

Educate employees about their benefits with on-demand, chaptered videos

Our branded, presentation-style **benefits overview videos reduce dependence on face-to-face benefits-enrollment and new-hire-onboarding meetings.**

They are a high-quality, affordable solution for educating remote employees about available benefits, paid leave and wellness programs. Our exceptional project managers make the entire process quick and easy.

We Make the Process Easy for You

1

Start with Fлимп's professionally designed slide template, pre-populated with content typical of a 10-minute Benefits Overview video, including:

- Welcome
- Table of contents
- Benefits eligibility
- Enrollment details
- Medical plan options
- HDHP
- HSA or HRA
- How to use your HSA
- Flexible spending accounts
- Dental benefits
- Vision benefits
- Prescription drugs
- Choosing a healthcare facility
- Telemedicine
- Wellness program
- EAP program
- Commuter benefits
- Life insurance
- Retirement benefits
- Voluntary benefits (multiple)
- Paid holidays
- Contact us

2

Edit the content deck with your benefits details, then send it to your project manager along with your brand guidelines.

Brand guidelines might include company colors, logos, fonts, etc., as well as any photos or graphic assets you'd like to see incorporated into the video.

3

Fлимп will design a custom storyboard based on your content.

You'll be able to provide feedback on both the script and the designs throughout the storyboarding phase. Once the storyboard is approved, you'll select a talent from our roster of professional voice-over artists and we'll turn around a draft video for you to review in a few short days.

Ashley Cooke
HR Manager

TangerOutlets

"Thanks to Flimp, communicating with our employees is a seamless process. It's an engaging alternative to traditional media. We look forward to continuing to work with them for our communication needs."
