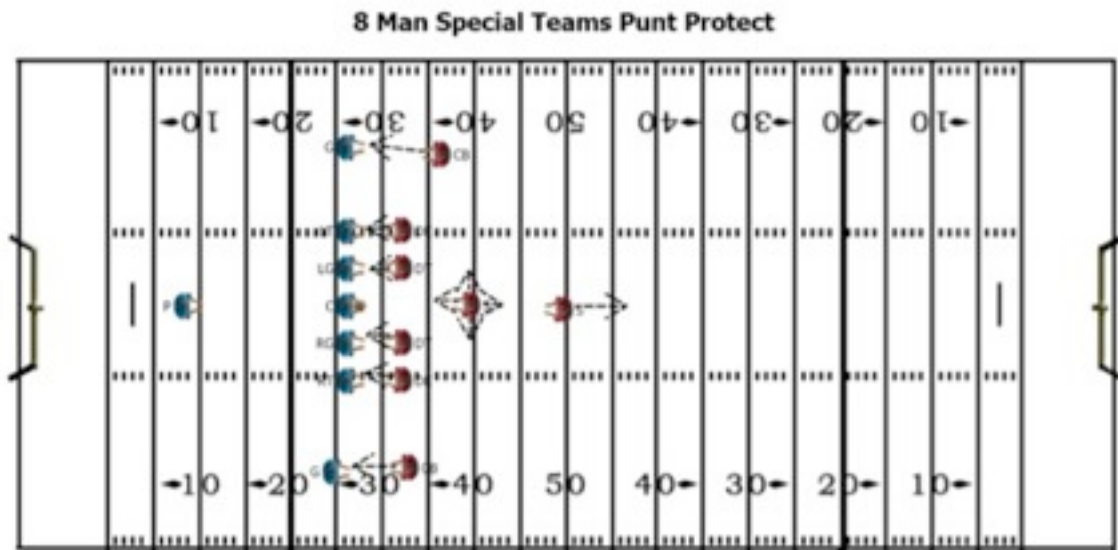

8 Man Special Teams Punt Fake Run: This is a fake punt.
The ball will be snapped to the up man and he will run around the right end.

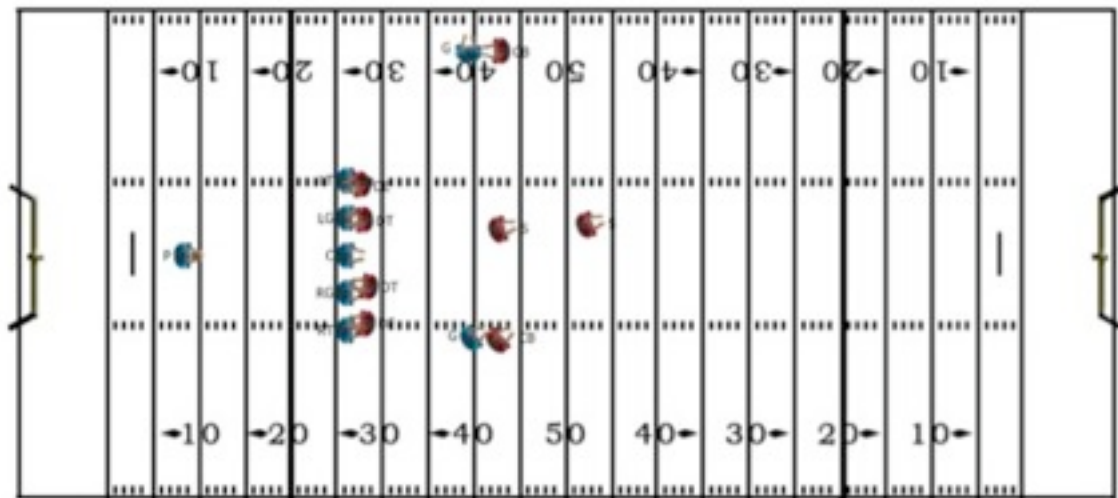

The team will line-up in punt formation with one Gunner on the left, a five man line, and one up-back.
The ball will be snapped to the up-back and he will carry it around the right end.
The Punter will fake like the ball was snapped over his head.
The Gunner will run down the field.
It's important that the RT seal his man to the inside.

8 Man Special Teams Punt Protection

8 Man Special Teams Punt Return Protect: This is formation to protect against a punt fake.
A normal defensive formation will be played with the exception of one Safety playing deeper than normal (to receive the punt).

There will be two safeties on this play - one playing about 10 yards from the line of scrimmage and the other playing about 20 yards back.

Each Gunner will be covered by a CB.

The rest of the players will rush while looking for a fake.

The deepest safety will help cover if it's a fake punt or hustle back to catch the punt if it's an actual punt.

It takes just 3 easy steps...

The answer will shock and delight you! This amazingly easy-to-use Football coaching tool will instantly save you hours of prep time, help you run more efficient practices, and give you a massive competitive advantage over other teams! And it works for every format of Flag Football, from 4-man to 12-man!

Desk of: Coach Steve Tucker
Monday, 8:01 AM

Dear Friend,

How would you enjoy suddenly having the reputation as the **most feared and respected coach** in your league?

Andy Whang knows how *that* feels... and he's been living up to the hype by tearing up the California Pop Warner circuit over the past four and a half years - routinely out-coaching experienced Football gurus on the way to a combined record of 48-6.

What's more, he's now ready to

Reveal His "Unfair Advantage"

to a select group of like-minded coaches.

Andy, you see, is not your typical Football coach.

He never played the game as a kid or in high school... and couldn't throw a spiral if his life *depended* on it.

He's a 37-year-old software designer from Rolling Hills, CA who wears *coke bottle eye-glasses* and weighs around **128 pounds... soaking wet**.

And his teams aren't usually much to look at either.

His kids spend more time playing X-Box than working in the weight room... and even his *wide receivers* can't break a 5 second 40.

In fact, when Andy's squad walks on the field to play against a bigger, stronger, more athletic opponent, onlookers have been heard to whisper...

“This Geek Coach And His Team Of Midgets Don't Stand A Chance!”

That's certainly what opposing coaches used to say as well. **But not anymore.**

Because when the whistle blows and the game begins...

Andy just sits back on the bench, relaxes... and watches his supremely prepared offense **pick apart the opposition** with razor-sharp routes and pinpoint passing.

When it's time to unleash his run game, every lineman fires off the ball in unison and **executes their blocking scheme to the T**... opening up massive holes that his running backs waltz through with ease.

And on defense, his DB's bottle up the passing game while his down linemen and linebackers

Hunt Down The Ball Carrier Like A Pack Of Starving Hyenas!

By the time the dust settles at the end of the first half, Andy's team is usually up by 20 or 30 points. He's a good sport, so he usually calls off the dogs at that point and coasts to another victory.

Is Andy some kind of genetically altered super-coach?

Nope. Even though he's been a long time student of the game, Andy was always too small and too uncoordinated to play.

In fact, he really struggled as a coach his first couple years.

He could always come up with these innovative offensive and defensive schemes... but was too **clumsy and unskilled** to ever demonstrate them to his players in practice.

He tried drawing up plays and drills on chalkboards and whiteboards, but the tangled mess of circles, zig-zags, and arrows ended up confusing his players instead of teaching them.

(I think we all know that feeling)

That's why Andy developed a Football coaching software that would allow him to easily design animated plays and drills, telestrate them, then share them with his players at the click of a mouse-button.

The results were nothing short of astonishing.

They Finally GOT What He Was Teaching

The animation and storyboard printouts allowed them to **visualize** the plays and drills, right down to the exact timing of a slant or the specific position for a block.

Why did it work so well? Because

Over 82% Of Us Are Visual Learners!

By using these **wickedly effective** animated plays and drills, practices became smoother and more efficient, and game-time execution became automatic.

Here's what this is all about...

Up to now, Andy has jealously guarded his Football coaching software... steadily improving it each season... allowing only a handful of coaching friends from southern California in on his dirty little secret.

Here's What They Had To Say...

"By Far The Best I've Tried"

"I've tried many football diagramming softwares this is by far the best. It is simple to use and has great flexibility.

Using the Whiteboard feature to draw routes and blocking assignments is very nice. I like how you have the option of drawing straight lines to show precise routes yet have the easy flexibility to add curves to running and blocking routes which makes it much more realistic.

The ability to draw up practice drills using pylons is a stroke of genius because it allows me to make up drills that I can pass to my assistants so they can get a visual of how a particular drill is supposed to look."

Coach Manny Juncos

Chino Hills Bulldogs
Micro Division

"VERY Easy To Design My Plays and Print Them Out"

"This is the first year in my 10 year coaching career that I feel "ahead of the curve" with my team's playbook. The software made it VERY easy to design my plays and print them out. In a couple hours I was able to turn out a very professional looking playbook. "

Tom Greneski

"Simple To Use... Very Flexible"

"The software is an incredible tool. It's like watching game film, only you get to create the film on a play by play basis. Very flexible... has a wide variety of applications. The program let me diagram the positioning and direction that a single player must go to on a certain play. It's a fantastic opportunity for my team to learn.

And it's simple to use. Literally, I loaded the software, brought it up, and started playing with it instantly."

Coach Richard Freeman
La Jolla Pop Warner Torreys
Junior Pee Wee

"Try it. You won't want to coach without it."

Derrick Parker
Assistant Coach
Otay, California

"A Tremendous Scouting Tool"

"Football Blueprint is going to be a tremendous help with scouting this year. I'll be able to pop in the looks we'll get from other team's and print out our plan of attack. I've already started designing and printing out plays for the guys to review as homework."

Chip S.

"By FAR The Most User-Friendly"

"I have 3 other play design softwares- this one is BY FAR the most user-friendly. The entire thing is intuitive- it's easy to get the players moving where you want them. The pre-loaded formations make a huge difference. I'd highly recommend this to other coaches out there."

Scott R Taylor
Orange County

"I Love How Customizable It Is"

"I coach 5-6 year olds and high school- both groups are equally excited when they see the play animation with their OWN names next to the players (for example- I label the QB "Tim", etc.). I love how customizable this thing is. Everything I wonder if it can do- it actually does. You can even adjust it for 8-man flag football."

Roch Varner
Los Angeles

"A New Competitive Edge We Can Bring To The Team"

"My assistants and I have been e-mailing animated plays to each other left and right over our lunch hour at our "day jobs". It's hard for my assistants and I to get together outside of practice and games to design plays and drills- this lets us do most of our planning long distance. Football Blueprint has really added a spark to our coaching this season- it is a new competitive edge we can bring to the team. Thanks"

-Travis Gilliam
Lincoln HS Varsity

After meeting Andy at a clinic this past summer, I was lucky enough to get my hands on a copy.

And when I shared it with a small group of coaches in our community and saw the **frenzied excitement** that ensued... I immediately knew that this was a resource that all SERIOUS Football coaches (and serious beginners) deserved to have.

Here's How You'll Use This Tool To Pummel Your Competition

It all comes down to a **simple 3 step process** that ANYONE can master (even if you've never actually played Football before).

In fact, if you can right-click a mouse, then you can immediately start creating stunningly effective football drills, plays... even entire playbooks... in just 3 easy steps. Guaranteed!

Step #1: Design The Animated Play or Drill

This software was specifically designed, tested, and tweaked to be ultra-easy to use.

Simply insert the players and create the animated sequence using your mouse.

Use one of the 12 preset formations... or create your own from scratch. You can even insert pylons, blocking sleds or tackling dummies.

The tool is super flexible and no "special skills" are required.

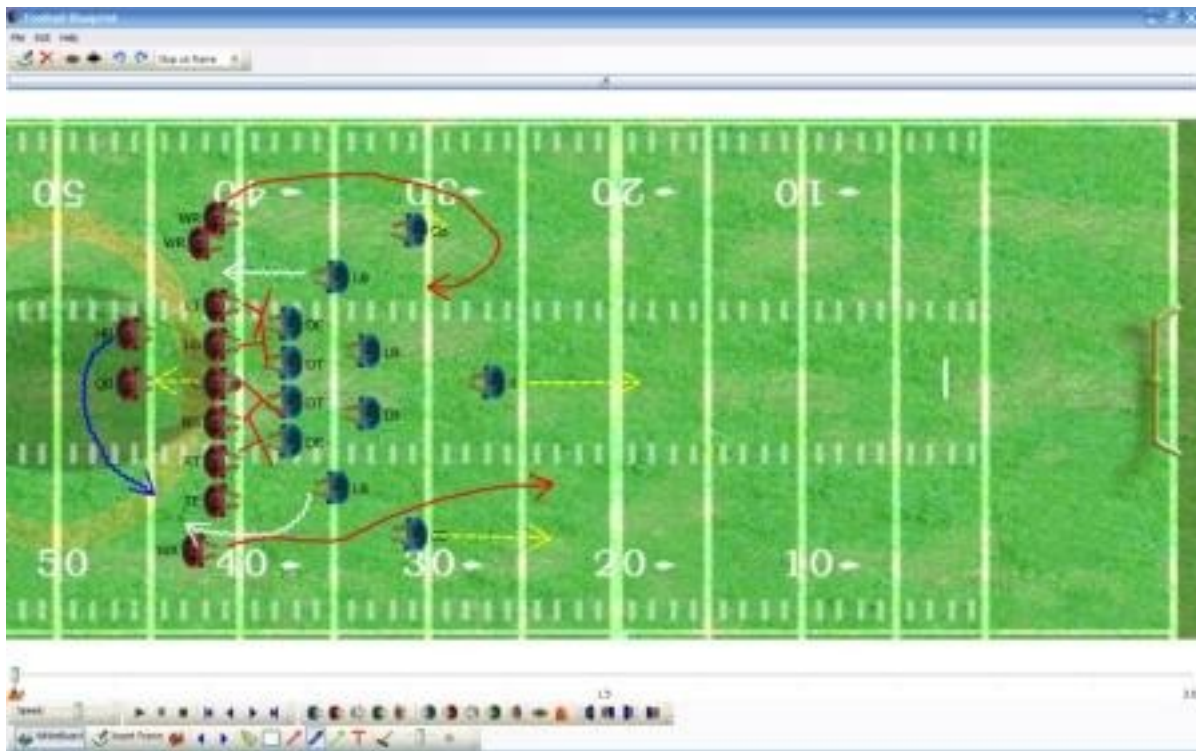

Step #2: Use Whiteboard To “Telestrate”

Football Blueprint’s Whiteboard feature lets you effortlessly map out the play or drill by drawing directly onto the screen using your mouse.

Instantly freeze the action by creating a Whiteboard frame, then draw ball and player movement directly onto the unfolding play or drill. Use the Comments feature to add a running commentary.

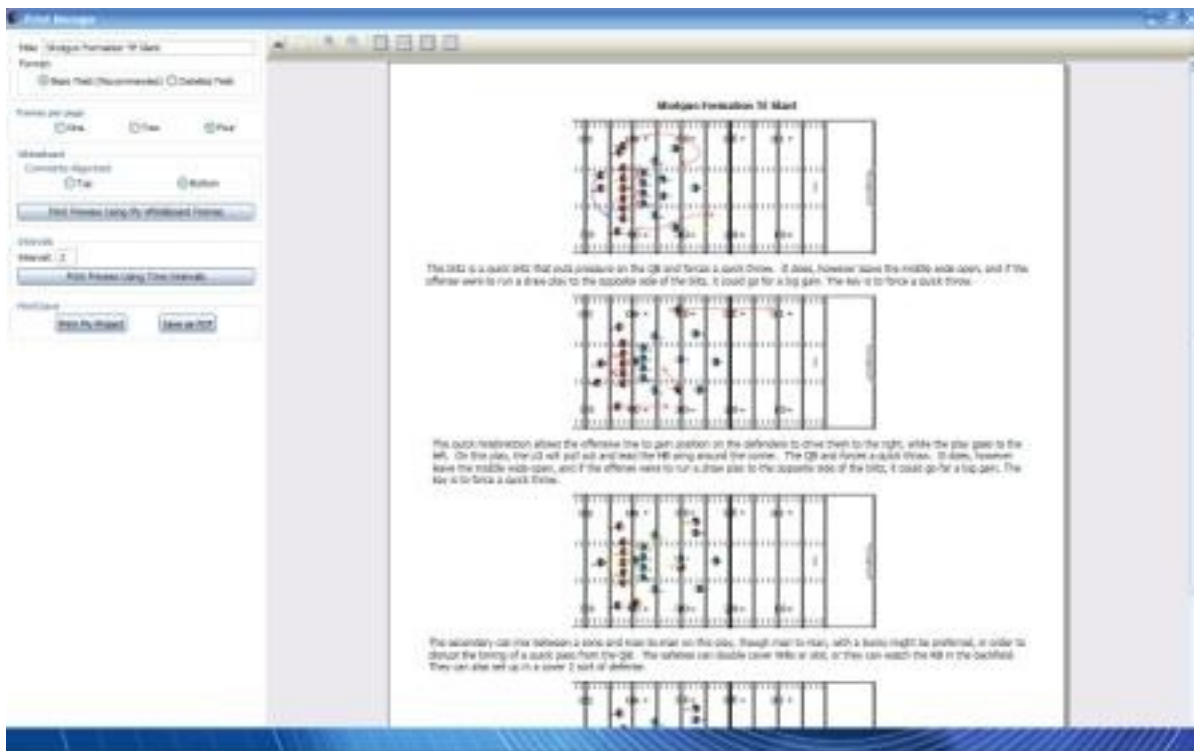

All the advantages of a real whiteboard, but without getting green marker all over your hand!

Step #3: Share With Your Team

Finally, create customized storyboard printouts showing step-by-step instructions to the play or drill.

Distribute them to your team before a game or practice or use them as a teaching aid in a team meeting. These high quality, video-game-like graphics will capture and hold the attention of the most fidgety player.

Follow this simple 3-step system and soon you'll have a **massive library** of customized plays and drills for your team.

You'll also have an indispensable coaching tool that will streamline your practice planning and supercharge your game execution.

And as I'll explain in a minute, you don't even risk a single penny of your own money.

Football Blueprint is truly

The Most User-Friendly Football Coaching Software On The Planet

I know that's a strong statement, but I can back it up 100%.

I've tried out pretty much every Football coaching software out there...

From bargain basement programs that weren't much better than having a pen and paper napkin... to ultra high-priced "premium" softwares that didn't accomplish HALF of what they claimed to do.

And they all ended up in the garbage can because they were impossible to use.

You risk nothing. I take this Football coaching thing seriously, and I protect my reputation like Brian Urlacher protects the End Zone. If you are not completely happy, for any reason at all, then I insist you ask for a refund.

If you aren't ready for what I offer... that's fine.

Some of these secrets and tactics are so far out of the "mainstream" that only experienced coaches know how well they work.

So don't hesitate. [Order this stuff today](#), right now, while it's still hot in your mind. And prepare to have your mind blown... and your entire coaching perspective change forever.

It really is that powerful.
